## FELIX DIAZ FLEES FOR LIFE

Mexican Leader Declares That  
Huerta Assassins Are Now  
Seeking Him.

### HEAVY MAJORITY OF VOTES FOR HUERTA

MEXICO CITY, Oct. 28.—Official returns from the Presidential election to-day upset the claims made by supporters of Gamboa and Diaz that they were the leaders. A count of the ballots cast in about one-third of the Federal districts' voting places showed that the ticket headed by General Huerta and General Bianquet was successful by an overwhelming majority.

This was due to the fact that in many places only soldiers voted.

WASHINGTON, Oct. 28.—Secretary of State Bryan stated that Great Britain, France and Germany have promised the United States not to take any further action in the Mexican situation until they receive the formal statement now being prepared by President Wilson as to the future foreign policy of the United States.

Secretary Bryan stated that three powers have adopted this course at the request of the United States. He said he did not know when this statement of policy will be issued.

The United States to-night will dispatch a warship to Mazatlan on the west coast of Mexico to protect the French colony at San Ignacio. If necessary marines will be landed and marched inland 40 miles to protect the French. This action is the result of a formal requisition from the French Foreign Office that the United States exercise its "policing powers" in the Western Hemisphere.

### Felix Diaz Taken Aboard Gunboat.

CALVESTON, TEXAS, Oct. 28.—General Felix Diaz was taken on board the United States gunboat Wheeling at Vera Cruz early to-day after he had informed the American Consul there, William Canada, that agents of General Huerta had threatened to assassinate him, according to a cablegram received here.

The dispatch adds that Jose Sandoval and Cecilio Ocon, two supporters of Diaz, and Alexander Williams, an American newspaper man, were taken on board the Wheeling with Diaz, and are now under the protection of the United States flag.

Advices received here early to-day indicated that the conditions at Vera Cruz are serious. I. Blum, an American citizen who accompanied the Diaz party from Havana to Vera Cruz, is said to have been arrested by Mexican officers.

### Huerta Preparing to Ask Recognition Again.

SPECIAL CABLE TO THE ATLANTA GEORGIAN.  
MEXICO CITY, Oct. 28.—Having complied with the request of President Wilson, expressed through Special Envoy Lind, that an election be held in Mexico, General Huerta is preparing to make an appeal to the United States to recognize his regime. It was learned to-day that Senator Moreno, the Foreign Minister, is at work on the draft of a note, although negotiations are in progress with European powers which may prevent its presentation. It is believed that if Huerta administration is able to secure a big loan it will not insist on recognition by the United States, but will content itself with European equality of relations.

### Federal Bank New Currency Bill Plan

WASHINGTON, Oct. 28.—Before the Senate Banking and Currency Committee reports a currency reform bill to the Senate a number of Senators propose to introduce bills containing their own ideas, with a view to influencing the legislation finally to be passed by the Senate.

The most radical suggestion, the authorship of which has not been announced, is for the establishment of a publicly owned Federal bank, with branches which may deal directly with the public, and compete in times of need with individual banking institutions.

### Asks Certiorari on False Arrest Charge

Charging that he was arrested by the police and fined by Recorder Broyles for operating a blind tiger when the evidence against him was a case of whiskey a boy was guarding at the depot while he was searching for a dray, Joseph Morrow has filed a writ of certiorari in the Superior Court.

Morrow was arrested October 18 and fined \$25.00, or thirty days in the stockade. The petition alleges the police arrested the boy and took him and the whiskey to the station house. Morrow claims to have gone to the station house and demanded his whiskey, but was cast into a cell.

### Fair Fans Get Wholesome Exercise Cheering Georgia-Virginia Gridiron Heroes.

If you're looking for something real new in "beauty hints," read this: Football commonly is rated a regular man's game; a test of courage and heart, of wind and limb, of brawn and brawn.

That is, it is a great physical game; and it makes a man of you, while occasionally wrenching loose your kneecaps, or cracking a few ribs, or nicking a nose or a collarbone.

But there's another side—the resplendent physical benefits of foot-

ball, heightening and setting off the charms of the Fair Fan.

Two examples are in evidence—Mrs. Forrest Adair and Miss Helen Hobbs, at the Georgia-Virginia game Saturday. The same sinuous of battle that is tousing and tearing a couple of dozen young athletes on the gridiron below also sets the pulse of the fair fan bounding, and flushes her cheeks and strikes a sparkle from her eyes—and ever and anon opens her lungs for a whole-hearted and unaffected gust of deep-cheated cheering.

You may see for yourself that the result is becoming—to put it feebly,

### Woman Breaks Down In Funk Plot Trial

She was carried unconscious into an ante-room of Judge Pam's courtroom and two physicians were summoned. It was some time before she revived, but her condition was so serious that she was taken to a hotel. She will not be called upon to testify for 48 hours.

### Grandstand Falls At Giants-Sox Game Injuring Forty Fan

TULSA, OKLA., Oct. 28.—Forty persons were injured, ten of them seriously, at the baseball park here this afternoon when the grandstand collapsed. A good crowd had assembled to witness the game between the New York Giants and the Chicago White Sox and the accident occurred just before the game was scheduled to start. The crowd in the grandstand was moving around in an effort to see every point in the practice of the two teams. The movement of the spectators started the stand to swing and in an instant it had collapsed. Ambulances were summoned from the city, which is about a mile and half from the ball park and the injured removed to the Tulsa Hospital. The game was started about a half hour late.

The weather was very cold, a severe northwest wind blowing.

### Tells Grand Jurors To Close Elks' Club

DUBLIN, Oct. 28.—Judge K. J. H. Kinney charged the Laurens County Grand Jurors that if they did their duty they would abolish the Dublin Elks' local club.

The locker has been an issue for some time between the W. C. T. U. and Elks' Club. Some time ago women of the city signed a petition to the clerk asking that it abolish this feature, the petition was not heeded.

The Elks claim that they are complying strictly with the law regulating locker clubs.

## WIVES OF MADERO BROTHERS APPE

### FEAR HUERTA WILL SLAY PRISONERS

Felix Diaz Looked on as Coward in  
Fleeing to U. S. Vessel—Feeling  
Against Consul Canada.

Special Cable to The Atlanta Georgian.  
VERA CRUZ, Oct. 29.—Senoras  
Evaristo and Daniel Madero, wives  
of the two Madero brothers, arrested  
by General Huerta's orders at Mon-  
terrey on a charge of treason, ap-  
pealed to-day to the United States  
for assistance in behalf of the ac-  
cused men.

Their plea was made personally to  
United States Consul Canada, and  
Special Envoy John Lind. They were  
told that the American Government  
already had made representations to  
the Mexican capital to secure a fair  
trial for both men.

The women were hysterical when  
they arrived here from Tampico on a  
gunboat with their husbands, who  
are to be tried at Mexico City. They  
wept as they told Mr. Lind of their  
fears that both men would be assassi-  
nated as was their brother, ex-  
President Madero.

**Diaz's Prestige Gone.**  
Felix Diaz, now being on board the  
United States battleship Louisiana, to  
which he was transferred from the  
gunboat Wheeling, he has lost all the  
prestige he gained by aiding in the  
overthrow of Madero.

Even friends of Diaz declare he lost  
by "cowardice" his opportunity for  
becoming a national hero. They as-  
sert that by going to Mexico City he  
could have brought to his banner  
thousands of Mexicans who even yet  
are thrilled by the name of Porfirio  
Diaz, his uncle.

The Mexican Government will take  
no steps to secure the return of Diaz.  
He has himself done what the Huerta  
enemies sent to Havana to keep  
him out of the country failed to do,  
and there is no doubt that Huerta  
will be glad to have him away from  
Mexico.

**Hated Against U. S. Consul.**

A bitter hatred for the United  
States Consul, William V. Canade,  
has developed as a result of the Diaz  
case. An investigation is being  
conducted by the Mexican Govern-  
ment to put Canade in a bad light,  
and this already has had its effect.

The proprietor of the German Hotel  
has made affidavits before witnesses  
that Canade was the direct cause of  
Diaz going to the hotel, and was the  
agent who negotiated for the rent of  
the apartments in which Diaz lived  
in white there. In proof of this he  
told the authorities that when Diaz  
left on short order without paying  
his bill, the bill was sent to Mr.  
Canade. The Mexican Government is  
taking care to see that all the infor-  
mation relative to Canade's relations  
with Mexicans in a political sense  
reach the ears of the populace, and  
thus the hostilities of Mexicans  
against the United States officials is  
being constantly heightened.

### Savannah Actress To Play 'Honey Bee'

SAVANNAH, Oct. 29.—Mrs. W. G.  
Austin, known on the stage as Marie  
Shottwell Hawley, is at her home in  
Savannah resting up for the rehar-  
dents to begin soon in New York of  
Prohman's "Honey Bee."

Mrs. Austin married a well-to-do  
Savannah business man shortly after  
her success in "The Lion and the  
Mouse." She lived at Savannah until  
three months ago, when she returned  
to New York to fill a special engage-  
ment for a revival of the old show.  
She returned here, she said, to win  
Mr. Austin's consent to appear in  
"The Honey Bee."

### Mixture of Weather Immediate Prospect For Atlanta Region

There is little hope for those who  
have no overcoats or the slickers in  
the weather man's forecast for Wed-  
nesday and Thursday. While the of-  
ficial prognosticator is not definite,  
he deposes that Wednesday probably  
will be fair, while there will be con-  
siderable unsettled weather before  
Thursday night. Also, it may rain  
to-day, and then again it may not.  
Likewise, it may get warmer to-day,  
and it may not.

The likeliest prediction is that the  
mercury will climb a little Wednes-  
day, and then about night start down  
and keep going down until to-mor-  
row morning, when rain is expected.  
A big storm is sweeping over the  
country in the direction of Atlanta,  
but the weather man says he  
doesn't know when it will get here.  
The thermometer went down to 39  
Monday, with the highest temperature  
of the day only 10 degrees above that.  
Tuesday morning saw the mercury  
below the 40 mark.

### Pool Tables Likely To Go From Y. M. C. A.

DURHAM, N. C., Oct. 29.—Directors  
of the local Y. M. C. A. will meet  
November 10 to decide whether or  
not pool tables shall remain in the  
building. Sentiment appears against  
pool tables, and should a majority  
who answer the association's letters  
of inquiry to prominent church peo-  
ple be against pool the directors will  
order the tables taken out.  
Methodist ministers will not assist  
in services in the building until the  
tables are removed, a resolution to  
this effect having been adopted.

ganizations are protesting.

### GOETHALS TO QUIT IF PLAN LOSES OUT

Will Impress That Fact Upon  
Secretary Garrison in Heart-  
to-Heart Talk.

By WILLIAM HOSTER.

PANAMA, Oct. 29.—One of the  
closest friends of Colonel Goethals has  
on the isthmus said to-day: "The  
chief engineer of the canal undoubt-  
edly wants to quit if his plans for  
the prompt reorganization of the  
Canal Commission are not approved  
by Washington."

The crisis is expected any day now,  
Secretary of War Garrison, who is  
here, will be taken by Colonel Goethals  
to Culebra for a heart-to-heart talk.

"There is reason to believe that  
Colonel Goethals has his plans en-  
tirely mapped out, and will present  
them to the Secretary of War, and  
leave the rest with Washington."

"It is inconceivable that Secretary  
Garrison, after seeing the situation  
and listening to the officials, will de-  
cide against Colonel Goethals."

It is learned that the matter has  
been brought to the direct attention  
of the President in the past few days  
and the serious aspect of the situa-  
tion emphasized.

It is said the President has been  
asked to consider whether, if he was  
really afraid of Goethals as a Presi-  
dential possibility, if it would not do  
more to advance him by opposing  
his disinterested plans than by ap-  
proving.

A new phase of the situation was  
the arrival of the commissioners in  
Central America from the Panama  
Pacific Exposition at San Francisco.

They are James F. Stutesman, Os-  
born H. Fernbach and John P. Dwyer.

They had a two hours' talk with Col-  
onel Goethals. While he frankly out-  
lined his plans they expressed fears  
in regard to the formal opening of  
the canal January 1, 1915, if the re-  
organization is not ordered.

Immediately Colonel Goethals told  
them the early completion of the can-  
al was of the utmost importance. To  
select the operating force and drill  
them in time to be ready for the pro-  
cession through the canal, which will  
be practically the formal opening of  
the exposition, is imperative, and  
Colonel Goethals declares there should  
be no hitch such as strikes or an in-  
sufficient force of operatives and pi-  
lots to handle the situation. As it is  
it may take two or three days for all  
the ships in procession to pass  
through the canal. How long it would  
require if the force were inexperience  
Colonel Goethals would not ven-  
ture to say.

### Jessie Wilson's Gifts From Kings Mystify

WASHINGTON, Oct. 29.—Return of  
foreign ambassadors and ministers to  
Washington from their various coun-  
tries, has aroused an unsatisfied curi-  
osity in Capital society as to the wedding  
gifts they bear from their sovereigns  
and rulers for Miss Jessie Wilson,  
daughter of the President.

They are very mysterious and refuse

Meanwhile wives of the Cabinet mem-

White House bride-elect.

### J. Ham Lewis Has Close Call; Nearly Arrested as Thief

CHICAGO, Oct. 29.—Nearly every  
man, woman and child knows the  
front elevation of United States Sen-  
ator James Hamilton Lewis. Very  
many persons might not be able to  
recognize him if only his back was  
seen. Five policemen did not recog-  
nize the senator's back and that's way  
he was nearly "pinched" for being a  
robber.

Senator Lewis had gone into a tele-  
phone booth upon his arrival at a  
Chicago railroad station. A detective  
saw him enter and thought his back  
resembled that of the man he had  
been assigned to arrest. He called  
four other detectives.

