SHEPPARD SUBSTITUTE FOR LIPSCOMB BILL IS PASSED BY HOUSE

Votes of State Board Tax Reformers Were Needed CASTRO'S RETURN to Carry the Measure Through.

ROLL CALL SHOWS FRIENDS AND ENEMIES OF REAL TAX REVISION

Many Went on Record for Measure They Did Not Indorse in Hope of Senate Amendment.

At the close of a morning session, which was prolonged until after 3 o'clock in the afternoon, the house on yesterday passed the Sheppard substitute for the Lipscomb bill by a vote of 107 to 59

This was only fourteen votes over the required constitutional majority, and without the help of tax reform ers, who believe in a state board and equalization among counties, it would have been impossible for the bill to

have passed at all. Quite a number of members who had lined up with Mr. Sheppard and Dr. Stovall in the mutilation of the ways and means committee bill did not vote for the Sheppard substitute under surveillance to prevent his reand went on record as opposed to any form of tax revision whatever.

s assistance. Dr. Stovall, of Elbert, who, more than any other, was responsible for the mutilation of the ways and means bill, was one of those who voted for the adoption of the Sheppard substitute and then voted against it on its final passage.

Tax Reformers Saved Substitute. This seems clearly to have demon strated what the advocates of the ways and means bill have claimed from the first, that the Sheppard substitute was put forward in the hope of defeating all tax reform. That it did not succeed in doing this was due largely to the efforts of those open and in earnest advocates of tax revision, who came to its aid at the last moment and would not allow it

to be butchered at the hands of its

That Mr. Sheppard himself worked very earnestly for the salvation of measure, when its passage seemed to be threatened cannot be doubt-This is shown by the fact that even called upon the state board revisionists to save it from defeat. Of the men to whom he yielded his time, after the previous question had been called, one was an outspoken thoroughgoing advocate of the state board principle, who had deter mined to vote for the substitute as a last resort to save the cause of tax reform, and another was a member vho had always been counted on that

An Extraordinary Situation.

A still more extraordinary situation was presented, however, when ne of the men called upon by Mr. Sheppard to defend his measure, advocated it on the floor of the house and voted for its adoption, but cast his vote against it when it was up

It was at first thought that the bill by substitute would pass with difficulty after the substitute had been adopted. Members were generally averse to another roll call, as the hour of 2 o'clock had been

Washington, August 1 .- News of the appearance in Venezuela of ex-President Cipriano Castro, after his five years' exile, caused something of a sensation at the state department today. For the past five years the department has been keeping Castro turning to Venezuela, which country has been enjoying a period of unwanted prosperity and quiet since his re tirement.

Department officials supposed the exile was living quietly in the Canary Islands until a cablegram came today announcing his re-entrance into the country of his birth at the head of an armed force, while various uprisings said to be at Coro.

IN MACON COURT

Prohibitionists Claim That the Decision Means the Death Knell of Near Beer Saloons in Georgia.

Macon, Ga., August 1.—(Special.)— According to Macon prohibitionists, Judge H. A. Mathews, of the Bibb su-perior court, this afternoon sounded when he granted a permanent injunc-part tion against the saloon of Ed Cassidy playe on Cotton avenue. After a hearing, which lasted all day, on a petition brought by the Law Enforcement league of Macon, and signed by fifty saloon of Cassidy was a public sance and ordered the place closed.

The judge refused to grant a super cedeas until the case can be passe on by the supreme court.

The decision is claimed to be far-reaching importance as regards the prohibition law in Georgia, for if the supreme court sustains Judge Mathews, the Macon Law Enforcement league will bring similar proceedings against every saloon in the city, and it is said to be the intention to wag

out the entire state. Saloon Men Downeast There is no denying the fact that the saloon men of Macon are considerably downcast over the decision of Judge Mathews, but they are pre-pared to fight to the last, and for that purpose have formed an association with which to provide funds to

carry on the fight. Similar cases to that of Cassidy are now pending against Charles Bekakes proprietor of a saloon on Ocmulgee street, and Tony Cutro, a locker club proprietor. These cases, however, along with charges of contempt of court for alleged violation of the tem porary restraining order granted some time ago by Judge Mathews

