

MAY AMEND MOTION FOR NEW TRIAL OF LEO FRANK

Solicitor Dorsey Intimates That He Will Contest Any Change Proposed in Original

The extraordinary motion for a new trial of Leo M. Frank, as served on the solicitor more than two weeks ago, will be awarded in all probability, when it is formally filed in the criminal division of the superior court on Thursday morning.

Solicitor Dorsey has intimated that he will contest any offer to amend the motion, and that he will file a motion to have it set aside on Thursday morning.

The defense will, however, that the defense will attempt to incorporate some of the findings of Detective William J. Burns in any amendment to be filed on Thursday.

When the motion is filed, Judge Ben H. Hill will hear the arguments, and set a definite date for the arguments, and that will be set for April 25th.

Therefore, before the arguments on the extraordinary motion is commenced, Burns will have made his report on the case, and another amendment, incorporating any new evidence, the famous detective said, will be filed.

At present, the defense of Frank refuses to discuss the proposed amendment, and they will consider it.

With the extraordinary motion is presented to Judge Hill. If he entertains it, and issues a rule, and sets a date for hearing, the same order will contain a stay of Frank's execution on Thursday.

The execution once stayed, means that Frank, in event his motion is lost, will be tried again in the superior court and sentenced for a third time.

Burns had not returned to the city on Tuesday, but he is expected to be in charge of the Burns forces in the chief's absence, said that very likely he will be present at the trial.

Burns expects Frank to make his report soon after his return to the city.

The defense of Frank has made the trip on an angle of the investigation.

John Lehon declares that aside from Chief Lanford the city detectives no one has answered Burns' offer of a \$1,000 reward for information leading to Frank with evidence proving that Frank is a pervert.

"We are for the statement of Conley at the trial, the names of which are inconceivable," says Mr. Lehon. "We have found no evidence to the contrary to support the perjury charge."

IN LOCAL THEATERS

(Critiques of initial performances at the local theaters are given in this column. All other matter appearing in this column is furnished by the theater management.)

It was the opinion that the new musical drama was the advance sale of tickets for the Metropolitan grand opera season. Following the announcement of the local Federal association that the season would open in the fall, there was a marked increase in sales both at Phillips' and at the Grand Opera company, and prospects are good for smashing all attendance records in part.

From some standpoints, "The Lily" isn't a bad musical drama, but it isn't spectacular and it hasn't enough comedy to satisfy.

But the company which attempts it and gets by is probably outside the amateur class.

The first performance was remarkably smooth and finished. The play was quite a wait after the first act while the scene-changes were elaborate, but the for-mer was changed, and only two moments when lines would escape the players at the audience left the house.

EARLY ADVANCE IN COTTON MET BY HEAVY REALIZING

Market in New York Closed 7 to 22 Points Down From the Previous Close

(By Associated Press) NEW YORK, April 14.—The cotton market closed 7 to 22 points down from the previous close of 10 points today and sold about 4 to 5 cents a pound below the previous close. Relatively firm cables, a bullish view of the market and a general desire to realize some weather than existed in the eastern belt, were factors in the market's action. The market soon cooled off to last night's level.

Weakness in the stock market and an unusual number of cotton futures contracts were required to promote scattered local selling later in the day. The market was then again dragged off to a loss of 6 to 9 points.

The cotton market is still in agreement with oil and cotton cables, with on-going rumors as to the Mexican situation, a continuing increase in the market, during the early afternoon and May contracts were 10 to 12 points up from the previous day's point net lower.

TO-DAY ALL MEN ARE BROTHERS.—By Goldberg.

BOARD OF ALDERMEN IS DEFENDED BY HUMPHREY

Finance Committee Chairman Says Money to Decorate City Hall Is Lacking

W. G. Humphrey, chairman of the finance committee of council, declares the aldermen board is being censured in some quarters for refusing to concur in council's appropriation of \$1,200 to decorate city hall with permanent electrical illumination in advance of the Shriners' meeting next month.

"The aldermen board is not to be blamed for this," said Mr. Humphrey. "The responsibility," he said, "rests with the board very probably refused to concur because of what I told them. I appeared at a meeting of the board and told them there was not even enough money in the treasury to pay the appropriation. They were so anxious to have it that the mayor would veto it because he has been opposed consistently to anticipating any revenue. They were so anxious to meet an appropriation or hall with no appropriation."

"I merely gave the facts to the board. In the first place, the contingent fund from the Shriners' meeting was not even half paid in. I told them whether they concurred in the appropriation or not, it would be a waste of money to do it for that reason. I was not fighting the plan to decorate city hall. I was simply showing that the city was not prepared to spend \$1,200."

"I would be glad to help in every way to beautify the city hall property for the Shriners' coming, but I am not asked to contribute any public subscription fund for this purpose."

WAR FLEET IS OFF TO MEXICO COAST TO ENFORCE ORDERS

(Continued from Page One.)

The fleet, which is to be ready for the battle in an endeavor to join belated

reinforcements which failed to arrive in time.

A report from General Obregon at Mazatlan, on the west coast, says a band of federal sailors mutinied on the gunboat *Monterrey* and, after a short gun battle which General Obregon ex-

pected would arrive shortly at Topolobampo, had been captured.

The *Monterrey* became a rebel asset in this way some time ago and had been captured by the rebels.

The rebels will have two warships against one, the *Monterrey*, of the federal.

The *Monterrey* was captured last night

and is thought by Obregon that it would be safe to the city should be

able to pursue its course.

Another bandit was pursued by

another bandit and a small naval

engagement ensued.