Senator Lewis had great difficulty  
in getting his number. The detectives  
figured he was riding the telephone  
cabin box.

They saw him emerge—backward—  
from the phone booth. They ap-  
proached nearer. Senator Lewis  
smiled at the five sleuths. They recog-  
nized him and retreated.

### Want Beer Dealers Barred From Juries

SAVANNAH, Oct. 29.—Backed by  
the Rev. T. D. Ellis, the Law En-  
forcement party in the city to-day in-  
augurated a campaign to have stricken  
from the petit jury lists the names of  
near-beer dealers or persons re-

Dr. Ellis told Judge Charlton that  
it would be impossible to secure a

taken out of the jury boxes.

### Hunters Plan War On Game Wardens

SAVANNAH, Oct. 29.—Alleged

charges of larceny and burglary dock-  
eted against the game wardens who,  
they claim, forced an entrance into  
their ice chest, on a yacht and took  
therefrom eight ducks. The hunters  
admit shooting the ducks in viola-  
tion of the law.

### No Fraud in Marriage When Fortune Is Shy

SAVANNAH, Oct. 29.—One of the

on the ground of fraud.

As was remarked, list!

There is just one thing that the cozy corner aforementioned requires to make a web from which no man could—or would, if he could—escape. It's the harem negligee.

The harem negligee is a house gown—not a piece of furniture. It is de-

roomy than an up-to-date walking skirt, and caught at the bottom with the noose effect that gives the wearer the tone of a souave in the old prints when zouaves were dashing and Oriental in aspect.

The trousers are held by a mash of milk-tan and blue and white, giving the proper color scheme in connection with the blue, what-do-you-call-'em. Then there is a soft blue jacket that is pulled in at the waist just enough to give an alluring outline of the figure. The front of the jacket is cut away to show the sash.

On top of the entire creation there is an Oriental turban that may be

## SECRET PLAN FOR WAR IS REVEALED

Hundred Thousand Guardsmen to Augment Regulars—France and Germany to Back U. S.

### TO-DAY IN MEXICO.

Wednesday's developments in the Mexican situation:

Secret plans of the United States for quick mobilization of 100,000 guardsmen, in addition to the regular army, for duty in Mexico, in case intervention is found necessary, are disclosed.

Germany and France will back up any policy formulated by the United States in regard to Mexico, it is learned from high sources.

The wives of Evaristo and Daniel Madero, brothers of the ex-President, appeal to United States Consul Canada at Vera Cruz to get fair trials for their husbands, arrested by Huerta for treason.

Four United States battleships sail for Mexican waters under rush orders, making seven American vessels on the east coast, a fleet capable of maintaining a complete blockade of the coast.

Huerta will order another national election for February, according to report, and keep office until then.

NEW YORK, Oct. 28.—Secret plans for the mobilization of the greatest fighting force that Uncle Sam ever has gathered are being completed in preparation for the invasion of Mexico if intervention is found necessary to restore peace in that country.

For weeks these plans have been worked out by regular army officers and heads of the militia organizations in all the States of the Union. If a forward movement is ordered, at least 100,000 National Guardsmen will be called with the regular army. Details of the plans were revealed to-day for the first time when it became known that the Twelfth Regiment of the New York National Guard had been instructed by an officer of the regular army to be prepared for immediate service in Mexico.

Other regiments expect similar instructions. The commander of the Twelfth Regiment was told to have his men ready to move on twelve or fifteen days' notice.

Militia officers say similar orders undoubtedly have been sent to commanders in other States.

### Germany and France To Back U. S.

Special Cable to The Atlanta Georgian.

BERLIN, Oct. 28.—Germany will back up the United States in any policy toward Mexico which may be announced from Washington. This was learned to-day from a source close to the Foreign Office and at the same time it was learned that Germany had received assurances from Paris that the French Government has taken a similar attitude toward the Mexican situation.

Through the Charge d'Affaires of the United States Embassy (Ambassador Gerard then not having presented his diplomatic credentials) Secretary Bryan asked the German Government not to adopt any Mexican policy without first consulting the United States. This message was received and answered in a cordial spirit.

German warships in Mexican waters, it is pointed out, do not indicate an independent policy on the part of Germany, but are merely for the protection of German interests and are in American waters with the full consent of the United States.

## GOETHALS TO QUIT IF PLAN LOSES OUT

Will Impress That Fact Upon Secretary Garrison in Heart-to-Heart Talk.

By WILLIAM HOSTER.

PANAMA, Oct. 28.—One of the closest friends Colonel Goethals has on the Isthmus said to-day: "The chief engineer of the canal undoubtedly wants to quit if his plans for the prompt reorganization of the Canal Commission are not approved by Washington."

"The crisis is expected any day now," Secretary of War Garrison, who is here, will be taken by Colonel Goethals to Culebra for a heart-to-heart talk.

"There is reason to believe that Colonel Goethals has his plans entirely mapped out, and will present them to the Secretary of War, and leave the rest with Washington."

"It is inconceivable that Secretary Garrison, after seeing the situation and listening to the officials, will decide against Colonel Goethals."

It is learned that the matter has been brought to the direct attention of the President in the past few days and the serious aspect of the situation emphasized.

It is said the President has been asked to consider whether, if he was really afraid of Goethals as a Presidential possibility, if it would not do more to advance him by opposing his disinterested plans than by approving.

A new phase of the situation was the arrival of the commissioners in Central America from the Panama Pacific Exposition at San Francisco. They are James F. Stutesman, Osborn H. Fernbach and John P. Dwyer. They had a two hours' talk with Colonel Goethals. While he frankly outlined his plans they expressed fears in regard to the formal opening of the canal January 1, 1915, if the reorganization is not ordered.

Immediately Colonel Goethals told them the early completion of the canal was of the utmost importance. To select the operating force and drill them in time to be ready for the procession through the canal, which will be practically the formal opening of the exposition, is imperative, and Colonel Goethals declares there should be no hitch such as strikes or an insufficient force of operatives and pilots to handle the situation. As it is it may take two or three days for all the ships in procession to pass through the canal. How long it would require if the force were inexperienced Colonel Goethals would not venture to say.

## Mixture of Weather Immediate Prospect For Atlanta Region

There is little hope for those who have no overcoats or the slickers as the weather man's forecast for Wednesday and Thursday. While the official prognosticator is not definite, he deposes that Wednesday probably will be fair, while there will be considerable unsettled weather before Thursday night. Also, it may rain to-day, and then again it may not. Likewise, it may get warmer to-day and it may not.

The likeliest prediction is that the mercury will climb a little Wednesday, and then about night start down and keep going down until to-morrow morning, when rain is expected. A big storm is sweeping over the country in the direction of Atlanta but the weather man says it doesn't know when it will get here. The thermometer went down to 60 Monday, with the highest temperature of the day only 10 degrees above the Tuesday morning saw the mercury below the 40 mark.

## DORSEY DEFENDS COLE TESTIMONY MEXICAN LEADER FEARS HUERTA ASSASSIN

### PELIX DIAZ TAKEN ABOARD GUNBOAT

Mexican Leader Declares That Huerta Assassins Are Now Seeking Him.

### HEAVY MAJORITY OF VOTES FOR HUERTA

MEXICO CITY, Oct. 28.—Official returns from the Presidential election show that the claims made by supporters of Huerta and Diaz that they were the losers. A count of the ballots cast in about one-third of the federal districts voting places showed that the heaviest vote was for General Huerta and General Blanes, who were successful by an overwhelming majority.

This was due to the fact that in many places only soldiers voted.

WASHINGTON, Oct. 28.—Secretary of State Bryan stated that Great Britain, France and Germany have promised the United States not to take any further action in the Mexican situation until they receive the formal statement, now being prepared by President Wilson as to the future foreign policy of the United States.

Secretary Bryan stated that three powers have adopted this course at the request of the United States. He said he did not know when this statement of policy will be issued.

The United States might wish to dispatch a warning to Huerta on the west coast of Mexico to protect the French colony at San Ignacio. If necessary, the United States might wish to dispatch a force to protect the French colony. This action is the result of a formal request from the French government that the United States enforce its "polishing power" in the Western Hemisphere.

Advices received here early today indicated that the conditions at Vera Cruz are serious. L. Blum, an American citizen who accompanied the Diaz party from Havana by Vera Cruz, is said to have been arrested by Mexican officials.

Special Cable to The Atlanta Georgian.  
MEXICO CITY, Oct. 28.—Having complied with the request of President Wilson, expressed through the official envoy Lind, that an election be held in Mexico, General Huerta is preparing to make an appeal to the United States to recognize his regime.

It was learned today that General Huerta, the Foreign Minister, is at work on the draft of a note, although negotiations are in progress with European powers which may prevent its presentation. It is believed that if the Huerta administration is able to secure a big loan it will not insist upon recognition by the United States, but will content itself with formal request for equality of relations.

The general apathy over the Presidential election continues, the people realizing in advance that Huerta's proclamation announcing the result will be.

### SEES WILSON PLAN FOR INVASION

Congressman Hobson Interprets President's Speech to Mean U. S. Will Go Into Mexico.

MOBILE, ALA., Oct. 28.—Quoting from President Wilson's speech before the Southern Commercial Congress that "the United States will never make one additional foot of territory," Congressman Hobson interpreted the President's speech to mean that the United States will go into Mexico.

The speaker has been an issue for some time between the W. O. T. U. and the Elks Club. Some time ago women of the city signed a petition to the order asking that it abolish this feature. The petition was not heeded.

The Elks claim that there are complying strictly with the law regulating women's clubs.

### Tells Grand Jurors To Close Elks' Club

DUBLIN, IRELAND, Oct. 28.—Judge K. J. Hawley charged the Dublin County Grand Jurors that if they did their duty this afternoon when the grandstand collapsed, a good crowd had assembled to witness the game between the New York Giants and the Chicago White Sox, and the accident occurred just before the game was scheduled to start. The crowd in the grandstand was moving around in an effort to see every point in the practice of the two teams. The movement of the spectators started the grandstand to sway and in an instant it had collapsed.

Amidst the confusion, a severe southwest wind blowing.

### Undertaker Leads Club to Cheer Sisk

PIKEVILLE, KY., Oct. 28.—A bright-eyed club of 50 members has been organized here, a local undertaker who is also the owner of the only morgue in town, being the chairman.

"I construe this to mean that we are going into Mexico, but that we will come out when order has been restored."

It is inconceivable that the President meant to say in this grave emergency that the United States would not under any conditions intervene with force in Mexico. I am sure he did not so intend. I believe that his words were intended to assure the friends of constitutional government in Mexico that if the United States found it necessary to send troops to restore order in that country that the troops would not remain to occupy Mexican territory, but would be withdrawn when peace was restored.

It was evident also that Mr. Wilson intended to convey the most reassuring assurance of American loyalty to all South American countries.

Secretary Daniels left early this morning, ordered back to Washington by the President. The seriousness of the situation in Mexico is said to be responsible for the change.

Last night the Secretary of the Navy addressed the Southern Commercial Congress on the subject, "The Panama Canal and the Navy."

When asked about the situation in Mexico, Secretary Daniels said that the best efforts of the Administration were being directed to its peaceful settlement.

"One can never tell. War is a matter of psychology. Sometimes a spark may fan old flames," he said.

John Temple Graves said: "Read in connection with the President's assurance that this country and the Latin-American countries must unite to insist upon constitutional government upon this continent, there can be no other meaning."

### Covey, on Lion Hunt, Has Narrow Escape

BUTTE, MONT., Oct. 28.—William Covey, steel magnate, who with ten other millionaire sportsmen has been hunting for a month in the wilds of Madison Mountain, had a narrow escape from a mountain lion.

## NEGRO'S STATEMENT LEGAL EVIDENCE, HE SAYS; STATE CLOSES

Making a determined stand in behalf of the admissibility bearing on that part of Jim Conley's testimony which had to do with Conley's moral conduct, Solicitor Dorsey Tuesday afternoon neared the close of his argument in opposition to the motion for a new trial made by Frank's lawyers.

The Solicitor read numerous legal citations which enumerated cases where evidence of this nature had been admitted to show the likelihood of the defendant's guilt in respect to the charge for which he was on trial.

Mr. Dorsey touched briefly on Judge Roan's failure to charge the jury with the amount of credibility which might be given Conley's testimony, in view of the negro's admission that he repeatedly had sworn falsely. He read the law to show that the mere failure of Judge Roan to make the impeachment charge, in the absence of a request by the defense, was not at all a sufficient ground for a new trial.

Dorsey closed his argument at 4:55 and the State's case rested. Solicitor Dorsey started the court by the declaration that if Judge Roan reversed the Frank verdict on the grounds of prejudice or bias, that Henslee and Johnenning, the jurors accused of unfairness, should be given maximum sentences in the penitentiary.

"They deserve no better fate if it is true that their minds were warped with prejudice," declared the Solicitor. "But no one except my friends on the other side who are grasping at straws believe these charges on which Mr. Arnold dilated in three days of delicious rambling."

"Henslee is unimpeached; Johnenning is unimpeached. I do not believe that there is a man in Georgia from the Governor down who is a more conscientious and upright citizen than Johnenning."

Throughout the day on what he appeared to regard as the most important stronghold of the defense, the alleged bias of the two jurors. In emphatic language he told the court that there was not a ground in the entire motion for a new trial that had a semblance of merit.

"The truth is, your honor," he said, "that they haven't any defense in this case, and haven't a tenuous ground for this motion. They are heaving aimlessly around like a man whooping, hoping against hope that something will fly into their net."

Dorsey to Finish Wednesday.  
If your honor adopts the policy of taking the word of irresponsible persons against that of a man like Henslee or Johnenning, you are taking every protection away from the State and making it easy for red-headed murderers to go free.