R. F. Willingham and H. W. Elking both testified that the ad seen cales of whisky made at the Cassidy place.

The defense introduced no testimony, but in the arguments by At-torneys Cooper and Hall it was con-

tended that the proceedings were irregular, in that they were not brought through the solicitor general's office Attorney Cooper declared that if all the saloons in Georgia are closed up it will mean a loss in revenue to the state of \$300,000 annually and it will be necessary to call a special session of the legislature to devise means of raising money to defray the expense of the state. He said it means the throwing of 11,000 people out of em-ployment and in Macon alone it will shut down close to 100 places of business. Washington, August 1.-Secretary McAdoo today prepared to distribute twenty-five to fifty millions of dollars of government funds in the agri-cultural regions of the south and west. The secretary is collecting informa-tion as to the relative needs of each section where harvesting is now under way or soon to begin, and expects to have the money in the banks in ample time for the movement of crops. Treasury officials today were confident that the secretary's plan would be a powerful factor in averting or elieving the prospective tightness of money characteristics of the crop

Much interest was manifested in the secretary's declaration of willingness to receive prime commercial paper as security for the deposits. This innovation marks the government's first participation in the commercial mar-

THE SENATE'S OPPORTUNITY.

The house yesterday committed itself to a bare excuse for a tax equalization bill, and, strange to say, the substitute as passed secured an affirmative vote only by the aid of those who had been standing for genuine tax reform as represented in the bill of the ways and means committee. Proving that many of those who antago nized the ways and means bill were against any measure that looked to tax reform, quite a number of those who originally were supposedly lined up for the substias against the committee measure actually voted against the substitute itself after the adversal of the committee's bill. The substitute was saved by those who favored the committee bill, they preferring this to no legislation at all, supporting the substitute with the hope that, taking it as a basis, the senate might build up on it and return to the house a real tax reform

It is true that county boards of equalieven these boards are given very flimsy authority. The absence of a central authority, or balance wheel, means that eventually the counties now giving in re turns at a rate that most nearly approaches the real value of property will cease to do so. They will, inevitably and in self-protection, follow the pace set by the counties giving in the lowest ratio-10, 20 or 30 per cent, as the case may be. For no county can be expected to tax its citizens at a high rate; when counties all around are taking advantage of the laxity of the law to turn in just what they please and no more. Seemingly, the house has acted upon the principle that public sentiment demands that something be done, and it has with apparent deliberation done as little as it could and make even a plausible show-

The one redeeming feature of the house's action is that the poor and evasive measure it did pass keeps the issue alive and carries it to the senate, which appears to have the courage and the patriotism to enact a real tax equalization measure. The senate cannot originate revenue legislation. Had the house strangled equalization outright instead of by subterfuge, the matter would have ended there.

As it is, the house's apologetic bill now goes to the senate where, if the temper of that body is correctly estimated, the state is justified in expecting results.

The finance committee of the senate has already given evidence of its nerve in grappling with the crisis, in its action in knocking \$280,000 from the house appropriations bill. That is precisely the excess of house appropriations over current revenue. The senate recognizes the principle that it is as dishonest for a state to spend more than it takes in as it is for an individual to do so. It proposes to place itself on record as determined to put the state in an attitude of honor and orderly business procedure, and its course in using the appropriations bill as a club in this crisis

is wholly justified. The senate will earn the gratitude of the people if it refuses to recede from its position until it secures legislation protecting the edit, the honor and the reputation of the state.

THE WAYWARD GIRL'S HOME.

Friends of the measure committing the state to the construction of a home for wayward girls are hoping, with the cooperation of Chairman Crawford Wheatley, of the house appropriations committee, to enact it in such shape as will at least enable the institution to get a start this year. From the very first there has been no doubt that members of the appropriations committee and the subcommittee unanimously agreed upon the desirability of the movement. The one hitch has come in the matter of an appropriation, with the legislature already having to pare and prune to pay the state's fixed charges, and failing even in that.

Chairman Wheatley knew that if the bill came to a vote under these conditions, and carrying a large appropriation, it would be defeated. Being heartily in sympathy with its principle, he saved the bill by having it tabled. It is now proposed to take the bill from the table next Tuesday and pass it with this amendment-that the state appropriate this year a nominal sum only, anywhere from \$500 to \$1,000, so that the institution may at once be gotten under way with the official indorsement of the state. The advocates of the movement notably the good women of Georgia, be lieve that with a home given the official sanction of the state, they will be able to secure large outside contributions such as would, in the long run, lessen the amount ultimately to be asked of the legislature.

