

CITY WILL SPEND NEARLY \$700,000 ON IMPROVEMENTS

Plans for Street and Sewer Work Comprehend the Employment of Two Thousand Men.

THIS DOES NOT INCLUDE COUNTY CONVICT LABOR

Representatives of the Ten Wards of the City Submit Definite Plans for Paving and Regrading.

Plans which comprehend the expenditure of nearly \$700,000, and the employment of more than 1,000 men in addition to the convict labor on street and sewer improvements, were launched at a joint meeting of the street committee of council and the public works committee of Fulton county Tuesday afternoon.

Representatives of the ten wards of Atlanta who are members of the street committee submitted definite plans for street improvements. These plans, if carried out, will mean that the city's appropriation of \$125,000 for streets and \$250,000 for new sewers and sewer extensions will be spent before the end of the year, which will mark, according to city officials, the most progressive year in the history of the city.

County Will Co-Operate

It is the desire of the county commissioners to co-operate with the city in every possible way to get the extensive improvements rushed through. Assistant Commissioner W. Tom Winn in outlining the plans of the commission. "On the other hand, we want the city to co-operate with the county. If both sides get together on an operative basis I believe that we will get through more work this year than ever before."

Requests for work from the ward representatives were taken under consideration by the county commissioners. The public works committee, which is composed of Commissioners W. Tom Winn, Jeff Hightower and C. H. Mills, is holding a meeting every day for the purpose of arranging a program to guide the city and county in all street improvements and sewer extensions during the year.

Next Friday the street committee of council will hold its regular meeting. At this session the city and county will reach an agreement as to which of the several big projects will be launched.

Among the improvements which have given the city and county and property owners the most satisfaction is the extension of the Butler and Highland avenue sewers. Members of the fourth ward in council—Aldermen Thomson and Coudemont Ashley and Farringer—have not asked for any impressive street improvements, but will have their efforts concentrated on extending the two sewers. The Highland avenue-S. Charles avenue-S. Louis trunk sewer will be extended for \$500 feet north, at an estimated cost of \$1,000, and the Highland avenue trunk sewer will be extended just as far as the expenditure of \$17,000 will permit.

Members of the fourth ward delegation believe that they will be satisfied if the sewers are rushed, they will be satisfied if street improvements are concerned, in the paving of North avenue extending through the eighth and fourth wards.

Widening of Bottle-Neck. The widening of the bottle-neck at the junction of North and Highland avenue will be completed this year at a cost of \$10,000. The money has been provided for in the fiscal year and already a little more than \$2,000 has been authorized. The widening of the property owners for the portions of the property they have decided over to the city to make the widening permanent.

This year the finance committee provided a fund of \$15,000 for emergency purposes. In addition to the above fund, the finance committee provided for a fund for \$25,000 for asphalt and bituminous repairs, \$2,500 for Belgian blocks, and \$2,000 for wood blocks.

Work of Reurfacing. For the work of reurfacing and resurfacing the old city hall, the city, in lieu of furnishing material on the several jobs, pay the contractor the prevailing prices to cover in full all cost of the work.

For three inches new stone, asphalt binder, 35 cents per square yard; for two inches, 43 cents; for three inches, 52 cents; for four inches, 61 cents.

The work will necessitate the use of machinery, and the employment of twelve free laborers and thirty convicts. Where car tracks are encountered the convicts will be used to do the surface with picks and shovels.

A number of streets are to be repaved with three inches of stone will be required, and the contractors will be required to furnish material to the city, and the city also agrees to take care of the following work: To take care of the paving and grading submitted by ward representatives.

Ward Paving Program. First Ward—Regrade and widen West Mitchell street (city's share), Marion and Turner road, Ashby in street, and the widening of the street from the city line to the Georgia avenue from Fryer to West.

Second Ward—Pave street paving and widening of the street from the city line to the Georgia avenue from Fryer to West.

First Voyage Toward New Orleans.

Savannah, Ga., February 23.—George P. Armstrong, vice president of the Georgia-Caribbean Steamship Line, said this evening that he had received no news concerning the destruction of the Carib, which was on a voyage from Savannah to New Orleans, and was for some time in the Gulf of Mexico. The Carib was recently captured by the German submarine U-10, and was taken up in due time with the state department by the German, although this was not definitely decided.

Mr. Armstrong said his chief anxiety at present is concerning the fate of the crew. The Carib was fully insured.

Mr. Armstrong said that the Carib had a German pilot aboard, who was taken on at the Hook of Holland, and he further said that the ship, according to the advice, was following a customary course through the North Atlantic.

WRONG ROUTE TAKEN, GERMANY EXPLAINS.