"The people were not aroused against Leo M. Frank because he is a Jew," the Solicitor said, "but because he is a criminal. In the name of the Gentiles of Atlanta, in the name of a community which the learned counsel for the defense has carried away with malice and a thirst for blood; I challenge anyone to show where any one cried, 'Hang Frank! Lynch him!'"

NEW YORK, Oct. 28.—A special meeting of the stockholders of the Alabama Great Southern Railroad Company has authorized an issue of \$25,000,000 first consolidated mortgage bonds, dated December 1, 1913, and due December 1, 1918.

### 8 Policemen Needed To Take 300-Pounder

NEW YORK, Oct. 28.—Eight policemen, called to arrest Fritz Milch, who weighs 300 pounds, found him surveying a window glass, through which he had hurled a flat iron.

It required the full strength of the police to arrest Milch. Fritz says his neighbors made faces at him when he went for a can of beer.

"It is true that the people in the streets did better for me, but that shows nothing. Because the people, for some reason or other, say it to cheer for me, the counsel for the defense has chosen to warp it and capture it into a demonstration against Frank."

They might as well contend that when some people applaud the hero in a melodrama, and hiss the villain, that they are applauding the man and that they are hissing the villain.

### SECRET PLAN FOR WAR IS REVEALED

Hundred Thousand Guardsmen to  
Augment Regulars—France and

#### TO-DAY IN MEXICO.

Wednesday's developments in the  
Mexican situation:

Secret plans of the United States  
for quick mobilization of 100,000

Four United States battleships sail  
for Mexican waters under rush or-  
ders, making seven American ves-  
sels on the east coast, a fleet cap-  
able of maintaining a complete block-  
ade of the coast.

Huerta will order another national  
election for February, according to  
report, and keep office until then.

Persistent rumors at Juarez said  
General Jose Y. Salazar, rebel lead-

at Atlanta for counterfeiting.

Muret appealed to Judge Hunt to  
suspend sentence, saying that he  
wanted to go back to his home in  
Germany and spend the balance of his  
life with his mother. Judge Hunt  
could have imposed a sentence of 30  
years, but as the prisoner is a vic-  
tim of incipient tuberculosis he was  
lenient.

### Memphis Society in Peril of Black Hand

of death to members of the family.

death. The letter is signed with a

to-day announced his resignation to  
go fishing. He has been postmaster  
since August 16, 1897. Political up-  
heavals and the tarpon season in  
Florida are his cause for resignation.  
His postoffice duties kept him away  
from Florida while the tarpon were  
"ripe," so he resigned to get them.

### POSTOFFICE BOOMSEEN BY JONES

Postmaster Confident Visit of  
Burleson Will Result in New  
Atlanta Building.

That Atlanta is going to have a new  
\$3,000,000 postoffice is almost a sure  
thing, according to Postmaster Jones,  
who Wednesday said that he believed  
work on such a building would start  
within twelve months.

Postmaster General Burleson and a  
staff of officials probably will be in  
Atlanta the last of this week or the  
first of next, and Postmaster Jones  
will show the crying need of a new  
postoffice.

Recently Postmaster Jones con-  
versed with United States Senator  
Hoke Smith in regard to the new  
building, and Wednesday the local  
postmaster indicated that he had the  
Senator's promise to present a bill  
for the appropriation of \$3,000,000 for  
a postoffice in Atlanta.

The parcel post mail is getting  
heavier every day, and on account of  
the growth of this new end of the  
postoffice department, also of the in-  
creasing size of the mail, a new  
branch office has been established at  
Nos. 46 and 48 Hunter street.

"We certainly need a new post-  
office," said Postmaster Jones. "The  
amount of the business done here  
since the postoffice was built three  
years ago has doubled. At that time  
the receipts amounted to \$800,000 or  
\$900,000 yearly, while at the present  
time the receipts will easily run more  
than \$1,500,000.

"Also, considering the increase of  
the business, you can readily see we  
have no more space than was had  
when the building first opened. All  
the offices of Federal employees are  
located in the postoffice building, in-  
cluding the Court of Appeals and the  
District Court."

Jones, Sr., an old farmer and Confed-  
erate veteran, who was swindled out  
of \$450 on circus day by a showman  
who said he also was a veteran and  
had fought in the same battles as  
Mr. Jones, has recovered his money.  
Jones chased the circus through  
several counties and set several at-  
torneys and officers after the man  
wanted.

WASHINGTON, Oct. 29.—Six young  
men who acted as ushers at the wed-  
ding last June of Reid V. Dempsey,

bridegroom's funeral here.

### GRAFTERS IN PLOT TO KILL W. J. BURNS

Noted Detective Guarded by 18  
Men on Arrival in New York  
From Europe.

NEW YORK, Oct. 29.—The hyste-  
ria pervading political circles since  
ex-Governor Sulzer and his chief in-  
vestigator, John A. Hennessy, began  
their attack on Tammany and Charles  
F. Murphy was increased to-day by  
rumors that a plot had been discov-  
ered to assassinate Detective William  
J. Burns to prevent his revealing evi-  
dence that he has secured against a  
prominent politician.

When Burns landed at Hoboken  
from the liner Imperator on his ar-  
rival from Europe he was immedi-  
ately surrounded by a bodyguard of  
eighteen detectives.

"The chief has received word that  
he is to be done away with," said one  
of the detectives. "The tip came  
from a reliable source. That's why  
we met him to-day."

Burns refused to discuss the warn-  
ing, but made this significant re-  
mark:

"I do not fear assassination at the  
hands of dynamiters whom I have  
prosecuted. I am after the grafters.  
I am after the big fellows. They are  
the men who are making trouble, and  
they are my enemies."

He refused to comment on reports  
that he had been abroad to get evi-  
dence there relating to grafting in  
this city.

### New Supporter of Sulzer in Fight.

NEW YORK, Oct. 29.—A new figure  
stepped into New York's turbulent  
political arena and lined up against  
Tammany Hall when Colonel William  
N. Amory came forward in support  
of William Sulzer and announced that  
it was not only he who had carried  
ex-State Senator Stephen J. Still-  
well's letter pleading for clemency to  
Albany, but that he had seen Stillwell,  
who is in Sing Sing, write part of  
the letter and sign it.

Colonel Amory, who was former  
secretary of the Third Avenue Rail-  
way Company, gave the lie direct to  
those who claim that the Stillwell let-  
ter is not authentic.

In a statement Colonel Amory ad-  
mitted that he was one of the principal  
agents through whom Mr. Sul-  
zer, then Governor, dealt with Still-  
well. That Sulzer refused to bargain  
with Stillwell for anti-Tammany in-  
formation even to save himself while he  
was being impeached at Albany, was  
one of the striking statements made  
by Amory.

### Mrs. Eaton Martyr To Love, Is Defense

PLYMOUTH, MASS., Oct. 29.—At-  
torney William A. Morse, making the  
final plea for Mrs. Jennie May Eaton  
in her murder trial here to-day, de-  
manded that the jury free the ac-  
cused widow.

Attorney Morse termed Mrs. Eaton  
a "martyr." He said her only fault  
was "that she loved too much."

He declared that Mrs. Eaton, who  
will probably learn her fate from the  
jury this afternoon, had arrayed  
against her a "courtroom filled with  
great experts," and that she had to  
fight as best she could.

prominent amateur actresses, is re-

### \$5,000 an Inch Is His Price for Short Leg

MEMPHIS, TENN., Oct. 29.—Frank  
J. Hoagland is suing a Memphis phys-  
ician for \$10,000 because Hoagland claims

ician performed an operation.  
Hoagland claims the injured leg is  
worth \$5,000 an inch.

## DENOUNCES SOLICITOR IN FIERY APPEAL

Frank's Leading Counsel Accuses  
Dorsey of Cringing Before  
Howls of Mob.

Luther Z. Rosser hurled broad-  
side after broadside Wednesday  
at Solicitor Dorsey in an effort to  
break down and destroy every  
vestige of the State's opposition  
to a new trial for Leo M. Frank.

He was expected to conclude  
early in the afternoon, when the  
case would rest with Judge L. S.  
Roan for decision. Judge Roan  
said he probably would reserve  
his decision until Thursday or  
Friday.

Here are a few of the charges  
with which he assailed the  
State's attorney:

He described the Solicitor as reek-  
ing with unfounded suspicion and  
malevolence against Frank through-  
out the investigation.

He represented the Solicitor's in-  
snuations of perjury against Miss  
Helen Kern, on the defense's witness-  
es, as the dirtiest and most contem-  
ptible piece of work he ever had en-  
countered.

He charged that the Solicitor and  
the detectives either had locked up  
persons until they told the story the  
State wanted or else they branded  
them as perjurers on the stand.

He pictured Solicitor Dorsey as  
cringing, bowing and scraping to the  
mobs that howled for the blood of  
Frank.

He told the court that Dorsey had  
poisoned and corrupted the minds of  
the jurors by unfounded insinuations,  
by extorted affidavits, by statements  
for which there was not a shadow  
of warrant in the evidence and by  
holding the fear of the mob before  
their eyes.

He characterized the imprisonment  
of Minoia McKnight until she told  
the story the detectives wanted as  
the most outrageous violation of law  
on the part of the officers of the law  
that he ever had witnessed, and as-  
serted that Detective John Starnes  
himself should have been locked up  
for his participation in the incident.

**Scoffs Slush Fund.**  
He described the insinuations of  
Dorsey that there had been a "slush  
fund" for the defense of Frank as a  
miserable, pitiable and utterly unwar-  
ranted falsehood, the fact being that  
both he and Attorney Arnold were  
poorer to-day for having ever heard  
of the Frank case.

He alleged that the Solicitor had  
moved the jurors by vilification of  
Frank, vilification of Frank's moth-  
er and his wife, and by branding  
everyone as dishonest and a perjurer  
except the witnesses for the State.

He said that Dorsey was "daffy,"  
or that his "intelligence was sleep-  
ing," if he was sincere in his decla-  
ration to the court that Frank had no  
defense, and that there was not a  
ground for a new trial.

He picked out what he regarded  
as the vulnerable points in the de-  
positions of A. H. Henslee and Mar-

**Diaz Being Forced Out.**

Porfirio Diaz, who formerly enjoyed an equality of power and prestige with Huerta, is being forced from the stage and into private life. Diaz, who has been detained at Vera Cruz since the outbreak of the revolution, is really through fear of arrest or assassination, has told his friends that he is preparing to retire to private life.

General De La Huerta, the Liberal Progressive candidate for President, has been forced out of the army for opposing Huerta's policies. It is reported that General Huerta, who is one of the most capable of Huerta's followers, has prepared a number of resignations which will be sent to Huerta. Huerta, however, has refused to accept the resignations of the army and is willing to place his signature on the resignations.

### Bryan Asks Diaz What He Expects.

WASHINGTON, Oct. 28.—Secretary of State Bryan this afternoon called General Diaz at his residence in the city of General Felix Diaz, now on the American ground. When asked what he expects the Government to do in connection with his safety, General Diaz's reply is expected to reach here tonight and the Secretary of State will then talk the matter over with the President.

A new and startling complication in the Mexican situation was presented today by Diaz taking refuge on the United States ground.

It was officially admitted that any demand by General Diaz for the return of Diaz to Mexico will be an attempt to take him by force would be the only thing needed to break the tension between the countries to the breaking point.

Rear Admiral P. F. Fletcher, commanding the second division of the Atlantic fleet, left Vera Cruz, today to proceed to the United States.

General Diaz's taking refuge on the United States ground, reported today, is a Monday American official, Canada reported.

General Diaz and two friends were in the United States and were active in the United States.

On Monday, a newspaper correspondent, on board the Whiting, left for the United States.

Secretary of State Bryan declined to discuss any phase of the Mexican situation today, because of the absence from the city of President Wilson.

On his return to the White House, the President will confer with the Secretary of State concerning developments in the Mexican situation.

Senator Bacon, chairman of the Senate Committee on Foreign Relations, conferred with Secretary Bryan today, but said that no official statement had been reached because of the lack of authentic news of the outcome of the Mexican situation.

### Athletes Want Big Event Postponed

NEW YORK, Oct. 28.—Athletes who are to compete in the Olympic games in Berlin in 1936 are asking for a week's postponement of the start of the track and field program.

The date that July 1, the date set for the opening, is too early. This date would prove a handicap to the American team, since it would require the United States representatives to sail before the closing of the American colleges, of which many members of the 1936 team are expected to be recruited.

### Canada Women Lose Aigrettes in Detroit

DETROIT, Mich., Oct. 28.—Canadian officials today announced that the 10,000 worth of aigrettes and other property from Canadian athletes were lost in Detroit.

Miss Freda Barker, an expert athlete, was employed as a detector in the investigation. The aigrettes were lost in a rooming house in Detroit.

### Dodd Will Suits Are Set for Wednesday

## Fair Inez, in Peril Of Disbarment, to Become Naturalized

NEW YORK, Oct. 28.—If I am disbarred because I have married a foreigner, why will be the easiest thing in the world for me to turn around and become naturalized.

This is the reply to-day of Mrs. Eugene Roosevelt, the former Miss Mithell, to the report that she might be disbarred from practicing law because of her marriage to Mr. Roosevelt, a wealthy Dutchman of Amsterdam.

A United States statute declares emphatically that a person practicing law in this country must be a citizen. An international law is that when a woman marries a foreigner she automatically becomes a citizen of her husband's country.

## PRISON CHARGES UPHELD BY MAN JUST FREED

Restoring his charges made Monday against Warden Meyer and conditions at the Federal penitentiary, W. P. Bartholomew, formerly No. 324 at that institution, in a letter to The Georgian, reviewed Tuesday, detailed the prison conditions he declared were being endured by the men there.