The compromise thus suggested has the approval of Chairman Wheatley and other members of the committee and subcommittee. Involving only a small appropriation, it should appeal successfully to the legislature. As to the merits of the movement, The Constitution need add little to the arguments it has already advanced in favor of the home. It is estimated that each year from ten to twelve girls in each county in Georgia are lost through the lack of such an institution. That one fact ought to render superfluous any elaborate plea in behalf of the home.

DISHONOR'S REWARD.

England and Germany have decided not o participate in the exposition to be held at San Francisco to celebrate the opening of the Panama canal. While no official explanation has been proffered, it is generally understood that both these powers are actuated by the position of the United States with regard to Panama canal tolls.

And England and Germany are thoroughly justified. They would cut pretty figures participating in an exposition to mark the opening of the canal when the United States has made the canal available to their ships only under conditions of outright national dishonor.

A few zealous persons in this country will, of course; proceed now to declare that Europe is taking this attitude to browbeat us into repealing that clause in the Panama canal act which exempts our own coast wise vessels from tolls

It should be immaterial to the man who sincere with himself whether the action of England and Germany is a bluff or put forward seriously. The main thing is that the repudiation of a solemn compact by a great nation has brought its inevitable consequences in retaliation. And the compar atively trifling loss of these foreign exhibitors, and the larger loss which may result from a trade war, are the smaller consider. ations. It is the stultification and shame of repudiation that should make every American with the slightest sense of honor wince for the wound to his country's repu-

If the dog gone old chump had to swallow buttermilk and keep the fact to himself it would make him sick inside of twenty-four hours, there's no law against talking people's arms off, so he feels ever so much better.

"It isn't what you eat or don't eat that makes you feel better; it's this thing of going around telling windy stories that does it. That's at the bottom of all fads. People live on skimmed rainwater, not because they rainwater, but because it gives them something to talk about until falls out. In the last two or three days I've heard you tell a dozen men that you're not eating an ounce of meat nowadays, and I noticed that every one of your violings yawned at the top of his voice and took the first opportunity to make a sneak. You talk in such a superior way, as though there's something particularly virtuous in doing without meat, that you make everybody sore and tired, and one of these days a sufferer will pick up a chair and pat you on the head with it. I have some respect for that sort of man, for he takes chances. But I haven't much respect for the citizen who tries to attract attention by living on sawdust, or for the one who writes a patent medicine testimonial in order to get his picture in an almanac "Old Turpentine has had a holiday as-sortment of diseases for a good many years, and he's always discovering some new and remarkable remedy. For a while he was osting Dr. Bildad's syrup of wild onions as the greatest thing that ever happened He carried a bottle around in his pisto pocket and urged his friends to take a snifter. He insisted that Dr. Bildad should be president of the United States and that congress ought to pass a law requiring every citizen to consume at least'a ga of the syrup every day. After a w the exasperated people began to tell citizen to consume at least a gallor while that if he didn't quit yawping about Dr. Bil-dad and his dodgasted syrup, they'd forget ne was an invalid and deface the landscape with him.

"So he had to hunt up a new topic, he began explaining that he was mistaken about the syrup after all. It was greatly overestimated. At last he had found the real thing, however. It was Dr. Playfair's compound tincture of dandelions and bullthistles. . He wasn't happy unless he was telling how much the compound tincture had done for him, and on several occasions had to push him out of this hotel to keep the guests from rioting. It went along that way for months. He'd talk up one cine until he saw that the intelligent voters wouldn't stand for his discourse any longer, and then he'd take up another, and ever one was better than the last, and none of

The Lyttelton Ghost.

(From The Pall Mall Gazette.) The story of the Lyttelton ghost is one of the best of English family legends. Thomas Lord Lyttelton dreamed one night that a bird flew into his room, changed into a woman in white, and bade him prepare to die. "I hope not soon," he said: "not in two months." "Yes, in three days," replied the spectre.

He told of the dream at breakfast next morning (Thursday, November 25, 1779). On Saturday he was in excellent health, and thought he would "bilk the ghost." A few minutes before midnight on that day, just as he was undressing, he fell back dead.

They Sell 'Em Everywhere.

The Atchison Globe tells of a pathetic ight on Main street the other morning. An old and very poorly dressed colored woman was in a frenzy of grief; she walked and down the street moaning and wringing her hands and searching for something she had lost. When asked what her trouble was, she wailed that she had lost her "ticket to heaven." She explained that in her church each member who paid a certain sum of money was given such a ticket. This old colored woman believed implicitly in the power of her ticket; to her it represented a berth in heaven. She had paid for it with hours of back-breaking labor

But the problem of their origin remains unsolved. "It is almost certain," says one authority, "that no common origin for all of hem can be assured." Another noted authority takes an entirely different view when he affirms that, "Indeed, it may be correctly said that no other race shows equally permanent and individual traits; be-cause there is none that shows so little variation over such a wide area, exposed as it is to the extremes of tropical and environment.

