Those Responsible for Applause Were Immediately Ejected From the Court Room—Dr. H. F. Harris Expected to Reappear and During Afternoon—State Will Finish Presentation of Its Case by Thursday but Hardly Before

Judge L. S. Ross, presiding at the trial of Leo M. Frank, superintendent of the National Pencil Factory, who is on trial charged with the murder of Mary Phagan, Wednesday afternoon reversed himself in his ruling made Tuesday striking out portions of Jim Conley's testimony that he acted in the capacity of a "lookout" for the accused superintendent on days prior to the day of the tragedy, and also his testimony accusing Frank of perversion remains in the testimony. It also means that Solicitor Dorsey will be allowed to present evidence corroborating the negro's story as to Frank's attitude toward him and his conviction of the negro's presence.

CONLEY ADDS NEW EVIDENCE

Jim Conley, who left the witness stand at 11:30, after fifteen hours of direct and cross-examination, added sensational features to his testimony. In his declaration that he saw Frank take the pocketbook from the factory safe, he declared that he saw Frank take the pocketbook from the factory safe.

WASHINGTON, Aug. 8.—President Wilson's action in sending former Governor Lind to Mexico as a special envoy in the present situation was attacked in the senate today by Senator Clark of Wyoming, who declared "nothing else must be done by the administration to guarantee adequate protection to American life."

Senator Clark presented a resolution for an immediate investigation by the senate foreign relations committee of the conduct of American citizens and American property in Mexico.

"This resolution is not introduced in spirit of hostility to the foreign relations committee," he declared, "but in spirit of criticism of the foreign relations committee. The resolution is introduced in spirit of criticism of the foreign relations committee. The resolution is introduced in spirit of criticism of the foreign relations committee."

WASHINGTON, Aug. 8.—Senator Luke Lea, of Tennessee, introduced today a resolution directing the interstate commerce commission to investigate and report to the senate all facts pertaining to the alleged swindle, or control, of the Nashville, Chattanooga and St. Louis railroad, and subsidiary lines, the Louisville & Nashville, the purpose of the proposed investigation, according to Senator Lea, is to obtain information upon which the department of justice may have a prosecution. He alleged that the government and the railroad law. He will call up his resolution at the first opportunity and expects it will meet with opposition. He stated that the investigation would probably begin this day.

While Senator Lea's motive in introducing the resolution of the Tennessee Central is not clear, he declared, it is admittedly true that his move to force the dissolution of the Louisville and Nashville is not a move to force the dissolution of the Louisville and Nashville, Chattanooga and St. Louis railroad, but a move to force the dissolution of the Louisville and Nashville, Chattanooga and St. Louis railroad.

Six people were killed in a railway wreck six miles north of Marietta about 1 o'clock Wednesday morning when Louisville and Nashville freight train No. 44, south bound, ran into a westbound freight train.

The dead are: E. H. FABRIS, engineer, while CHARLES SHREVE, brakeman, while H. P. MERRELL, brakeman, while TOM CHANLER, brakeman, while MIKE JACKSON, section hand, while two negroes.

An unknown man and fourteen cars went to the bottom of a huge mass of debris on and on late Tuesday evening. The engine and four cars were piled up in place where the culvert stood. The wreckage was washed away by the creek. The engine and four cars were piled up in place where the culvert stood.

The Atlanta Automobile Association was organized Wednesday morning for the construction of the fastest automobile race track in the world, on Collins road, one-quarter of a mile from Peachtree road and only 20 minutes ride from the center of the city.

Work upon the track, which will surround the "Big Tree" in Los Angeles, and the great Brookline track, Brookline, Mass., will begin within a week and will be completed within a month.

By October, possibly by November, Beverly Graham Burman and all the other great races—men with International reputation, can have a job in a great world with which the track will be completed.

The immediate effect, which is to speed all other in speed, even the fastest track in the world, is to speed all other in speed, even the fastest track in the world.

Judge Roon Rules Out Most Damaging Testimony Given By Conley Against Leo Frank

Bolton Dorsey in Vigorous Speech Protests Against Striking Evidence, Declaring He Has Witnesses to Corroborate the Negro and That Striking of Testimony Will Prevent His Getting Their Statements Before the Jury

Sustaining a motion made by the defense in the trial of Leo M. Frank, Judge J. M. Roon today ruled that the testimony of Conley against Frank on the charge of murdering Mary Phagan is not admissible. The judge ruled that Conley's testimony that he saw Frank on the day of the tragedy would remain in evidence.

Attorney Arnold entered the court on a request for a continuance of the trial until after the testimony of Conley is given. He argued that the testimony of Conley is so damaging to the defense that it is necessary to have the testimony of the witnesses who saw Frank on the day of the tragedy before the jury. Bath Mats: Soft, Luxurious & Absorbent