Bartholomew, whose home is at Oakman, Ala., cited as his authority his 27 months' penal servitude, which ended with his release last Sunday.

In his letter he commended Julian Hawthorne, the novelist, and Dr. J. W. Morton, the New York physician, on their action in denouncing the warden upon their release some weeks ago. He commended their sensational charges.

Bartholomew came out strongly in defense of the prison guards who have been dismissed by Meyer on charges of neglecting the prisoners in the riot. He declared his statements were made for the cause of justice and humanity.

"Many times when I left the dining room of the prison to return to my cell I was so weak from lack of food that I could not work, and was forced to lie on my back," he wrote.

## BUMPER COTTON CROP SWAMPS RAILROAD

Cold type and figures don't tell you much about the cotton crop that Georgia is marketing just now.

But the word "embargo" with its semi-warlike ring, may warn you the figures—especially if you live in Atlanta, which is the object of a regular "cotton embargo" ordered Sunday by the Southern Railway.

There simply was too much cotton to handle. It was coming too fast on the tracks of Atlanta yards Tuesday morning when 400 cars crammed with cotton—60 to 80 bales in every car—nearly 4,000 bales.

In the vast Atlanta warehouses of the Atlantic Commerce Company was nearly as much more cotton awaiting its turn under the process to ship it for export.

The embargo went on Sunday morning, when the big plants of the Atlantic Commerce Company were refusing to keep up with the game.

But not to Atlanta. Atlanta was submerged by a prodigious tidal wave of the cotton which rules a crop of the great white staple.

M. L. Post, of the American National Bank, and a keen observer of big business, laughed a little in sheer good humor as he talked of the embargo this morning.

"No trouble about the money," he said. "Atlanta has the bulk of the South is in the finest condition of their history to handle this bumper crop. But it seems the railway is being used to handle this bumper crop, and the price of cotton is being held up so that everybody is marketing his cotton as fast as it can be shipped. His time in Georgia this fall."

# HEADQUARTERS OF MASONS

Grand Lodge Votes Down Resolution for Itinerant Sessions. New Temple Assured.

MAISON, Oct. 25.—The State headquarters for all of the Masonic bodies of Georgia will remain permanently in Macon.

The resolution providing for a change in the constitution of the Grand Lodge so as to permit the assembly of Masons in other cities in the State was defeated in the Grand Lodge, in session here, after a spirited contest, by a vote in the ratio of twenty to one. More than 1,200 delegates voted.

Judge A. W. Pitt, of Cartersville; J. K. Orr, of Atlanta; Past Grand Master Valle, of Dalton, and other prominent North Georgia Masons made a determined contest in support of the resolution. Max Meyer, of Rome, who introduced the resolution last year, made a brief address in which he withdrew his advocacy of the proposition and declared in favor of the headquarters continuing in Macon. Thomas H. Jeffries, of Atlanta, also advocated Macon as the permanent home for the Masons, as this city has been for more than 75 years.

This means that the new Masonic Temple will be built in Macon on a lot purchased several years ago. The building committee will probably be authorized to-day by the Grand Lodge to secure plans.

The re-election of Grand Master Robert L. Colding, of Savannah, probably without opposition, was indicated this morning. The Grand Lodge will adjourn to-night. If all business can be completed in that time.

## 500 Boston Babies In 500-foot Street

BOSTON, Oct. 25.—Hale street, in the West End, now boasts of being Boston's richest street—rich beyond the dreams of avarice. For Hale street is just 500 feet long and contains 500 babies.

Mrs. Mary M. De Angelis, the visiting nurse who took the census, found many families having ten and twelve children, many of them at the baby age.

"But," she concludes, "a baby to every foot is quite a record."

## Love Franchise Basis, Mrs. McCormick Says

BOSTON, Oct. 25.—Mrs. Stanley McCormick, of Commonwealth avenue, one of the woman suffrage leaders in this country, replying to the charge that sex antagonism is the basis of the suffrage movement, said today:

"The instincts of the best motherhood, which go beyond her own and embrace all children, is the foundation of the suffrage movement. In other words, it is love."

DON'T pay interest on a mortgage—and DON'T pay rent!

# STREETLIGHTS ON GEORGIA POLITICS

By JAMES B. NEVIN

Judge John T. Hart, former Attorney General and Georgia's first Tax Commissioner, starts to-day on another "missionary tour" of South and Middle Georgia.

The judge calls these expeditions "missionary tours," although as a matter of fact they generally have turned into genuine "love feasts" before he has proceeded very far.

In some counties of the State there have been so many "love feasts" that it is relatively inconsequential but mildly annoying influences seeking to array the people against the new tax equalization law.

These efforts have not amounted to much as yet, it seems, but wherever Judge Hart gets an invitation to speak upon the subject, he accepts, because the success of the new law is very close to his heart, and he realizes that only misunderstanding or misinformation concerning the law can imperil it in any way.

"Wherever I have explained the law," says Judge Hart to-day, "I am practically sure of solid support. All that is needed is the patience to explain it even in the worst cases of misinformation. I have had, after one of these little speeches—which are really not speeches at all, but just little heart-to-heart talks—scores of citizens to come to me and tell me they were for the law, heart and soul, having therefore been misinformed entirely as to its workings."

The law is simple. It will help the honest taxpayers and bring sorrow to the dishonest—for it will discontinue unreturned property for taxation, thus reducing the tax rate upon property honestly returned. In a few months Georgia will be completely for the law, and it will be rated fully of the worst sort to fight it."

To-day Judge Hart goes to Meriwether, Thursday to Henry, Monday to Lee and Wednesday to Brooks, with possibly a few as yet uninitiated dates to be sandwiched in.

Mayor-elect Bridges Smith, of Macon, the incomparable and persistently popular Bridges—has been to the circus and found it wanting!

That would be rated generally a distressing symptom in one habitually so optimistic as Mr. Smith, were it not for the haunting fact that much of what he says rings true.

Summing up an interview bemoaning the passing of the "old time circus," Mr. Smith says:

"Oh, for one more old-time oneering circus, with its red lemonade, long peppermint candy walking sticks, packages of popcorn, its funny clowns and bareback

NEW YORK, Oct. 25.—The strike of mail truck chauffeurs collapsed when the strikers found the mails were being moved on schedule time under police protection, and made overtures for peace.

The officials of the Postal Transfer Service notified them that no striker would be given work.

ble to Washington, they were about the busiest few hours he has spent anywhere in many months.

Colonel Graves came to Atlanta, his old home, without any sort of warning to his multitude of friends and acquaintances of the old days, but the news was swift to spread among the faithful, nevertheless. And when once it did get thoroughly "noated around" that he was in Atlanta's midst, great and precipitate was the rush to see him.

For a time he held a sort of informal reception at the Piedmont Hotel, leaving all too soon for his home in the National Capital.

No man in Georgia has a wider circle of real friends than Colonel Graves, and to them his occasional visits South are events of genuine pleasure.

Like a great many newspaper men—particularly in the South—Colonel Graves once cherished political ambitions, but long ago he laid all that aside, to devote himself entirely to his better life work, journalism.

Senator Albert Burtz, of Gilmer County, is an Atlanta visitor.

Although one of the so-called "inexperienced members" of the General Assembly when it met for organization last summer, Burtz soon came to be recognized as one of those who proposed taking a constructive part in legislation. He is a man of decided views, and a speaker of more than ordinary ability. He does not speak often, but when he does, what he says commands respect and attention.

"Up in Burtz's 'neck of the woods' they play politics most strenuously, and Burtz finds it more or less necessary to keep his fighting cloths on pretty regularly. He says the rank and file in his vicinity are watching events in Georgia with considerable interest nowadays, and he rather expects next year to be more than ordinarily interesting from a political viewpoint."

Although Colonel John Temple Graves spent only a few short hours in Atlanta Tuesday, on his way from Mo-

VIENNA, Oct. 25.—The Neue Wiener Tagblatt hears from court circles that the Saxon Government has determined from the beginning of next year, to withhold the annual allowance of 40,000 marks from the King's private exchequer hitherto paid to the ex-Crown Princess of Saxony.

WASHINGTON, Oct. 25.—Thomas Marshall Southerland, the "borrowed baby" of the Vice President, demanded his "real daddy," and the Rev. Dr. Southerland, of Berkeley Springs, W. Va., made a hurried visit to Washington.

## All Clogged Up? Here's Quick Relief

A Simple Remedy to Correct Constipation Before It Becomes Chronic.

MR. H. W. FENSTERMAKER.

Very few people go through life without some time or other being troubled with constipation. Thousands injure themselves by the use of strong cathartics, salts, mineral waters, pills and similar things. They have temporary value in some cases it is true, but the good effect is soon lost, and the more one takes of them the less effective they become.

A physic or purgative is seldom necessary, and much better and more permanent results can be obtained by using a scientific remedy like Dr. Caldwell's Syrup Pepsin. It does not hide behind a high-sounding name, but is what it is represented to be, a mild laxative medicine. It is so mild that thousands of mothers give it to tiny infants, and yet it is so compounded, and contains such definite ingredients that it will have equally good effect when used by a person suffering from the worst chronic constipation. In fact, among the greatest endorsers of Syrup Pepsin are elderly people who have suffered for years and found nothing to benefit them until they took Syrup Pepsin.

It is a fact that millions of families have Dr. Caldwell's Syrup Pepsin constantly in the house, homes like those of Mr. H. W. Fenstermaker, Siegfried, Pa. He says he has had wonderful results from the use of Dr. Caldwell's Syrup Pepsin, that, in fact, he has never found a remedy so good, and he is

glad to recommend it. The special value of this grand laxative tonic is that it is suited to the needs of every member of the family. It is pleasant-tasting, mild and non-gripping. Unlike harsh physics, it works gradually and in a very brief time the stomach and bowel muscles are trained to do their work naturally again, when all medicines can be dispensed with. You can obtain a bottle at any drug store for 50 cents or \$1. The latter size is usually bought by families who already know its value. Results are always guaranteed or money will be refunded. Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington Street, Monticello, Ill. A postal card with your name and address on it will do.

**AND CIGAR HIT  
AT FORTYTH**

Unheralded Sketch Proves Bright  
Spot on Well-Balanced  
Vaudeville Bill.

**By TAYLTON COLLIER.**  
Mr. Clayton White has a cigar in his mouth, upturned at an acute angle. You come to realize that Mr. White and his cigar and his sweater and his dress suit and all are very funny. It's his personality that does it, and that personality, linked with the breeziness of his partner, Miss Mae Phelps, has made of "Cherie," a sketch on this week's bill at the Forsyth, a most striking number.

What's more, Clayton White and his entertaining company came to the Forsyth as a surprise. They were not billed on the boards that went up all over town last week advertising this week's show. And when the unexpected pliancy that is in their sketch is held up to the audience, there is most exultation.

Another sketch there is of considerable virtue. "On the Edge of Things," presented by Homer Miles and his company, has a real punch. Mr. Miles is a very winning janitor who saves a girl from elopement with a married man.

Kimberly and Mohr, a pair of attractive young men, have a singing act called "Clubland." Their business, even in its most ridiculous lines, has a sort of heart interest, and the whole thing is brighter.

Harry Bulger and Herbert Cortelli have an act of new songs and new dialogue, in which they make up to represent a certain bewickered pair of cough drop manufacturers. Their number is "The Smith Brothers in New York."

"Lolette" is a roller-skating bear and a most unusual vaudeville performer. At Rayno's bulldogs, closing the bill, are most energetic and versatile animal performers. Ray Montgomery and the Healy sisters have songs and dances and comedy lines that are attractive.

**"Third Degree" Is Play  
With a Real "Punch."**  
"The play with a punch" has a fair example in "The Third Degree." Charles Klein's dramatic presentation of big city police methods, which is at the Lyric this week. There is the story of the convoluted manner in which the officers seek to wring a confession from a suspected criminal.

# INCOME TAX IN JANUARY

Collector Blalock Declares He Will Collect, but That Is All He Knows.

The collection of the income tax will be in full swing in Atlanta by January, according to Collector of Internal Revenue A. O. Blalock. Before the Government buys any battleships or pays any big salaries with money from the tax, a lot of good men are going to be on the ragged edge of desperation. Collector Blalock does not know just what the income tax is, and he isn't bashful about saying so. Perhaps the gentlemen who framed the law know all about the income tax, but it is not generally believed that anyone else does.

Some of the gentlemen who have read quantities of literature on the income tax say that it is going to cause more problems than the Supreme Court will be capable of solving in a decade.

The theory of the Treasury Department is delightfully direct and simple. It is simply "Get the money." Whose money is to be got, or from whom it is to be got, are things that do not worry the Federal officials.

Says Collector Blalock: "The tax will be due just because it is due, and when the time comes for collecting, the parties who owe the tax bills will come through—or we will know the reason why."

**Women Are Not Exempt.** There is one known feature about the law which makes the rich old bachelor feel good when he pays his income tax. The law does not exempt the woman, and she must line up and pay her income tax just the same as she wants to line up at the polls and cast her vote.

And when the law is enforced here there will be hundreds of Atlantans who will wish they were not exempt. Unless a man who is single has more than \$3,000 yearly income he doesn't have to pay the tax, and if married, he is allowed \$1,000 more income than the single fellow.

The normal tax of 1 per cent will be imposed upon individual net in-

NEW YORK, Oct. 29.—Declaring she intended to submit to Congress a co-operative plan under which workingmen will share profits with capitalists, Mrs. Ida Von Clausen, who wanted to sue Colonel Roosevelt because she was not presented to the King of Spain, arrived here from Europe. Mrs. Von Clausen also is going to South America and was pleased when she was told Roosevelt was there.