The first writer referred to further states: "Failing accurate knowledge of the conditions existing in earlier epochs, the most probable sources of immi-gration were Asia by way of the northwest gration were Asia by way of the northwest coast of North America, Europe by the way of Greenland, and the general region of Polynesia by way of South America. Sacred history notices other peoples and races of men, but the Adamic creation of man, from Genesis to Revelation, is sufficient as a type for the purpose of God in the creation of man. The theory of the simultaneous creation of the five races in no way conflicts with the sacred Scriptures. These five races, so the advocates of this theory affirm, have peopled the whole earth, each pair having been adapted to the "Garden" in which they were placed, and still further, they argue that no new race has been found to exist

TACOMA, WASH. By GEORGE FITCH. Author of "At Good Old Siwash."

Takoma, Wash, is not an exhortation to wrap up a bath and carry it to your residence. It may sound that way, but it refers to one of the most irrepressible and uncontrollable cities on the Pacific slope-Tacoma, once the rival of Seattle and, according to the Tacoma papers, tomorrow the rival of

Tacoma is situated on one of the many vermiform appendices of Puget sound. Its feet are buried in the mud flats, which are sold periodically to eastern investors, and its head is in the pine forest 300 feet above. oma slopes gently up out of the water and continues to slope until the tourist gives it up in despair and goes home to soak his tendon of Achilles in arnica.

Tacoma is situated on three great trans-continental railroad lines and all trains stop Most of them not only stop there, sintegrate and go no further. Steambut disintegrate and go no further. Steam-ships from a hundred ports toot their way, up the sound to Tacoma and every year a whole pine forest comes down to the city

and is shipped for foreign parts.

Tacoma was first thought of in 1883, and seven years later it had 38,000 most of whom lived in pine nouses. Tacoma was first modeled in pine like Portland, but has since been built in brick and stone. From 1890 to 1900 Tacoma enjoyed a long refreshing nap while Seattle blazed away with great energy and assumed a command-ing lead which still makes the Tacoman mad when he discusses it. By 1900 Tacoma had only gained 1,700 additional citizens. Since then it has grown with great fury and real estate operators to "hold up" the gov- now contains 85,000 people, 84,000 of total stranger a building lot if urged a little.

Long Literary Life.

(From The London Chronicle.) It would be hard to parallel the achieve ments of M. Francois Fertiault, the lates Chevalier of the Legion of Honor, who published his first volume in 1839, when he was 17, and his latest in 1912. There appear to be only two other instances of a tenarian writer, and neither of these could show a literary life extending over eighty two years. Michel Chevreul, who died it 1889 at the age of 103, issued his earlies publication at the age of 37 and his lates sixty years afterward. Miss Caroline White whose death occurred last September in he 101st year, came nearer than this to the re-ord of M. Fertiault. She began writing for the monthly magazines when she was 22 and continued her literary labors until with in a few months of her death.

Senator B. S. Miller spoke in favor of the Peyton resolution on the grounds that it was the only one of the three which incorporated in it a section which required the commission to report to the legislature and receive its seanotion before final consummation of any deal that might take place.

Senator Miller stated that the upshot price of the Watts resolution was only \$400,000 valuation on the present property and that he had heard that already a half million has been offered for the property.

The resolution of Senator Turner, which also creates a commission to look into the expediency of disposing of the mansion differs from the Peyton resolution in that it gives the commission full power to consummate the deal without a report to the general assembly. MULHALL TURNED OVER TO HOUSE COMMITTEE

Lobbyist Worried in the Senate Probe When Questioned by Manufacturers' Lawyers.

Washington, August 1 .- Cross-exam ination of Martin M. Mulhall, confessed lobbyist for the National Association of Manufacturers, ended today before the senate lobby committee.

Mulhall was excused until Monday and turned over to the house lobby committee. The senate committee will turn next week to the files of the National Association of Manufacturers and an examination of its officials. The senate lobby committee started out again today with another disagreement about the cross-examination of Mulhall.

