## TECH ENDS FIRST TERM WITH UNUSUAL SUCCESS

Members of Senior Class Annex Agriculture to Their Curriculum

BY C. O. KIRBY.  
Last Wednesday, the members of the senior class of the Atlanta Technical School, who have been studying agriculture, were given a very interesting and profitable day. They were taken to the Georgia Experiment Station, where they were given a tour of the various departments, and were shown the latest methods of agriculture. The tour was given by Mr. J. H. Smith, who is in charge of the station. The members of the class were very much interested in what they saw, and were given a very good idea of the importance of agriculture in Georgia.

## Boulevard School Will Present "Nancy Hart"

All the grades are very busy this week with the quarterly examinations. The seventh A is getting up a fine program for Georgia day. Among the things they are going to have will be a play, "Nancy Hart".

## MAJOR GUINN WILL DISCUSS LONG SESSION AT HILL ST.

Handsome Picture Rewards Best Ticket Seller in Candy Pulling Contest

BY MRS. HARRISON.  
The Parent-Teacher club held its regular meeting on Tuesday afternoon. Refreshments were served, and the members of the club were given a very interesting and profitable day. The members of the club were very much interested in what they saw, and were given a very good idea of the importance of agriculture in Georgia.

## ADAIR MAKES ESKIMO HUT AND REAL INDIAN VILLAGE

Birthday of Robert E. Lee Celebrated With Splendid Program

BY MRS. HARRISON.

## G. M. A. GRAB ROOM DOING FLOURISHING BUSINESS

Colonel Woodward Takes Class Through "The Next Generation"

BY W. DELANEY WAT.  
The grill room at G. M. A. is now doing a very flourishing business under the ownership of the Atlanta Athletic Association, with a committee composed of Captain Rosser and Captain Sheffer of the Academy and Captain McNeil, Douglas and Schenck of the student body. This successful committee has placed a good supply of favorite drinks, candies, sandwiches, and pie fresh daily, with the very best of a cake such as a gun, oil, shoe and brass polish, tooth paste, buttons and shoe strings and many other articles with different stock coming in at all times.

The red and white quizz was defeated last Friday in a hot game by Tech High on the latter court. The game was played promptly by Captain Rosser at 3 o'clock and from the first tip of the ball went to the gate territory but for the ability of the High school boys for keeping uncovered they managed to prevail.

The accurate passing of Cents and Harlan was the feature of the game, while Porter made several clutch shots for the cadets. The steady playing of the G. M. A. was also a feature as he succeeded in getting every tip off and staying with his man.

The last act of the play was the league was played this round with boys high the score of which could not be obtained at this time.

President J. C. Woodward is conducting a class of the seniors and juniors at chapel each morning. The class is studying "The Next Generation," by Jewett and is enjoying it greatly. After the book is completed an examination will be held with it at once start the study of another book.

The baseball season is soon here, much to the delight of all. The anxiousness for it is shown by many seekers for places on the team "training up" every fair afternoon that we occasion.

On one of our last spelling lessons, the boys did not miss a spelling place since the holidays and is furnishing the best of music for the parade.

Thursday afternoon and inspection morning under the direction of Captain J. Marshall, this organization is in the best of shape of any of the previous bands at this season of the year.

## TECH HI ANNUAL MAKES ENCOURAGING PROGRESS

Highbrows Just Developing in Senior Class Present Serious Problem to Faculty

BY ED ORRIS.  
The senior class is now focusing its sources of energy in an endeavor to push the annual to early publication.

The editors readily recognize the wisdom of placing the book before the close of school.

By reason of the general depression in business, the business managers have experienced much difficulty in closing advertising contracts. Many concerns who have always exhibited their share of business interest have been "turned up down."

"Nobody is 'down in the mouth,' however, and such adverse circumstances have not newly invigorated the boys in their work."

"Just 'snip,' which is merely the seniors common contempt for descriptive adjectives, is being used."

