

NEW EVIDENCE AGAINST JIM CONLEY REPORTED

Burns Is Rapidly Completing Investigation of Phagan Mystery.

That startling evidence has been obtained against Jim Conley was a report that gained headway in the Frank case yesterday. Whether or not it was secured by Detective Burns it could not be learned.

Burns refused to talk on the subject, as did the various members of Frank's counsel. Burns is rapidly completing his investigation and will likely render his report during the early part of next week.

He stated Friday that he would consult with anyone during progress of his investigation who knew of any evidence bearing on Leo Frank's character. He indicated that he had thus far found nothing to substantiate the bad character charges that were made against the prisoner at his trial.

Burns held a short conference Friday morning with Mrs. Lucile Frank, wife of the superintendent, and with Rabbi David Marx. Neither would discuss the nature of their conversation.

DOCTORS ORGANIZE IN CAMPBELL COUNTY

Fairburn, Ga., April 10.—(Special.)—Campbell county physicians have organized at Fairburn the Campbell County Medical society, the purpose of which is to promote the interest of the profession by monthly meetings, at which papers on live medical topics will be read and discussed among the members with a view to increasing the efficiency and usefulness of the members in their service to the public.

Senator J. T. Longino, M. D., was elected president; Dr. C. S. Merriam, vice president, and Dr. Thornton Camp, secretary and treasurer. Drs. L. M. Hobgood, W. R. Camp and Harry Harvey constitute the board of censors, whose duty it is to see to it that the ethics of the profession are observed in the practice of medicine in Campbell county.