After an executive session the com-

mittee decided that the attorneys for the National Association of Manufacturers should have an additional two hours to examine the witness. The

committee, however, put the questions. The lawyers began to direct the ininquiry to the national council for industrial defense. Mulhall previously testified that a collector for that organization had told him it raised between \$500,000 and \$700,000 for lobby He stuck to his story that the organization was solely a paper one in which a few officials of the National Association of Manufacturers became members.

The lawyers worried Mulhall by ask-ing him about a black list of congressmen put in the record two weeks ago. He could not explain the names of several republicans alleged to have been put on the list by the republican whip

hall on claims in his letters about naming chairmen and committees and placing friendly congressmen, the lawyers tried to pin him down to the lawyers tried to pin him down to the lawyers. lawyers tried to pin him down to di-rect aswers on how he expected to do these things. Mulhall said he wasn't clear about it now but thought Attorney Emery was to make the arrangements.

to get them from him.

He finally testified that American

COPPER MINERS FLAY METHODS OF TROOPERS

'Rules of Civilized Warfare Are Being Swept Aside," Says Union Bulletin.

Calumet, Mich., August 1 .- Methds of state troops on duty in the mine strike zone in keeping the streets clear today brought vigorous protests from union headquarters. In several authenticated instances citizens were struck while passing along the sidewalks or ordered into their houses while sitting on doorsteps.

Isaac Rahula, a jeweler, was clubbed by a patrol which drove its horses on the sidewalk on one street. The following statement was issued from union headquarters by Guy E. Miller, of the executive board of the Western Federation of Miners:

"The rules of civilized warfare are being swept aside in the copper district. Last night's brutalities certainly deserve the censure of every man who has not lost all respect for human rights. Notwithstanding the statements of the mining companies that strike-breakers would not be used, we find such men active about the sheriff's office.

"Last night a baby carriage was run over and its little occupant thrown on the pavement and an old man was beaten with a pick handle and later taken to the hospital. Residents in various parts of the city were driven from the porches of their homes. Had such acts being committed in an unorganized community a riot would certainly have resulted. It seems that home parties who are supposed to be guardians of the peace seek a pretext for martial law." General Abbey has promised town officials that the patrol will be held

APPROPRIATIONS IN GEORGIA

"By their fruits ye shall know --- Matt. vii:20.

"Now we pray to Cod---

"Not that we may appear approved,

"BUT THAT YOU MAY DO THAT WHICH IS HONORABLE,

"Though we be as reprobate." --- 2nd Cor. xiii:7.

Not attacks.

Facts.

Some appropriations in Georgia:

\$10,000.00 agriculture.

\$10,000.00 carrying out pure food and drug act.

\$ 5,000.00 for cattle tick eradication and protection of live stock.

\$15,000.00 to developing live stock and exterminating the cattle tick.

\$ 6,000.00 to manufacture and distribute hog cholera serum.

\$20,000.00 horticulture and entomology.

Nothing for wayward and delinquent girls-for their protection, development and culture-

Later, if-

Maybe, next year-

God pity them!

THEY CAN NOT WAIT.

These are girls—not hogs, nor cows, nor fields which may be replaced.

Once lost, these-?

And crime claws-

Hell reaches out for them, even while you talk.

Seventy-five girls-

Only those under sixteen known to us-others-scores are in the State sinking because there is no place.

Care for prisoners is required by the laws of Georgia and of God, as well as appropriations for sick cattle and hogs. And if the State's Wards -we will not call them prisoners-be as they are, these girls, what will you do with them?

In the chaingang?

With the hardened prisoners of the prison farm?

You could not put them in your reformatory for boys.

WHAT OF THESE GIRLS?

The Prison Commission says:

"No place for them in Georgia."

Agriculture.

Pure food.

Tickless cattle. Choleraless hogs.

These are much to be desired. They should be cultivated and sought. But you know these girls. You would take care of them. They are

more valuable than our cows and hogs. Georgia's shame! Other States take care of girls. Why not Georgia? Of the JONES-MILLS bill providing a reformatory for girls, CHAIR-MAN WHEATLEY said:

'It was referred to a subcommittee to plan for the creation of a home and to make such changes in the measure for an appropriation that could be granted."

Cutting \$45,000.00 from the \$75,000.00 appropriation asked, the subcommittee reported back the bill carrying an appropriation of \$30,000.00, for action by the whole committee.

The Penitentiary Committee had previously recommended the bill without a dissenting vote. All recognize the need.

And if money can be obtained for the cultivation of hogs, cattle and fields, surely it can be found for this—the saving of girls.