"At the last election I predicted his defeat," she said. "I was right. He will never be elected again."

## Father to Have Child Three Months in Year

COLUMBUS, Oct. 29.—In the habeas corpus proceedings instituted by G. C. Beavers, of Atlanta, to obtain possession of his 7-year-old daughter, Judge Gilbert has ordered that the child remain with her aunt, Mrs. Mary Middleton, of this city, for nine months in each year, while in school, and that during the remaining three months she is to be in the care of her father in Atlanta.

comes exceeding the specific exemption, which is \$2,000 for the single man or woman and \$4,000 for the married man or woman. The additional tax, ranging from 1 to 6 per cent, will be imposed upon all taxable net incomes exceeding \$20,000. This additional tax is graduated and levied as follows: One per cent on all amounts exceeding \$20,000, but not exceeding \$50,000; 2 per cent on all amounts exceeding \$50,000, but not exceeding \$75,000; 3 per cent on all amounts exceeding \$75,000, but not exceeding \$100,000; 4 per cent on all amounts exceeding \$100,000, but not exceeding \$250,000; 5 per cent on all amounts exceeding \$250,000, but not exceeding \$500,000.

**Many Governments Have Tax.** Income taxation is now an established part of the fiscal machinery of a majority of the leading governments, including Great Britain and its constituents, the German Empire, Austria-Hungary, Switzerland, Italy, Spain and Japan. The beginning of the income tax is found in a series of income impostos which were inaugurated in most of the independent Italian cities in the fifteenth century.

Income taxation in America dates back to the Colonial period. The first law of this kind was passed in 1623 by the Massachusetts Bay Colony Court of Assistants, whereby the produce of estates was taxed.

The income tax law is a part of the Underwood-Simmons tariff law, and was approved on the 2d of this month. Representative Cordell Hull, of Tennessee, was the original draftsman of the measure.

T. S. Florence won the spelling championship from E. H. Cone at the Ad Men's monthly dinner at the New Kimball Hotel Tuesday night, an old-fashioned "spellin' bee" being the feature of the evening's entertainment.

A cash prize had been offered, but when Florence claimed his reward amid howls of derision against his doing so, the prize money was confiscated and more cigars purchased for the smokers.

Bert Adams and Ivan Allen were captains of the respective sides. The pleasure of missing the first word and taking a place on the dunce stool was afforded by Dr. W. A. White, who couldn't spell coca-cola.

## CALLS WILSON'S SPEECH EPOCHAL

Secretary Daniels Tells Atlantans "Mobile Declaration" Reiterates Monroe Doctrine.

There was a decided echo of interest in Atlanta Wednesday following the brief talk made Tuesday before by Josephus Daniels, Secretary of the Navy, who passed through here on his way from Mobile to Raleigh, N. C.

Mr. Daniels, referring to the speech of President Wilson Monday in Mobile, said he considered it an "epochal address."

It will go down in history as the "Mobile Declaration," Mr. Daniels asserted. "It makes plain to all nations and to ourselves that the Monroe Doctrine still is our pillar of cloud and fire."

"Since the United States acquired Porto Rico, the Philippines and the Panama Canal Zone, there has been a suspicion that we were falling into the ways of other nations; that we were using the Monroe Doctrine to keep other nations out of the Latin-American republics, but that, when we chose we would play our hand in the game at any time and in any way."

The speech at Mobile, should set at rest any suspicions on that point. It shows Europe where we stand, and should encourage a closer and more satisfactory relation with practically every one of the great powers."

Miss Jordan's enthusiasm and eagerness to further the cause of the Women's Auxiliary have won her many friends in Mobile. The sixteen young women who made the Flag Day exercises one of the most attractive features of the Congress, were chosen from sixteen Southern States.

## How to Make the Best Cough Remedy at Home

A Family Supply at Small Cost, and Fully Guaranteed.

Make a plain syrup by mixing one pint of granulated sugar and six pints of warm water and stir for 2 minutes. Put 2½ ounces of pure Pinex (fill cents' worth) in a pint bottle, and fill with the Sugar Syrup. This gives you a family supply of the best cough syrup at a saving of \$1. It never spoils. Take a teaspoonful every one, two or three times a day.

The effectiveness of this simple remedy is surprising. It seems to take hold almost instantly and will usually conquer an ordinary cough in 24 hours. It tones up the lungs and appetite, and is just laxative enough to be helpful in a cough, and has a pleasing taste. Also, it is useful for bronchitis, whooping cough and spasmodic croup.

This method of making cough remedy with Pinex and Sugar Syrup is strained honey, it is used in noble homes than any other cough syrup. This explains why it is often limited, though never successfully. If you try it, use only genuine Pinex, which is the valuable concentrated compound of Norway white pine extract, and is rich in gualayol and other natural

# CITY TEACHERS IS LIKELY

Councilman Knight Back of Proposition to Give Them More Than Usual Increase.

Councilman C. D. Knight said Wednesday that he had received assurance of support from many members of Council for the movement to increase the salaries of school teachers more than the allotted 5 per cent that is given each year.

Councilman Knight and Alderman C. H. Kelley have prepared a scale which would raise the minimum salaries of \$57.50 per month to \$75.00. It provides for an increase of the salaries of all teachers receiving less than \$100 a month. The plan would have been presented to the Salaries Committee of Council Tuesday afternoon, but the meeting was adjourned for two weeks.

"I am heartily in favor of increasing the pay of teachers and also the firemen," said Councilman Knight. "The employees of the city who are receiving less than \$100 a month are the ones who are doing the real work though their salary would indicate in this time of high cost of living that they are doing mighty little service."

"In these increases the new teachers must be included. I am informed that some of them are tea-

# RECORDED BROODSSEES ABOLITION OF IN HOMES AND SCHOOLS

I am in favor of the rod only in cases of absolute necessity in the home.

I do not believe the rod should be tolerated at all in our schools.

If an offending child can be corrected without being whipped it is much better for both child and parent.

The rod is a relic of barbarism and is destined to be banished from our modern life.

I must admit, however, that the time for its abolition has not arrived.—From Recorder Broyles' Interview.

Recorder Nash Broyles is strongly of the opinion that the day is not far distant when corporal punishment for children, both in the home and in school, will be regarded as barbarous, and when the training and correction of youngsters will be accomplished by precept and kind words.

The Recorder has closely studied the question of punishment for children for their varied petty offenses against the discipline of home, and has well defined views on this subject. He expressed these views Wednesday morning in an interview with The Georgian, advancing opposition to the flogging of children as a general proposition.

He referred to the rod as a relic of barbarism, and said he hoped the time would come in his own day when in reality it would be a mere relic in every sense of the word. He added emphatically, however, that this time has not arrived, and that there is yet place in modern, everyday life for this little instrument, regarded by the offending juvenile as a powerful weapon of oppression.

**Rod Sometimes Necessary.**— "In my favor of the rod only in cases of absolute necessity," said Judge Broyles, "it applies to use in the home. I do not believe it should be tolerated at all in our schools."

"There are some instances of infractions of home rules that demand the rod. In such cases, it is not unwise, and I believe, tends to a betterment of home government. But, in my opinion, a child should not be thrashed until kinder and more humane methods have been thoroughly tested and have proved a failure.

"If an offending child can be corrected and shewn the error of its way without being whipped, it is much better for both the child and the parents. In many instances, the rod

See you, Charlie? You recall of the blonde tresser who can take a quarter's worth of dime skings, a mouthful of tacks and a wealth of native art and transform the northwest corner of an Atlanta apartment into a cozy corner nook for love's young dream.

As was remarked, last!

There is just one thing that the cozy corner aforementioned requires to make a web from which no man could escape or would, if he could—escape.

It's the harem negligee. It is designed for pretty women—women with soft, round necks and graceful curves. No woman with a corset can wear out of them, because it starts out with a frank exposition of the neck.

It is a sort of wardrobe symphony in blue and yellow, milk-cream and white. The foundation is a pair of soft blue harem trousers, a trifle more roomy than an up-to-date walking skirt, and caught at the bottom with the noise effect that gives the wearer the tone of a mouse in the old pants.

The trousers are held by a man of milk-cream and blue and white, giving the proper color scheme in connection with the blue, white and yellow. Then there is a soft blue jacket that is pulled in at the waist just enough to give an alluring outline of the figure.

## REGIONAL BANKS PLAN TO WIN IN COMMITTEE

Central Idea Dies Under Opposition of Administration, as Reflected in House.

WASHINGTON, Oct. 29.—A system of five or six regional banks, the capital to be contributed by the public, either directly or through the Government, and the control to be almost entirely in the hands of the Government, was indicated today as the conclusion that will be reached by the Senate Banking and Currency Committee.

The central bank with branches plan is dead. Its death is due to a realization by members of the committee that such a plan would not be the one that the House because of the opposition of the Administration.

House members have shown a willingness to support an amendment providing for public ownership of the banks.

## MRS. KING GOING FAR FROM HER OLD HOME

Woman Acquitted of Plotting Husband's Death Never to See Children Again.

MACON, Oct. 29.—"I never want to see my name in print again, nor my picture either, for that matter. I am going far away from this part of the country just as soon as I regain my strength to start life anew and put the whole horrible past behind me," declared Mrs. Katherine King today at the home of a friend in Macon.

She came here last night in company with her brother, W. S. Simmons, a Macon shoe store proprietor, who was the only one of her relatives who gave her aid or had anything to do with her after the killing of her husband.

Mrs. King declares that she never expects to see any of her six children again, and that is the feature that is causing her great grief.

"It is for the best," she says, "that they forget their mother. I can never forget them, but I know I should keep out of their lives henceforth."

**Brother Thanks God As Jury Frees Woman.**

GRAYS, Oct. 29.—Mrs. Katherine King is today a free woman, after spending ten months in the Jones County jail at this place charged with complicity in the murder of her husband, James King, a wealthy Jones County farmer, late Tuesday.

She was acquitted, after a two day trial in Jones Superior Court, following the conviction and passing of the death sentence on Nick Wilburn, a young farm hand, who confessed to slaying his employer and who used Mrs. King of plotting the murder because of the infatuation between her and Wilburn.

It was a dramatic moment when

Freeman W. W. Burton read the jury verdict giving the woman her liberty. She did not speak. Her only emotion was expressed in a heavy sigh. There were no tears. A tense moment pervaded the courtroom.

The first to break the spell of silence was Mrs. King's brother, who, alone of her relatives had struck by her and fought for her acquittal. "Oh, God, I haven't lived in vain," he cried as he began sobbing. Mrs. King placed her arm about his neck and whispered, "My darling brother."

Ten minutes later they left the courtroom together, going across the courtyard to the little jail that had so long been her prison, where she packed her belongings. They went from her children and other relatives. Three of the children are with Jones County relatives near Round Oak. The other three are in the Elizabeth Orphanage in Macon.

## All Clogged Up? Here's Quick Relief

**A Simple Remedy to Correct Constipation Before It Becomes Chronic.**

Very few people get through life without some time or other being clogged with constipation. Those who suffer from it are often injured by the use of strong cathartics, salts, mineral waters, pills and similar things. They have temporary value in some cases, it is true, but the good effect is soon lost, and the more one takes of them the less effective they become.

A purgative is seldom necessary, and much better, and more permanent results can be obtained by using a scientific remedy like Dr. Caldwell's Syrup Pepsin.

Do not ride behind a high-sounding name, but is what it is represented to be, a mild laxative medicine. It is so mild that thousands of mothers give it to their infants, and yet it is so compounded, and contains such delicate ingredients that it will have equally good effect when used by a person suffering from the worst chronic constipation. In fact, among the greatest industries of Syrup Pepsin are elderly people who have suffered for years and found nothing to benefit them until they took Syrup Pepsin.

It is a fact that millions of families use Dr. Caldwell's Syrup Pepsin constantly in the home. It is sold by Dr. W. W. Caldwell, 419 Washington Street, St. Paul, Minn. It is the use of Dr. Caldwell's Syrup Pepsin that has made it so famous. It is a remedy so good, and he is so.

MR. H. W. FENSTERMAKER.

glad to recommend it. The special value of this grand laxative tonic is that it is suited to the needs of every member of the family. It is pleasant-tasting, mild and non-gripping. Unlike harsh purgatives, it works gradually and in a very better tone the stomach and bowel muscles are trained to do their work naturally. Syrup Pepsin is a medicine that can be dispensed with. You can obtain a bottle at any drug store for 50 cents or \$1. The latter size is usually bought by families who already know its value. Results are always guaranteed or money will be returned. ## New Ambassador, Garbed as Civilian, Presented to Kaiser

Special Cable to The Atlanta Georgian.

BERLIN, Oct. 29.—Attired in civilian dress despite the traditional traditions of the German Court, James W. Gerard, the new American Ambassador to Berlin, was today presented to Emperor William and presented his credentials.

The fact that Mr. Gerard wore the dress of a "plain American" gave rise to the impression that President Wilson and Secretary Bryan had not been able to obtain uniforms for Ambassadors as suitable for representatives for the German Republic.

The absence of uniforms upon Mr. Gerard and his secretaries, who were also presented today, was the more marked on account of the known love of the Kaiser for display and the gorgeous attire of the German officials with whom the Americans came in contact.

The secretarial staff inherited handsome gold braid from the Prussian regime, all of which are now apparently useless.

## Leaders in Movement, Assured of People's Support, Set About Interesting W. &amp; A. Board.

Awarded of the united support of all Atlantans to build a civic center over the railroad tracks that run through the center of the city, members of the joint committee of the City Council and the Chamber of Commerce on the plan plan Wednesday began work to obtain the co-operation of the special Western and Atlantic Railroad Commission of the Legislature and of railroad officials.

