Conley's story was the vilest and most amazing pack of lies ever conceived.

"CONLEY'S STORY THE VILEST AND MOST AMAZING PACK OF LIES EVER CONCEIVED"

The vilest and most amazing pack of lies ever conceived in the history of a wicked human being, is the way Leo M. Frank characterized the remarkable story of Jim Conley, the negro witness, who testified that he saw Mary Phagan enter the factory, that he heard her screams in the metal room a short time later, that Frank then called him and he went up and found the superintendent in a panic and the girl dead. Conley's story was the vilest and most amazing pack of lies ever conceived.

"Furniture of Worth" Is the Only Kind of Furniture in This August Furniture Sale

There is genuinely good furniture; and attractive imitation furniture. Unless you see both kinds, it is sometimes hard to tell one from the other. Housekeepers about to buy furniture, therefore, will do well to shop around before making a final decision.

More than half the furniture bears reductions of only 10% to 15%. We make no such profits that justifies our cutting prices in two regular stocks.

Counterfeits.

Read what one of the GREATEST NEWSPAPERS IN AMERICA has to say on this subject:
"The manufacturers of Oastoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Oastoria trademark. This counterfeiting is a crime not only against the proprietors of Oastoria, but against the growing generation. All persons should be careful to see that Oastoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents and mothers in particular, ought to carefully examine the Oastoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Oastoria bears the photo-imitation signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.—Philadelphia Bulletin.

Conley's Glibness May Prove Unfortunate for His Testimony

Negro's Receptive Manner of Telling His Story Gives Impression That He Has Rehearsed It Many Times
Jim Conley Monday morning testified through the Frank J. Ryan trial that he had seen the man who had been shot in the back of the head in the street in front of the store where the shooting took place.
Conley's testimony was so glib and so confident that it gave the impression that he had rehearsed it many times. His answers to the questions of the jury were so direct and so to the point that it was almost impossible to believe that he was a man who had just been shot in the back of the head.

The water supply is now being pumped from the reservoir and it is expected that it will be in good order in a few days longer.

Legislature May Be Asked to Pass Original Bill or Let Citizens Vote

Supporters of the new city charter bill probably introduce in council this afternoon a resolution requesting the state legislature to submit the proposed charter to the people just as it was formulated by council, or, failing to do that, the people give a referendum to vote on the amended charter. The question of changing the charter is now being discussed by the council and the question of the initiative referendum is still a moot point.

The "Blue Tag" Furniture Sale
Is the Time of the Whole Year to Buy Furniture
"How fine it would be," remarked a customer the other day, who was evidently much pleased with her purchases, "if we could always buy furniture as we can in this 'Blue Tag Sale.' It was more of a wish than anything else, the futility of which she had appreciated, and so, had acted accordingly.
No store could sell furniture regularly as we are during this "Blue Tag" season, so, following the logic of the Mahomet-and-mountain episode, those who need furniture will go to this sale.
Its opportunities are those of the South's greatest stock of furniture offered at prices that, in view of, in SPITE of the upward tendency of furniture prices, are reduced in a fashion typical of Chamberlin-Johnson-DuBose Co. clearaways. It leaves nothing wanting. One might travel far and wide to find such a variety of furniture to choose from—it takes a big, five-story store to house it—and still, mere quantity is not the point we would emphasize—it is the KIND of furniture with which we have filled this store (which you may now own at healthy savings) that we are proudest of. It is all honest, True-Blue Furniture whose life will be the long life of seasoned woods properly treated and finished by men who know how, the worthiest at every price that we could find in the big markets of America. No specially bought sale stuff with screws of glue, and grain of varnish has entered here.
THIS IS A SALE OF SAFE FURNITURE!
So, whether it be furniture for
Period Furniture
It is worthy of particular note in this noteworthy event that, although every little separate chair, rocker, desk, table, cushioner, and the like in stock (excepting contract-price pieces) is included, some of the healthiest reductions are on the rich and true sets of Period Furniture and reproductions of antique pieces—Sheraton, Jacobean, William and Mary, Chippendale and others. Sets for bed-room, dining room and living room.