NOT AN ATTACK.

A fact:

We believe that the Committee on Appropriations will find a way.

While taking care of beasts and spraying bugs, you will not neglect and destroy our girls.

You can protect both.

You will.

VOLS' LAST APPEARANCE AT PONCE DE LEON

WHIFFS

THE VOLS play their last visit of the season to Ponce de Leon this afternon. After the double bill this afternoon, they will not be seen on the afternoon, they will not be seen of the local lot again until next spring, which is evidence that the end of the season is rapidly approaching.

OLD C. C. meaning crucial series, has arrived. The Gulls and the Billikens, leaders in the Southern league pennant scrap are in the throes of a death of a death struggle at Billikenville. On the outcome of this series much will depend. The rest of the league will depend. The rest of the league will watch the series with interest.

5 to 2.

The first game was delayed thirty minutes on account of rain, and the second game was called at the end of the sixth on account of darkness.

The teams will tie up in a double bill again this afternoon, the first game starting at 2:15 o'clock.

Thompson will be pitted against williams in the first game, with Dunn williams in the first game, with Dunn the stages.

AFTER the double header with the Nashville Volunteers this afternoon, the Crackers are off again on their last jaunt of the present season, playing in Chattanooga, Nashville and Birmingham, ten games in all before returning to the home lot for a stay until the season comes to a close September 6.

Better Results.

THE TEAM should get better results on this trip than on the last, by reason of the return of their confidence and more of a semblance of a regular line-up pastiming in the field again.

"SLIM" LOVE, six feet, seven inches of southpaw twirling will make his debut as a Cracker this afternoon in the second game of the double-header with the Vols. Local fans will watch his debut with keen interest. Love's showing, if it is a good one, will strengthen the team's chance in a driving finish, that it must make to thead off the teams now in front of it.

Blair's valiant efforts were offset by the cool, steady game of Griffin, who, calm and confident, played for every point. Griffin's untouchable service gave him several games.

While the men battled through the semi-finals, little Miss Gwendolyn Rees, of Dallas, Texas, won the western woman's championship, defaulted by Miss Mary Brown, of Los Angeles. Miss Rees, by all round better work, defeated Miss Carrie B. Neely, of Chicago, in a former match, 6—3, 6—2. The last point was hard fought for by the Dallas player, one of the officials failing to see that one of Miss Neely's drives went out. The result of the decision was that Miss Rees had to uplay for the point five times. Miss Rees and Miss Neely defeated Miss Edith Hoyt, of the University of Chicago, and Miss Mariam Steever, of Chicago, in the woman's doubles, by 4—6, 6—2, 6—1, thereby becoming western women doubles champions. BIG REUNION IS HELD BY A DAWSON FAMILY

Three hundred descendants of Greenberry Adamson, who was born fr Montgomery county, Maryland, in 1770 ing, impose such punishment as he gathered together at Grant park yesmay deem proper not exceeding a fine terday. This was the sixth annual of twenty-five dollars, or imprison-reunion of the family. Those present represented five generations, scattered throughout the southwest.

The history of this family is one of the most interesting on record. Green-berry Adamson, who was the son of parents who came from England in the colony days, moved to Wilkes county, Georgia, in 1788, when only 19 years of age. Shortly afterwards he located near Washington, that county, and married Miss Sarah Coates. a reigning belle of Georgia colonial society. It was their descendants who met together Friday.

A big basket dinner was spread at the noon hour, and there were many interesting talks during the day of the control of the co historical events in which the family had figured.

"Uncle Jim" Woodward, Atlanta's mayor, is a good old scout, even though he does frequently "rub it in" on council and some city officials. There is a section of the code which requires that certain city officials must ask the mayor for leaves of absence before they can take their vacations. This particular section was inserted in the municipal guide book when Atlanta was still in its swad-liling clothes, and is not very popular with some city officers—particularly those who have opinions politically different from "Uncle Jim."

GRANGER IS NAMED AS MOTTE'S SUCCESSOR

Savannah, Ga., August 1.—(Special.)
J. Ward Motte today tendered his resignation as a member of the board of county commissioners of Chatham county. Press of business was the reason assigned. Harvey Granger was elected to succeed him. As chairn of the committée on roads, Mr. Motte had much to do with building up the superb system of roads in this county. Mr. Granger is president of the Savan-nah Automobile club.

New Bills in House.