W. A. Whitson, elected chairman of the committee at the organization meeting Tuesday afternoon, expressed what he considered to be the policy of the committee. He said:

"If Atlanta is ever to realize her dream of a civic center over the railroad tracks now that the Western and Atlantic Railroad Commission of the Legislature is considering them for re-laying the State's railroad property is the opportune time."

**Will Enhance Property's Value.**

"We should go before this committee I think with at least an outline of what we propose to do. I do not believe, as has often been intimated, that there is sufficient sectional prejudice in the State against Atlanta to refuse a good plan in the General Assembly."

In conversations I have had with other members of the committee the opinion seems to be that a practical plan would cost about \$2,000,000. This would include a new passenger station which would take the place of the old one.

**State Abutting Property.**

"The most expedient step would be a bond issue. But such an immense increase would come to the property owners who own frontage on the railroad tracks that it would seem just that they should bear a part of the cost; and they have expressed a willingness to do that."

A suggestion is to levy on those property owners an amount equal to 5 per cent on the bond issue. If the bond issue should be \$2,000,000 their part would be \$100,000 a year. The yearly interest on the bonds could be paid out of this amount and the remainder set aside as a sinking fund. If the bonds were allowed to run 50 years, say, the sinking fund would be sufficient to pay the entire principal.

All that would be required of the other taxpayers of the city would be to give their moral endorsement to the plan by voting a bond issue.

**Clayton Has Plan.**

City Chief of Construction R. M. Clayton, a member of the committee, has drawn a plan which embodies the general idea of the committee. The picture here given shows how the plan would appear when the ground is cleared and a new station on the site of the present station, and new overpasses for Pryor street and Central Avenue. The plan also provides for a regrading of Alabama street so as to meet the new grade on Pryor street, and offers a means of closing the underpasses at Forsyth street.

Mayor Woodruff thinks the ideal place for a central city market would be on the plaza between Central Avenue and Washington street.

Between Central Avenue and Forsyth street, except for a new passenger station that would rise two stories above the plaza, the space would be taken up with driveways along the building fronts and paths in the center.

**Plan Referred to Committee.**

Dr. and his colleagues as the members before the committee were the members of the committee who were with enthusiasm as they discussed the probabilities of such a beautiful central part replacing Atlanta's roaring smoke gorge.

John W. Grant, Mayor Woodruff and C. H. Kelley were the other members of the committee present. Several friends listened.

## MRS. KING FREED OF SLAYING PLOT

Jury Acquits Woman Accused as Nick Wilburn's Accomplice in Husband's Death.

GRAY, Oct. 25.—Mrs. Katherine King is today a free woman, after spending ten months in the Jones County Jail at this place, charged with complicity in the murder of her husband, James King, a wealthy Jones County farmer, last December. She was acquitted, after a two-day trial in Jones Superior Court, following the conviction and passing of the death sentence on Nick Wilburn, a young farm hand, who confessed to slaying his employer and who accused Mrs. King of plotting the murder because of the infatuation between her and Wilburn.

It was a dramatic moment when Foreman W. W. Barron read the jury's verdict giving the woman her liberty. She did not speak. Her only emotion was expressed in a heavy sigh. There were no tears. A tension pervaded the courtroom.

The first to break the spell of silence was Mrs. King's brother, who chose of her relatives had stood by her and fought for her acquittal. "Oh, God, I haven't lived in vain," he cried as he began sobbing. Mrs. King placed her arms about his neck and whispered, "My darling brother."

Ten minutes later, they left the courtroom together, going across the courtyard to the little jail that had so long been her prison, where she accused her belongings. They went direct to the brother's home in Macon, where she will remain, away from her children and other relatives. Time of the children with Jones County relatives near Round Oak. Three of the children are in the Heidelberg Orphanage in Macon.

BERLIN, Oct. 25.—Attired in civilian dress despite the fastidious traditions of the German Court, James W. Gerard, the new American Ambassador to Berlin, was today presented to Emperor William and presented his credentials.

The fact that Mr. Gerard wore the office of a "plain American" gave rise to the impression that President Wilson and Secretary Bryan had forbidden uniforms for Ambassadors as unsuitable for representatives of the foremost Republic.

The absence of uniforms upon Mr. Gerard and his secretary, who were also presented today, was the more marked on account of the known love of the Kaiser for display, and the gorgeous attire of the German officials with whom the Americans came in contact. The secretarial staff included handsome gold braids from the Kaiser's regime, all of which are now apparently useless.

The absence of uniforms upon Mr. Gerard and his secretary, who were also presented today, was the more marked on account of the known love of the Kaiser for display, and the gorgeous attire of the German officials with whom the Americans came in contact. The secretarial staff included handsome gold braids from the Kaiser's regime, all of which are now apparently useless.

The fact that Mr. Gerard wore the office of a "plain American" gave rise to the impression that President Wilson and Secretary Bryan had forbidden uniforms for Ambassadors as unsuitable for representatives of the foremost Republic.

LONDON, Oct. 25.—A suffragist who refused to give her name today was sentenced to two months more, or to pay a \$100 fine for throwing pepper yesterday at a meeting addressed by Lloyd George.

## Receiver Is Named For Machinery Firm

Clarence Bell has been named receiver by Judge Newman for the Scott Machinery Company, against whom a petition of involuntary bankruptcy has been filed. The Lipscomb-Pattillo Fire Insurance Company, the W. R. Gibson Company of Cincinnati and W. L. Scott of Atlanta, filed the petition.

Assets of the company are alleged to be in farm machinery and farm implements for machinery sold. An immediate sale of the machinery and collection of the amounts due on the notes is urged.

The first to break the spell of silence was Mrs. King's brother, who told her relatives that she had been and fought for her acquittal. "No, dad, I haven't lived in vain," he cried as he began sobbing. Mrs. King placed her arms about his neck and whispered, "My darling brother."

Ten minutes later they left the courtroom together, some saying the woman had been free for some time, while others said she would remain away from her children and other relatives. Three of the children are with Jones County relatives near Round Oak. The other three are in the Washington Orphanage in Marion.

## Ushers of Wedding Groom's Pallbearers

WASHINGTON, Oct. 25.—Six young men who acted as ushers at the wedding last June of Rold V. Dempsey, of Cleveland, and Stella W. Carmon, of Atlanta, acted as pallbearers at the bridegroom's funeral here.

## Leaders in Movement, Assured of People's Support, Set About Interesting W. & A. Board.

Assured of the united support of all Atlantans to build a civic center over the railroad tracks that run through the center of the city, members of the joint committee of the City Council and the Chamber of Commerce on the plaza plan Wednesday began work to obtain the co-operation of the special Western and Atlantic Railroad Commission of the Legislature and of railroad officials.

W. A. Winship, elected chairman of the committee at the organization meeting Tuesday afternoon, expressed what is considered to be the policy of the committee. He said:

"If Atlanta is ever to realize her dream of a civic center over the railroad tracks, now that the Western and Atlantic Railroad Commission of the Legislature is considering terms for re-leasing the State's railroad property in the appropriate time."

Will Enhance Property's Value. "We should go before this committee I think, with at least an outline of what we propose to do. I do not believe we have often been intimate, that there is sufficient sectional prejudice in the State against Atlanta to defeat a good plan in the General Assembly."

"What we want to do is to show the Legislature that this plan does not interfere with the value of the State's property, but will enhance it. I am sure that they will join with us in the plan that the project will benefit and beautify Atlanta."

In conversations I have had with other members of the committee the opinion seems to be that a practical plaza would cost about \$2,000,000. This would include a new passenger station, which would be donated to the State. The question is how to raise this money.

Tax Abutting Property. The most expedient step would be a bond issue. But such an immense increase would come to the property owners who own frontage on the railroad tracks that it would seem just that they should bear a part of the cost; and they have expressed a willingness to do that.

A suggestion is to levy on these property owners an amount equal to 4 per cent on the bond issue. If the bond issue should be \$2,000,000, their part would be \$200,000 a year. The city interest on the bonds could be paid out of this amount and the remainder set aside as a sinking fund.

If the bonds were allowed to run 50 years, say, the sinking fund would be sufficient to pay the entire principal.

All that would be required of the other taxpayers of the city would be to give their moral endorsement to the plan by voting a bond issue."

Clayton Has Plan. City Chief of Construction R. M. Clayton, a member of the committee, has drawn a plan which embodies the general idea of the committee. The picture here gives some idea of the plan. It would span the gulch from Forsyth to Washington streets.

It includes a new station on the side of the present station, and new overpasses for Pryor street and Central Avenue. The plan also provides for a regrading of Alabama street so

as to meet the new grade on Pryor street, and offers a means of closing the underpasses at Forsyth street.

Mayor Woodward thinks the ideal place for a central city market would be on the plaza between Central Avenue and Washington street.

Between Central Avenue and Forsyth street, except for a new passenger station that would rise two stories above the plaza, the space would be taken up with driveways along the building fronts and berms in the center.

Plan Referred to Committee. Dry and bewildering as the problem before the committee were the members could not help but warm with enthusiasm as they discussed the probabilities of such a beautiful central park replacing Atlanta's existing smoky gorge.

Captain Clayton's expert estimate on the cost of this plan was from \$1,000,000 to \$2,000,000, varying according to selections of certain features. The drawings were referred to a subcommittee, composed of Claude L. Ashley, Wilmer L. Moore and Captain Clayton to be reported back at a later meeting in more detail.

John W. Grant, Mayor Woodward and C. H. Kelley were the other members of the committee present, besides several interested citizens.

## BAKER BATTLES WITH THIEF IN DARK HALL

ROBERT Z. Dumb, a baker, is not yet 30 and has known the dough since he was a boy. He has been in the business for 10 years and has attained a reputation as a first-class baker. He is employed by the Georgia Power Co. at the Georgia Power Co. building, 120 Peachtree street, where he is in charge of the bakery. Tuesday morning, at 10 o'clock, Dumb was working in the bakery when he heard a noise and investigated. A few moments before he had seen a shadowy form pass the bakery window and he was in front of the door. Dumb found the front door

of the building and Halpern home open, and went in. Down the hall he saw a man trying to pick the lock of a bedroom door. Dumb stumbled as he crossed the threshold of the house, and the burglar heard him. He leaped at the baker and the baker leaped at him. They began pounding each other with their fists. They fought and scrambled up and down the hallway for fully five minutes before any of the neighbors of the house were aroused. Dumb, weakened finally, and telephoned for the police. While Police Officer O. R. Jones was making the rounds of the house, Dumb continued to fight the burglar. Halpern and Halpern, circling around, trying to help their employee, but not being able to get close enough to the struggling combatants to discover who was who. When Jones arrived at the scene, he found Dumb and the negro, who is a football tackle, gripping the neck of the burglar in the hall and wrapping blows with a will. The officer made a football tackle, gripping the neck of the burglar and bringing him to the floor. He was handcuffed and taken away in the patrol wagon.

## PROPOSED PLAZA IS TOPIC OF MEETING

Plans for presentation to the Western and Atlantic Commission of the Legislature of a project to erect a modern terminal station on the site of the old Union Station, and to cover the railroad tracks from Washington street to Fourth street for plaza purposes will be discussed at a meeting of the joint committee of the City Council and the Chamber of Commerce Tuesday at 3 p. m. at the City Hall.

According to President Moore of the Chamber of Commerce, it is not the intention of the committee to prepare any definite plans for the expenditure of the \$5,000,000 it is estimated the improvement will cost, until it has been learned how the project will be viewed by the Western

## Atlanta Engineer Killed in Carolina Wreck on Southern

Reports received in Atlanta Tuesday morning were meager concerning a wreck on the Southern Railway on Monday afternoon near Kasky, S. C. in which Ben J. Voyles, 40 years old, of No. 218 Pulliam street, was instantly killed. Voyles was the engineer of passenger train No. 11, which was derailed. The locomotive and several coaches turned over, and several passengers were slightly injured. Voyles was the only person killed.

## 30-MINUTE LIMIT FOR AUTO PARKING

An ordinance limiting the time for which an automobile may be parked in the business district to 30 minutes, thus keeping the streets open for the passage of through traffic, will be introduced in City Council soon by Alderman John S. Chandler. The ordinance has been drafted, and it is understood has the approval of the Council Traffic Committee, which is composed of Alderman John S. Chandler, John W. Grant, Councilmen W. H. Humphrey and A. R. Colcord, W. H. Kiser and Forrest Adair.

of the city, where no vehicle can stand longer than it takes to load or unload. It is thought that the ordinance will be passed unanimously by Council, as it embodies ideas of Chief Commissioners of the Police Department, and Chief Beavers, of the Police Department. The former recently declared that it would be almost impossible to cope with a fire in the business district, because of the automobiles that are parked along the curbs.

## City Officials Are Held for Conspiracy

READING, Pa., Oct. 28.—James Cummings, president of the City Council, two Councilmen and the City Clerk were arrested today on a charge of conspiracy. It is alleged that the men were bribed to work for the sale of a new fire automobile to the city. The police allege that marked money was found on the men.

NEW WINECOFF, ATLANTA'S  
MAGNIFICENT MODERN HOTEL

Special Cable to The Atlanta Georgian.  
PORTSMOUTH, Oct. 29.—A secret invention similar to Uliv's "F rays" has been the subject of experiments here resulting in the blowing up of the old warship Terpsichore by wireless influence at a distance of eight miles.

The Terpsichore, which was a cruiser of 3,000 tons, was towed out to sea with a metal box fixed to the bottom. A ray or spark projected from a battery exploded the material in the box, blowing a big hole in the cruiser's bottom.

# HOTEL WINECOFF OPEN THURSDAY

Brilliant Premier Is Planned by the Management of the New Hotel—All Atlanta Is Invited to Attend.