"Somebody's great." Nobody has seen it to throw up their hands except "Fanny" and he is immediately with drew them for fear of being "shot."

By the way, the seniors have many members who are not destined to be pedagogues. Their astounding intellectual qualities have enabled the faculty to enter into consultation with them on many obscure points.

Notable among these is the Sherwood Hart, more commonly known as "Anburn." He seems to have discovered some new relations between the parts of the various comic sections, next convention of the "international mathematics league."

Prof. Lucius C. Hart, who is in charge of the physics laboratory, has just discovered a new relation between the rate of propagation of sound waves on the earth with the acceleration of gravity on Jupiter.

## LITERARY AND ATHLETICS AT MISS HANNA'S

BOYS' BIG GAME WITH TECH

Among the interesting activities at Miss Hanna's school is the work of the Literary and Debating society. In the picture are shown the officers of this society: Fred Porter, secretary; Ruby Martin, assistant secretary; Bill Palmer, vice president; Lemuel Lewis, president. Below is a picture of the basketball team in the midst of a hot scramble.

## FAIR STREET THIRD GRADE TRIES NEW SWEDISH DANCE

With Only One More Team to Play, Normal School Still Without Defeat

BY LAURA KIRBY.  
Every one in our school is praising the soccer foot-ball team. They defeated F. S. Sliton school Wednesday with a score of 7 to 0. The referee informed them that by winning this game they had won the loving cup offered by A. G. Spaulding company.

They have made a perfect score all the season, defeating the following teams: Edgewood 1-0, Davis 2-0, Forest 2-0, Francis 2-0, Hill 5-0, and W. F. Sliton 7-0. We have the Forest avenue team yet to play. Not a single team has scored on our team and if our players shut out every other team, they will have made a perfect score.

The girls of the basketball team played a game against North Avenue Freshman school last week. They were defeated on their court this time with a score of 13 to 17. Since our team has been organized we have won every game we played.

Jim Williams and Jasper Smith, the seventh grade A visited Black's Candy factory last week. They were shown all over the building and learned many interesting things about making different kinds of candy.

Monday, in the auditorium, the sixth grade B had a meeting of their interclub club. It met at Thelma Cobb's home. They were entertained by songs, recitations, etc. This delightful meeting was very successful. Every one present had a fine time.

The Senior Cooking class is serving luncheon to the faculty every Thursday. Two girls prepare the luncheon, and one girl acts as hostess.

Miss Crook, a teacher from Rome, who owns 2,600 acres of land, is coming out to the Berry school and taking agriculture and cooking lessons, so that she may be able to cultivate her land to the best advantage.

The Berry school is making plans for an institute for country teachers, to be held the last two weeks of August at the Berry school.

The articles which the weaving room, the sewing room, and the dressmaking room have made up for the Berry school are now on exhibit in the new building. They have been sold, and orders have come in for the new building.

The Berry school is making plans for an institute for country teachers, to be held the last two weeks of August at the Berry school.

## BOYS' BIG GAME WITH TECH

Rogers Thinks Whole Boys' Hi Team Starred in Big Contest Wednesday

BY HERBERT BOORME.  
The game played Wednesday, between Boys' High and Tech High, was a hard fought contest from beginning to end. The Gilmer street team finally winning by a score of 15 to 7.

The feature of the game was the team work of Boys' High. The passing was little short of marvelous. Scott and Lowry starred at the passing game, and a brilliant play was made in the third quarter, allowing Gilmer only five field goals.

The Tech High team has been playing very well this season and in fact I believe it is the best guard I have seen this year play on the field.

Scott was a very good player. The work of the Tech High team was very good. The fact that they had been sick for several days and was not in good physical condition, was a great advantage.

B. Adams did excellent work and his passing was a great help. The Tech High team was very good. The fact that they had been sick for several days and was not in good physical condition, was a great advantage.

The Tech High team was very good. The fact that they had been sick for several days and was not in good physical condition, was a great advantage.