Berlin, February 23.—The German government today explained the route taken by the Carib, which was captured by the American steamer Evelyn, and said that the ship was following the course prescribed by the German admiralty to a point northwest of Iceland.

The memorandum reiterates the statement made last night by the German government, that the Carib was following the course prescribed by the German admiralty to a point northwest of Iceland.

RUSSIAN CHECK THE FRENCH

Fighting in Progress on Virtually Entire Eastern Line, But General Staffs Furnish Few Details.

London, February 23.—The allies in the west again have stayed their offensive, which had as its object the relieving of the pressure on Russia. The belief in military circles here is that Russia has checked the Austro-German offensive in the Carpathians, and that the long line and that, therefore, the necessity no longer existed for the allies to make their effort before they were fully prepared.

There has, however, been some fighting near the coast, at Tyra, in the Carpathians, where the French are attempting to push the Germans back from Rhine and relieve that city from the bombardment which it has again undergone, and in the Vosges and Vosges districts. At none of these points has a battle of any dimensions been fought, and the operations have been limited to the safety of the prescribed course.

BATTLES RAGE ON RUSS FRONT.

Fighting is going on along virtually the entire Russian front, but the reports of the general staffs give little or no information of the progress of the campaign. The Russian front has been strongly reinforced since their defeat in East Prussia, have reached their prepared positions to push the Germans back from Rhine and relieve that city from the bombardment which it has again undergone, and in the Vosges and Vosges districts. At none of these points has a battle of any dimensions been fought, and the operations have been limited to the safety of the prescribed course.

Washington Sends Notes to London and Berlin in Effort to Reach Understanding—Apprehension About Submarine Warfare.

Washington, February 23.—Proposals have been made informally by the United States to both Great Britain and Germany suggesting a trade for understanding on the subjects of foodstuffs and the carrying of passengers by belligerents and submarine warfare against merchant ships.

These proposals have been guarded with the utmost secrecy, and officials have not revealed their nature because of the delicacy of the negotiation.

Simultaneously, the United States has suggested that a new move had been made by the Washington government, came to the attention of the British and German governments, and that the United States was making a move to reach an understanding on the subjects of foodstuffs and the carrying of passengers by belligerents and submarine warfare against merchant ships.

WOMEN CAN HARDLY BELIEVE

How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eldon, Mo.—"I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk more than a few blocks without drawing pains down my right side which increased every month. I have been at that time people in the face and would not walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

"MY HEALTH IS PERFECT"

So Says a North Carolina Lady in Telling What She Owes to Cardui, the Woman's Tonic.

Mr. Alry, N. C.—Mrs. Ada Hull, of this place, says: "About six years ago I got in very bad health. I suffered terrible pains in my abdomen and back. I dreaded to see the sun rise and I dreaded to see it set. For I suffered such agony. No one except myself ever knew how badly I suffered. The doctor said I was suffering as a result of the menopause."

As nothing gave me any relief, I asked the doctor if I didn't better try Cardui. He said, "It might help you, and told my husband to get me a bottle. At the time I was so weak I could not lift my head, and my voice was so weak, people had to lean toward me and hear what I said. I looked so bad and had such a dark color that I looked like a dead woman, and my relatives thought I would never get up again."

I took one bottle of Cardui and it relieved the pain and suffering so much that my husband got another bottle, and that improved me still more. I began to strengthen and gradually got well. I have now had better health for six years than I ever had in all my life. I have taken no medicine since, and my health is perfect."

Cardui is the finest medicine a woman could use.

WRIGHT IS EXJOINED IN EMPIRE LIFE CASE

Decision of Judge Pendleton Ousts Jurisdiction of the Richmond Court.

Judge John T. Pendleton, of Fulton superior court, on yesterday handed down his decision in the long-drawn-out litigation of the Empire Life Insurance company, sustaining the writ of prohibition directed against William A. Wright as insurance commissioner, and permanently enjoining him from undertaking to administer the assets and business of that company, which had previously been placed in his charge by order of the judge of Richmond superior court.

It will be recalled that a bill asking for the appointment of a receiver for the Empire Life Insurance company was filed by Judge J. J. Hill in the Fulton superior court, during last summer, and that Judge Hill, under the terms of the hearing of argument upon the depositions, ruled that the depositions to the petition and held that under the allegations of Judge Brown's bill he would be entitled to the appointment of a receiver.

In the meantime, William A. Wright, insurance commissioner of Georgia, filed a petition in Richmond superior court, alleging that the case in the Fulton superior court was a nullity, and that the Empire Life Insurance company was such as to constitute a corporation, and asking that the court should order the appointment of a receiver for the company.

The decision of Judge Pendleton, handed down yesterday, makes the writ of prohibition permanent. It is a final decision, and it is a decision that will be a great relief to the company.