With two big orchestras playing such melody that the most proper of supper persons just can't keep her face still; with the bell boys in their white uniforms standing at attention; with French cooks from New Orleans passing over most delicious things to eat and attentive waiters, ready to serve these good diners, with smiling clerks, standing near spotless registers, Manager Frank Harrell will, on Thursday, open the big doors of the Hotel Winecoff to the public.

Every one is invited to inspect the new addition to the chain of magnificent hotels in Atlanta, and to participate in the merry festivities of the big opening day.

The silverware for the Winecoff, some 4,000 beautiful pieces, was received Tuesday from New York. It contains the very latest designs in silver service and cost \$10,000. The new hotel will be one of the few in the South that uses an all-silver service in the dining room.

**Oriental Rug a Feature.**  
Another thing of beauty which was received Thursday is an Oriental rug costing \$5,000. Originally it was made for a Persian Prince and during the late trouble in Turkey it was confiscated. Later it was imported to this country. It is the largest and most costly south of New York city.

The Winecoff, located at Ellis and Peachtree streets, was built on the highest point in Atlanta. The cost of the hotel, including the site, building and furnishings, totals close to \$1,000,000.

There are the rooms in the hotel and each has private bath, and from two to five windows. All the rooms are outside rooms and afford an excellent view of the city.

And late sleepers will not be annoyed from their slumbers by a maid who wants to clean up the room. Each doorway is equipped with a signal which shows whether the door is locked from the inside or the outside.

**Furnishings Are Beautiful.**  
The furnishings throughout the entire building are beautiful. All the decorations are hand-painted. The lobby is of Italian marble and big French windows here open the entrance to watch the crowds which pass by on Peachtree street. The restaurant furniture was imported.

The rooms are carpeted in solid colors, the Winecoff being the second hotel in America to adopt this style. Mahogany furniture is used throughout. The hotel is absolutely fireproof and sanitary.

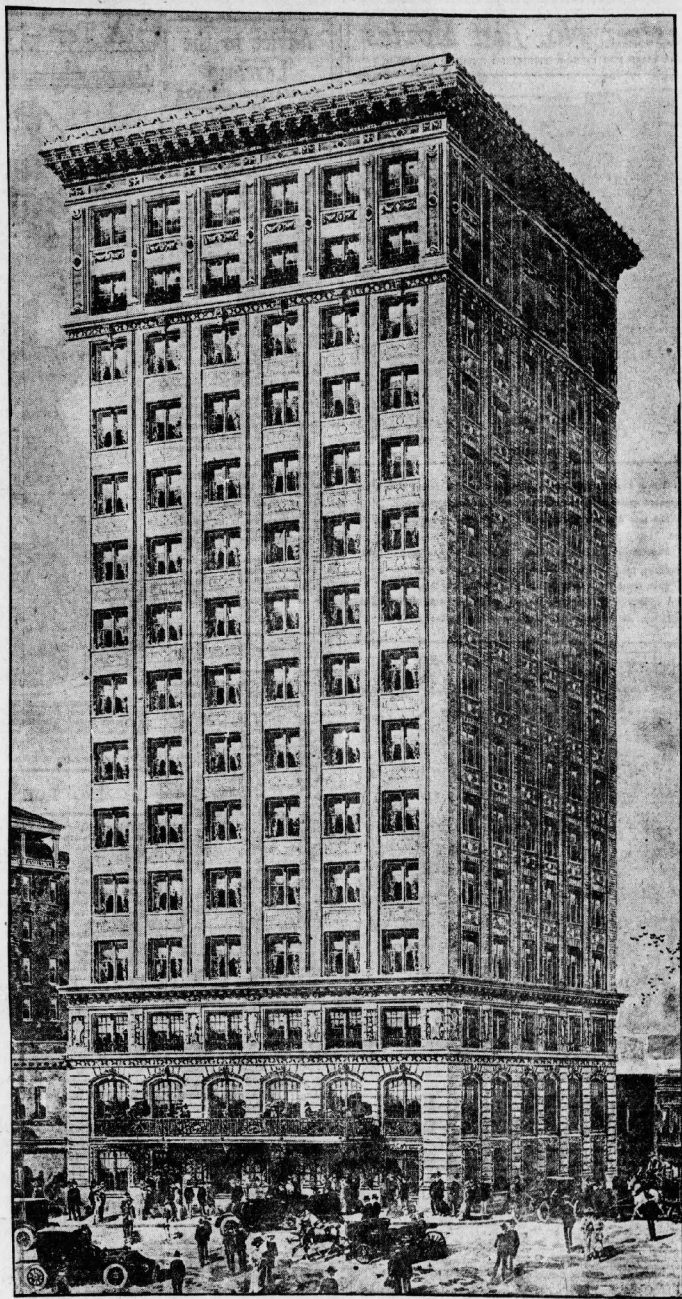

The new hotel is owned by W. C. Winecoff, a wealthy Atlanta, C. E. Jenkins, well known in Southern hotels, is the chief clerk, A. J. Smith is to be steward.

**Half Million Brick By Calhoun Company For New Winecoff**  
Brick, to the number of nearly a million—common brick—used in the erection of the new Winecoff Hotel were furnished by the Calhoun Brick Company, an Atlanta concern that has built an immense business on the fact that they give the best to be had in brick and the experience of years in the manufacture.

Like all big, modern business establishments, the Winecoff will transact its affairs largely by Bell Telephone.

Every guest at the Winecoff will be able to talk to New York, New Orleans and other distant points direct from the room they occupy. This convenience added to the local connection with more than 20,000 Bell Telephones make Bell service indispensable in business and social affairs.

The establishment of a Private Branch Bell Exchange in the Winecoff very largely increases the number of Bell Telephones in Atlanta and makes the service more valuable to each subscriber.

### Postmaster General Plans Atlanta Trip

Postmaster General Burleson will probably visit Atlanta the latter part of the week on a tour of inspection of the postoffices in the leading cities of the country, according to advices received by Postmaster Ewing H. Jones. In acknowledging receipt of information of the intended visit of Mr. Burleson or one of his confidential advisers, Mr. Jones urged that the Postmaster General himself come to Atlanta.

At an inquest held at A. C. Hemperly's undertaking chapel in East Point a verdict of suicide was returned. A search of the house failed to reveal any note of explanation by the farmer for his deed. Mr. O'Dell formerly resided in Atlanta at No. 46 Kendall street. He had been a carpenter, but his poor health forced him to give up that occupation. Three months ago he removed to College Park. His sons are employed in Atlanta offices. Besides his children, Mrs. O'Dell is survived by a sister, Mrs. Thomas Fuller, of Alpharetta, Ga. The funeral will be held Wednesday morning.

### Engineering Expert

**Special Cable to The Atlanta Georgian.** PARIS, Oct. 28.—The Panama Canal, the American Government's \$475,000,000 enterprise to unite the Atlantic and Pacific oceans, was to-day condemned as a "second or third class piece of work" by Philippe Bunau-Varilla, the famous French engineer, who has just returned from an inspection of the work. "There was a lack of foresight in constructing the Panama Canal," said M. Bunau-Varilla. "It will not accommodate the big vessels of the future. The weakness of the Gatun dam renders the waterway liable to complete destruction by earthquake. It is a second class piece of work."

### Rheumatism A Home Cure Given by One Who Had It

In the spring of 1902 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried every remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to do it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write to-day.

DURHAM, N. C., Oct. 28.—State Senator Victor S. Bryant, one of the best lawyers in North Carolina, in an address at the dedication of a monument to Sergeant of Police G. F. Gates, made an attack on the Durham police department, declaring that although Sergeant Gates was not of that type, the police as a rule would stretch the truth to convict innocent persons. Efforts may be made to investigate local police methods owing to his remarks. Gates was killed by Felix Conkley several months ago while on duty.

### IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally if You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally. Meat forms uric acid, which clogs the kidney pores so they sluggishly filter or strain out part of the waste and poisons from the blood; then you get sick. Neuralgia, rheumatism, headache, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular, or painful, or attended by a sensation of scalding, get about four ounces of Resinol, set about four ounces of Resinol in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders. Bad Salts is inexpensive and can not injure; makes a delightful afternoon drink, which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

**Where Hats Are Most Becoming**  
**125 Hats at \$5.00 & \$7.50**  
**Until Now These Hats Were \$7.50 to \$25.00**

But let's get at the statistics. The list shows that there were two hats previously \$7.50, one hat \$8.50; a dozen or more that were \$21.00, \$23.00 and \$25.00; the others were from \$10.00 to \$18.00, which, now divided into two lots, one at \$5.00 and one at \$7.50, shows that only three hats are not reduced so much as one-half.

**It's to be a fine sale!** For somehow or other hats seem to grow prettiest and becomingest in this millinery section. They are hats that women "take to," that women like because they are different from ordinary hats.

And now that in this first sale of the season, a readjustment of stocks, prices have been treated so drastically the economy (without sacrifice to the becomingness of one's hat) is compelling.

There are thirty-five hats at \$7.50. There ninety hats at \$5.00. They are styles you would be wearing right now, with tailored suits and silk dress; a few are for more "dressy" occasions. Velvets and plushes rule, and there are plenty of black velvets.

Trimmings are fancy feathers, the favored wide ribbon bows, flowers, and there is a touch of fur now and then.

But over and above the materials and the trimmings stands that chic and smartness of line and of contrasted and blended colors that tell very plainly these hats were made by artists.

**Indeed, it's to be a fine sale!** It begins with the opening of the store at eight o'clock.

## A Test---Not an Execution

This photograph does not represent some ingenious method of securing a dog. It shows a canine friend of man having his memory tested. The dog learns that when he puts his head at hole in the disc which has a red rim to it he is given some favorite food. Each time he puts his head through a wrong hole he receives a very slight electrical shock, warning him of his mistake.

## COLD WIND CHILLS HOTEL FIRE PANIC

Fire originating in a coffee house at No. 131-2 Marietta street sent 15 male guests of Williams House No. 8 hurrying into the street, but, contrary to the usual custom, the guests were fully dressed before venturing into the street. When the men were aroused by the clanging of fire bells and shouting of people in the street, they made a rush down the stairs undressed. Like a bunch of sheep before a hurricane, they hurried and ran back to their rooms. All preferred to take a chance on being entrapped by the fire rather than take a chance of getting pneumonia by going out into the cold undressed.

For half an hour it looked as though the entire block would be destroyed. Before the fire companies reached the scene the fire had eaten its way from the restaurant into a barber shop upstairs, owned by Alfred Nash. The Williams House was slightly damaged.

The blaze was discovered shortly before 2 o'clock Tuesday morning and an hour later was out. The restaurant was not insured, and the loss was estimated at \$1,500. The damage to the barber shop was \$300.

## Remnant Sales of Silks and Woolens

We Will Let You at Them at Nine o'Clock

The knowing know what these remnant sales at Chamberlin-Johnson-DuBose Co. mean!

So let us but say that here is one that builds up from the foundation that other remnant sales have made.

The past sixty days have seen thousands of yards of silks and dress goods cut off, and have left hundreds of short lengths to tell the tale of a one-time full piece.

Of course these silks and woolens had to be of the mode; they were new with this Fall—but the fact that they are now remnants tells all that.

They are getting in our way now.

So they go!

And with their passing let us mention that in these remnant sales, as in all things, we have the temerity to do what we claim.

Our claims are very large.

So will be the goings-on.

Silks and woolens are having a huge season; remnants are piled high.

There will be fine choosing!

### GRAND BATTLE ON SLATE WHEN MOGELS CLASH

One Swell Old Scrap Due Over Election of President in National League.

By Frank G. Menke.

NEW YORK, Oct. 25.—Those who relish the sight of a good fight, and who are not afraid to begin moving their pen-knives toward a play, may be interested to know that the National League meeting in December, a battle royal, it may be called, in one of those affairs that are fought upon by polite society. A large number of combatants are placed into one small ring, and are expected to battle each other in a close play. At the start the little fellows are hand together and make a combined attack upon the biggest combatant. After they have done this, the next biggest man into a state of coma.

The rules of a "battle royal" do not permit hitting in clinches, biting below the belt, or doing anything that might bring any other persons in the ring at any time. Because of this fact, it often happens that one man, seeing a nice opening, whallops one of his biggest friends, while another is industriously assisting other midgets in knocking the big fellow.

The small slugs get a distinct advantage in this way, as he thus eliminates another of the combatants, and has a good chance of winning the prize provided that the victor is the man who remains on his feet the longest.

Have Had Many Fights. From the meeting of the old league managers in its years have provided some very hot, but most of them have been fought under the Marquis of Queensbury rules which have intended to eliminate excessive brutality. But the meeting was decided to be the liveliest in baseball history and which will make the others seem like church socials.

From this distance it looks as if the battle royal will be a close one. The managers of the National League, who are the "big fellows" in the "battle royal" are the following: Tom Linn, who is president of the league, the big fellow; Herman E. Meyer, who is the big fellow; and Robert W. Brown, who is the big fellow.

A year ago Herman E. Meyer, who is the big fellow, was elected without opposition in 1923. And now, according to reports, those who did the promoting have forgotten all about it and have set out to vote for Meyer, who has been elected. Meyer, who is the big fellow, has been elected. Meyer, who is the big fellow, has been elected.

Friends of Meyer declare he has been a "good" and that they will fight him. Meyer, who is the big fellow, has been elected. Meyer, who is the big fellow, has been elected.

White hopes having crippled the boxing game in New York, the only way they can square themselves with the public is to cripple each other.

YES, WHY? We offer a grand to Parker McFarland.

The closest watercolor under the skies. Oh, he is a wonder who puts them all under. But why should he fight with a fellow like him?

Once in a while a college correspondent starts the word by an answer that the football team is a good shape.