Recorder Pro Tem Preston presented Mayor Woodward with Recorder Broyles' request for a leave Friday morning.

"Uncle Jim" was in one of his most jubilant moods.

"Why, of course he can go," was his good-natured assurance. "And I hope he'll have a good time and enjoy every minute of the time he is away. Good luck to him."

During his absence Recorder Pro Tem Preston will hold down the fort at police barracks. The code—that is, one remote section—stipulates that the mayor must serve in the absence of the recorder. "Uncle Jim" sidestepped this job.

"I might have to pass on some of the pardon applications of those I sentence," he said.

The cool-off route to Colorado

The Frisco takes the short cut to Colorado-thru the mountains. Soon after crossing the Mississippi your train begins to climb, and quickly gets up into a region of higher altitudes and lower mercury.

The sky line shows how high your train travels in crossing the Ozarks. and partly explains why you sleep so comfortably on the Frisco.

The good effects of your cool night in the Ozarks will last all the way to Colorado.

Thru Sleepers to Colorado

The route via Memphis and Kansas City is the high-road from the Southeast to Colorado. It is the route of least time and greatest comfort.

The Kansas City-Florida Special is equipped for the comfort of Colorado vacationists. It has splendid electric lighted Pullmans thru from Jacksonville, Atlanta, Birmingham and Memphis to Kansas City, Denver and Colorado Springs. No change of cars from tidewater to Rockies. Also carries modern electric lighted chair cars, and dining cars serving famous Fred Harvey meals.

A vacation in Colorado will be profitable in enjoyment and health, and economical in cost. Railroad fares are low. Hotel and boarding house rates are reasonable. Send for beautiful book on Colorado, and information about low fares.

TIMBER LANDS WE HAVE exclusive sale of 10,000 acres of land in a splendid Georgia county, covered with FINE TIMBER, and with first-class railroad facilities. The timber rights alone will go far towards paying the price asked for the land. After the timber has been removed the land will be worth the price at which it can be bought for agricultural purposes. The soil is splendidly adapted to all crops raised in Georgia. We can deliver this land for \$15 per acre, and we might be able to exchange it for good property in Atlanta. This is not cheap cutover land, but high, level, well-timbered property. Government Condition Report May Lower Than Expected and closes Caused a Sharp Advance. Spot Cotton 10 Points Up.

New York, August 1.—The governments report making the condition of the growing cotton crop 79.6, against \$1.8 last month, 76:5 last year and a ten-year average of 80 per cent, was under general expectations, and caused quite a sharp advance in the market during today's trading. Business was not particularly active, and there was nothing to indicate that the official statement had materially stimulated demand from either trade or speculative sources; but there was considerable covering, as well as some suplative sources; but there was considerable covering, as well as some support from Wall street bulls, and the market advanced some 18 to 20 points after the publication of the figures. The close was barely steady, as a result of realizing, but last prices were from 8 to 14 points net higher. Business was quiet enough during the morning to suggest that scattering accounts had previously been pretty well evened up for over the bureau. Cables were a shade better than due, covering by nervous shorts or continental buying, and the local market opened steady at an advance of 2 to 5 points.

nental buying, and the local market opened steady at an advance of 2 to 5 points. There was not enough demand to maintain this improvement, however, and toward mid-day the market eased of, under scattering liquidation, which seemed partly due to reports of showers in central Texas.

Indications pointed to lower temperatures in he southwest, which led to predictions of showers and while local weather forecasters said parometric conditions did not point to any genral rain, it was claimed that conditions were somewhat improved. This probably tended to nodify the influence of the comparatively low, ondition figures to some extent, while local ellers on the advance which followed were also neouraged by a reported absence of trade deland and the appearance of southern selling orters around the ring. The week-end figures attracted no particular comment and were hardly factor in the day's trading.

Liverpool will remain closed from today until ext Tuesday morning.

New York. August 1.—The government condition report, made public at noon today, was lower than expected. The trade said that the condition was about 81 and the government made it 79.6. The local longs made an effort to bull. He market on the report, but did not succeed in forcing any great advance, as the public is not interested and mills continue to hold off. The close was at a net advance for the day of 12 Liverpool will be closed Saturday and Monday or the August bank holidays.

morrow was largely responsible. Such unusual conditions had already been brought about by the crop damage, actual and prospective, that Missouri river cities were today selling corn to ship into Kansas, ordinarily a banner state in the raising of corn. It was

effective against the bears. Primary receipts, however, totalled 1,925,000 bushels, against 1,554,000 bushels a year ago. Seaboard clearances equalled 658,000 bushels.