While these football experts are talking at the verge of the town they might at least get together and make the same guess.

High Jennings, a baseball manager, has been elected to the position of manager of the Atlanta Braves.

Norwich, Conn., held a street parade in honor of Darryl Murphy, one of the athletes who lent the Athletics his moral support during the late series.

Some day we may pick up a paper with the headline: "The reason that somebody else is building a cup defender."

HERE'S A REASON. The player said, "I can not keep my eye upon the ball."

With a line upon the fence can not hit at all.

It only took a passing glance to make the reason clear.

It was a sign to critics that he had up his legs.

### 'Kid' Young and Lee To Box at Athens

By A. H. C. MITCHELL.

A change has been made in the boxing schedule to be staged at Athens, Ga., on Wednesday, November 5. Charles Lee has been substituted for "Kid" Young against "Kid" Young in one of the all-star bouts.

Young and Lee have been rivals for some time, and the Athens promoter thinks the fight will draw more than a Young-Brown one, as the latter has never defeated any of his.

Frank Baker and Jack Thorne will clash in the other ten-round fight. This should also prove a good fight, as it will bring a clever fellow in Baker against a more powerful one in Thorne. Both bouts are to be ten rounds.

### Sidelights on Sports

By A. H. C. MITCHELL.

BONUSES came more trouble between player and manager than anything else in baseball. They ought to be abolished.

The big leagues ought to pass a rule prohibiting any club from offering a bonus to any of its players.

A bonus is a sum of money promised by the president or manager of a club to a player if he makes good. The bonus is offered in addition to the player's regular salary. Bonuses are offered as a last resort when the player and the manager cannot agree on terms. The player wants more money than is offered in his contract. The manager doesn't want to pay more than is offered. Finally the manager must say:

"If you will sign the contract at the bonus I will give you a bonus of \$500 at the end of the season if you make good."

The player says:

WHEN the season ends the player checks the manager and demands the bonus of \$500. He is armed with all the objections raised by the manager. He is armed with all the objections raised by the manager. He is armed with all the objections raised by the manager.

## Advice to the Lovelorn

By BEATRICE FAIRFAX

WAIT A YEAR.  
DEAR MISS FAIRFAX: I am a young man, twenty-three years of age. About three months ago I met a young lady about seventeen and one-half years old, and we have kept company since. I have taken a liking to this girl, and I know she loves me, as she has told me so. Her parents are also very fond of me. My parents, however, object to my going with this girl for the reason that her parents are not in the same financial circumstances as they are, my people being in business and considered quite wealthy, while her father is a plain working man. I have told my parents that I love this girl, and I have tried to convince them that the difference in their positions should not be a consideration for them to interfere, but they do not seem to listen to me. I have become so now that I will either have to leave home and stay away from the girl, whom I most dearly love, or I will have to break with my parents.

PEPPELTON.  
AND HEARTSICKEN.  
In the first place, are you self-sufficient? If you are depending on your parents for your bread and butter, you have no right to go against their wishes. In the second place, the girl is under eighteen, and may not know her own mind. Wait a year. I am being around more favorable conditions.

KEEP AWAY FROM HER.  
DEAR MISS FAIRFAX: I am a girl of sixteen. We have been keeping company for the last year. My father objects to my leaving home, and I am very fond of my father. I know she likes me, and I am very fond of her. What can I do?

BEATRICE FAIRFAX.  
I am a girl of sixteen, and her father is a very stern man. He will not let me go with you. I must respect them by keeping away from her. In no other way can you prove your love and respect for her.

## Up-to-the-Minute Jokes

Sir Frank Lockwood was on occasion conducting the defense of a person charged with cattle-stealing, and was pressing a witness in cross-examination to ascertain how far he was away from the animals at a certain time.

"How could you tell they were beasts?" he asked.  
"Because I could see 'em."  
"And how far off can you tell a beast?" he asked.  
"I could tell easily at Sir Frank and said, 'Just about as far as I am from you!'"

A number of Parliamentaries enlivened a political luncheon recently by telling the story of a certain famous politician who attended a banquet at which it was expected important speeches would be made. A dish of snails was set before him, and after looking at the fish and then at the other guests he remarked:  
"Gentlemen, let us show the example of these little fish—drink a great deal and say nothing!"

There Will Be About 6,000 Delegates and Visitors, and the Work of the Congress Is of the Greatest Importance.

The Georgian trusts that nothing will be left undone that may in any wise help the Atlanta hotel men in their efforts to land this big Congress next year.

Don't breathe "upside down," as the distinguished scientist, George F. Watson, puts it. Breathe from the bottom of your stomach up. Fill every cell in your lungs from the very bottom to the top of the lungs just below the neck—the place in which consumption takes its toll.

the West India Islands and Central America. This suggests that the continent of Atlantis extended completely across the ocean and was connected with America on the west. It is probable that the islands as closely associated with the New World as with the Old and formed a means of communication between the two worlds. The Atlantean deluge, destroying by wholesale the sons of men because they had blindly offended the Ruler of the Universe. And in that case how otherwise should we regard those islands, now supposed to be projecting points of submerged Atlantis, the islands of the Atlantes, of that drowned land?

Any boy or man who will do those things persistently and feed his brain as well as his stomach will get ahead in the world. The trouble in this world is not lack of opportunity, but

The trouble in this world is not lack of opportunity, but lack of concentration, ambition, willingness to work and self-denial.

## The Balance

## "What Chance Has an Elevator Boy or Man?"

Balance is something we should strive to preserve. The man with **BALANCE** is the man who **SUCCEEDS**. You can't walk life's tight-rope with whisky as your balancing rod.

The more whisky you drink the more your balance is upset.

Finally the whisky that you have drugged your system with overbalances you, and you fall from the tight-rope of oblivion.

"This picture is presented to you to make you THINK. It contains a lesson for every man, especially the **YOUNG MAN**. YOU'VE been your balance."

## "What Chance Has an Elevator Boy or Man?"

CONTINUED FROM FIRST TWO COLUMNS.

You can hold yourself straight and stiff and keep your back bone from sagging down.

You can hold your shoulders back.

You can shut and open your fists, developing the muscles of your forearm and your hands.

You can with quite impetuous spasmodic motions develop many of the muscles of the body, the legs, the chest, the back and thus keep your health.

A man who has a job none too good and who wants a better one should:

Attend to that job thoroughly, doing all he can and learning all he can.

And second, keep his body and his brain in good health. That he may be ready for the better job when it comes.

He can have a chance as good as any among those that do hard work with long hours for rather small pay.

He must manage in spite of the long hours to find some time for reading.

And there are two things that you should value.

Your stomach and your brain.

Don't starve one or the other.

Get a good dinner, slowly, carefully.

Read a good book, slowly, carefully.

Feed your body, feed your brain, watch your passages take care of your elevator, be polite, stand straight, breathe deep and send yourself from an elevator boy to something much more prosperous.

P. B.—Most of what we have said here about the elvers boy applies to a great many other boys and men who think their jobs offer no opportunity.

All of us, if we choose, can breathe deep, stand straight, practice politeness and study character.

Any boy or man who will do those things persistently can feed his brain as well as his stomach will get ahead in the world.

The trouble in this world is not lack of opportunity, but lack of concentration, ambition, willingness to work and self-denial.

CLAYTON AND CIGAR  
BIG HIT AT FORSYTH

By TARLETON COLLIER.

Mr. Clayton White has a cigar in his mouth, upturned at an acute angle. You come to realize that Mr. White and his cigar and his sweater and his dress suit and all are very funny. It's his personality that does it, and that personality, linked with the friendliness of his partner, Miltie Phelps, has made of "Clayton and Cigar" a sketch on this week's bill at the Forsyth, a most striking number.

What's more, Clayton White and his entertaining company came to the Forsyth as a surprise. They were not billed on the boards that went up all over town last week advertising this week's show. And when the unexpected minority that is in their sketch is held up to the audience, there is much exultation.

Another sketch there is of considerable value. "On the Edge of Things," presented by Homer Miles and his company, has a real punch. Mr. Miles is a very winning jester who saves a girl from elopement with a married man.

Married and Mohr, a pair of attractive young men, have a song called "Chubland." Their business even in the most ludicrous lines, has a sort of heart interest, and the whole thing is bright.

Harris Bulger and Herbert Cortright have an act of new songs and dialogue. In which they make up to represent a certain bewitched pair of young, deep manufacturers. Their number is "The Smith Brothers in New York."

"Lodger" is a roller-skating bear and a most unusual vaudeville performance. At Raynor's building, closing the bill are most energetic and very

## "Third Degree" Is Play With Real "Punch."

"The play with a punch" has a fair example in "The Third Degree," Charles Klein's dramatic presentation of big city police methods, which is at the Lyric this week. There is the story of the coercive manner by which the officers seek to bring a confession from a suspected criminal.

In this case, however, the suspect really is innocent. This makes no difference whatsoever to Captain Clinton. He still has the confession, whether or not. His methods are highly effective. He uses every means of intimidation from the display of a pistol to mental suggestion. This last is effective. The prisoner, Miltie Phelps, is mind worn by the signs of question—determination, suggestion, threats, finally admits that he is the right man, even though he is not.

The situation, however probable or improbable, is intense and the act in which the third degree methods are displayed is the "punch" of the show. The company at the Lyric, whose principal players are Miss Grayce Scott as Annie Jeffries, Glenn Anders as Captain Clinton, William Thompson, Harrison Ford, Theodore Dudley and Edwitt Newing, is capable.

"The Third Degree" will be seen in business Tuesday, Thursday and Saturday, with performances every night this week.

## Police Hunt Negro Who Shot Up Car

SAVANNAH, Oct. 26.—Police are today scouring the country for a big negro who tried to shoot up a Mill Haven car full of women and children.

The negro, who was a passenger, waited until the car got out of the limits, when he pulled his revolver and fired several shots. A man knuckled up his arm each time he fired and finally took the gun from him. The negro then jumped from the train and escaped.

## THE LIFE OF DIAMONDS

BY LOUIS TRACY  
A THRILLING STORY OF A MODERN CRISTO

(Copyright, 1914, by Edward J. Clode.)  
TO-DAY'S INSTALLMENT.

The leading diamond dealer steadily on. There was nothing remarkable in this. When the driver reached the obstruction he would turn out of the park by the main gate, that was all.

But he did nothing of the kind. There was a sudden crash of wood, a woman's scream, and the horse was straggling wildly amidst a pile of loose wooden blocks, while one wheel of the cab dropped heavily into a shallow trench.

Simultaneously the brougham pulled up and its two occupants rushed to the scene of the accident.

Phillips' driver, of course, obeyed instinctively, but he shouldered his fare as he jumped into the road.

"That fellow's either drunk or he's a fool," said the man who addressed her.

Phillips was of the same opinion. He reached the overturned brougham almost as soon as the two hurrying men in front, both of whom were in evening dress.

One of them held the horse's head and steadied him; the other was just in time to help the young lady to leave her dangerous conveyance.

"I know you have received no injury, madam," he said, politely.

"Oh, not at all. I was frightened for an instant. How could it have happened? I saw the lamps quite plainly."

The man seemed to pull his horse deliberately into the barrier.

"The voice was singularly sweet and well modulated. A neighboring lamp illuminated the girl's face with its white, unsparring radiance. It revealed features beautifully modeled, and large, startled eyes that looked wonderingly from the man who came so promptly to her rescue to the driver who had caused the mishap. Philip, behind the harness, was unseen. He remained a critical observer.

"I hear he is intoxicated," was the reply. "How you! How came you to make such a blunder?"

"Blind as a bat," came the gurgling answer. "I saw some red spots dancing about, but I thought it must be that last girl of mine."

Nevertheless the cabman extricated his horse and vehicle from their predicament with singular ease for a half-drunken man.

"Hold on, madam," he grinned. "There is not a farthing for the steeples."

"No, madam," cried the lady. "I will wait. I will wait for you."

"Take my advice and pay him by no means," protested the man by her side. "Leave him to me. My friend here will take his chance."

"I am in a brougham," was the cabman's brief answer and he swayed and swayed them all with personal violence. The lady, scarcely unwilling to avail herself of the accommodating offer made to her, tried to raise away.

The driver of the brougham followed his horse on to the pavement. By this

time he had turned his back to the road-menders' barrier.

The girl, staggered and alarmed, shrank toward the gentleman, who seemed to give her some measure of protection from the infuriated equine of all the trouble.

"To step into my brougham," he said, civilly. "Please, just grab the crooked leg again and keep that idiot quiet until we are away. Now, madam, take my advice. You will be quite safe instantly."

Even yet she hesitated. There was, nevertheless, a timber in the belt, cultured tone of the speaker that did not ring truly. The note of a bell, cultured tone of the speaker that did not ring truly.

He looked at her with a stare that was perfect if it were to a face fit for the mortal and the human voice often but a warped rattle when to all outward seeming there is a fair exterior.

The man who addressed her was youthful, but much older than he seemed. He was a gentleman, with the polished and neat manner of society. His voice, his attitude, were fit for the best of society.

A bold altercation broke out between the cabman and "Victor." The latter did not appear to be so ready to lay hands on the reins again, and the whip fell viciously on the horse's flank, causing him to start forward in dangerous proximity to the couple on the sidewalk. He came close, but not too close. Philip was now quite certain that he was witnessing the dearest display of a skilled driver.

## Tries to 'Keep Up With Lizzie'; Is Arrested

ANNISTON, ALA., Oct. 25.—Trying to "keep up with Lizzie" and manage a display by wearing a dress suit at a wedding, Lawrence Sanders, a trusted negro employee of the Seaboard Drug Company, stole \$21 from a cash drawer and was bound over to the Grand Jury under \$500 bond to-day. The money was found in his sock after he had been arrested.