COMMERCIAL AGENCIES

New York, August 1.—Dun's review tomorrow will say that encouraging reports of business conditions predominate, and the growth of confidence is evidenced by increased preparations for fail and winter trade. All the leading markets continue qiet, yet in some instances the mid-summer recession has been of shorter duration than customary.

The prevailing optimistic feeling was apparently not impaired by the reported damage to contain the agricultural situation is still promising. Gradual recovery in spring wheat its accompanied by splendid harvesting returns from the southwest.

The possibility of a strike on the eastern railroads is now more remote, but financial sentiment was somewhat disturbed by the reduction in the dividend of a prominent system, although such action was not entirely unexpected. The revenues of a few roads show a failing off, but in the aggregate railway earnings continues. the dividend of a prominent system, although ich action was not entirely unexpected. The evenues of a few roads show a falling off, but i the aggregate railway earnings continue to seed the total of a year ago.

Pailures this week numbered 256 in the United lates, against 291 last year, and 130 in Canda, compared with 24 a year ago.

Report of Short Crop of Corn Condition of Cotton on July and Drouth in Southwest Main Factors in Decline. Bond Market Also Lower.

New York, August I.—Contrary to expectations in some quarters, the intention of the government to deposit funds to expedite the movement of crops to market failed to exercise more than a momentary stimulating effect on security values today. In financial quarters the statement dealing with this matter was received with some resentment, there being a disposition to question the legal right of Washington to accept commercial paper as collateral for federal deposits.

Other developments, including the first real "crop scare" of the scasson, and the government's unfavorable estimate for cotton, were more disturbing and far-reaching. Advices, more or less authoritative, indicated further severe damage to corn by reason of the extended drouth in the southwest and corn options rose excitedly at leading markets. Shades of roads in the south and southwest vere correspondingly depressed.

The movement spread until it embraced practically all railroad groups, almost the sole exception being Baltimore and Ohio. Illinois Central fellower than on the day of its dividend reduction, while New York Central and sopre of its allied lines, Atchison and Pennsylvania, all of which submitted adverse July reports, were under more or less pressure. A sharp break in Mexican railways, second preferred, called attention to the inceasing financial embarrassments of the Mexican republic with blats of the more and the condition of the contition agreed to the republic with blats of the more and the contral and weatern portion of the contition agreed with \$1.5 ar preferred, called attention to the in-ceasing financial embarrassments of the Mexican republic, with hints of an early suspension of fiscal obligations.

WEDDED IN HOSPITAL, WALLACE VAN SYCKEL DIES FROM ILLNESS

Macon, Ga., August 1 .- (Special.) -News has reached Macon of the death of Wallace Van Syckel, in Lebanon, Pa., yesterday, his death being due to typhoid fever.

Some time ago Mr. Van Syckel was taken sick, and was removed to the hospital, where he was treated for typhold fever, though a physician from Johns Hopkins hospital a short time before his death pronounced the disase pernicious anemia.

Shortly before the was taken sick invitations had been issued for the marriage of Mr. Van Syckel to Miss Marian Bowman. The invitations were recalled, and the couple was married

tietly at the hospital.

Mr. Van Syckel was the son of John Van Syckel, a former Macon merthant, who was once a member of the ity council. The family removed to Pennsylvania about twelve years ago, hough they are still remembered here, aving been prominent in the social ife of the city.

SHE PRESSES CLAIMS AGAINST PRINCE WHO WEDDED AN HEIRESS

Los Angeles, August 1.-Mrs. Clara Welcher, propretor of a laundry in Vienna, appeared today before a fed-eral immigration inspector and was terrogated relative to the claims she declares she has against Prince Stanislaus Sulkowski, a nephew of the Grand Duke of Beritz, a scion of a noble Austrian house. The prince was married last Monday night to Miss Marie Louise Freede, daughter of a retired millionaire. The ceremony was retired millionaire. The ceremony was quiet, plans for a brilliant church wed-ding suddenly having been changed.

An attorney, who was first approach-y Mrs. Melcher and then retained by he prince, said he had suggested to Mr. Freede, the prince's father-in-law, a payment of five or ten thousand dillars in settlement of the woman's claims, but Mrs. Melcher, through her lawyer, declared she must have not less than \$50.000.

In the meantime the prince and his bride are on their wedding trip. Mr. Freede said they were out of the