## Mrs. King and Miss McCurdy Delightfully Entertain Basketball Team

BY JOHN H. KEMMITY.  
This has been probably one of the best weeks Donald Fraser boys have spent since September. They all have to hear across mentioned they are telling with the greatest diligence that they may be able to accomplish the strenuous tasks of the coming week.

As a whole the student body this year has been doing the average both in department and work. Some of the students have made exceptionally good grades. This being true the faculty is expecting the examinations papers to be a good deal better than in previous years.

The basketball team was delightedly entertained on last Wednesday evening with a banquet given by Mrs. King and Miss McCurdy. The affair took place at the home of Mrs. King, 315 North Avenue.

The team was very much pleased with the entertainment. The banquet was a very good one, and the team was very much pleased with the entertainment.

In fact, most currency is needed for emergencies.  
Your ideal optimist already feels spring in his  
bones.  
Rockefeller, Jr., argues that Rockefeller, Sr., has  
done exactly the right thing.

England ought to feel complimented. Germany  
seems almost all the united things about England.  
Her abuse of the others is mostly negative.

## The Revival of Industry.

The announcement that two factories at Marietta,  
which have been closed since last autumn, will re-  
sume operation on February the first, is evidence of  
improving conditions in trade and industry through-  
out Georgia and the South.

These concerns employ more than five hundred  
men and have weekly pay rolls amounting to nearly  
four thousand dollars. Their reopening will mean  
more business in that community, and will re-  
lieve heavy burdens that were incident to unemploy-  
ment among the people.

This is one among hundreds of such instances  
the country over. Mills, great and small, which were  
suspended, or running on short hours and reduced  
forces, are awaking again at full capacity. The Phil-  
adelphia Public Ledger notes that the orders of the  
United States Steel Corporation are hundreds of  
thousands of tons greater than they were at the low  
points of 1914, and that a coke company has now  
forty-four thousand men to work on full time. Fur-  
ther:

The excess of exports over imports in De-  
cember very noticeably eclipsed every other record  
for that month, and the prospects are that Janu-  
ary's return will be equally magnificent. The  
\$100,000,000 gold pool organized by the bankers  
has been dissolved because its existence was no  
longer necessary. Cotton has advanced so much  
that a similar fate will overtake the cotton pool  
which was formed to protect that great staple.  
In about a month security values have risen to the  
extent of many score millions. These are  
concrete instances out of many which have re-  
cently developed, all tending to show that taken  
as a whole trade and financial conditions in the  
United States have improved most decidedly.  
There is no boom, and world affairs certainly do  
not invite one, but there has been distinct im-  
provement.

Many weeks ago a revival of business over  
the country at large became manifest. In the South, it  
was somewhat belated, owing to the peculiar  
difficulties besetting cotton, but now there is no doubt  
that the South is moving swiftly forward to prosper-  
ous times.

Germany, however, hasn't quite reached the stage  
where it has to live on canned goods.

The labor viewpoint at the Rockefeller hearing  
is that charity should begin in Colorado, not in Bel-  
gium.

President Wilson invariably knows what he is  
talking about. Even his prosperity speeches come  
true.

## The San Francisco Chronicle.

The San Francisco Chronicle celebrates its fiftieth  
anniversary with a "Golden Jubilee and Exposition"  
number that is a credit to American journalism. In  
ninety-two pages of excellent reading matter and  
beautiful illustrations, it tells the story of California  
and the Pacific coast, with particular reference to  
San Francisco and to the Chronicle itself.

The Chronicle was founded on January the six-  
teenth, 1865, by the brothers Charles and M. H. de  
Young, and was known at that time as "The Dramatic  
Chronicle." A few years later the paper was dropped,  
and the paper broadened from a province of special  
and comparatively narrow interest to a spacious  
realm of news and business service. Its development  
thereafter was swift and steady. It became a  
prime factor in the upbuilding of its own community  
and the outlying region. Based on sound principles  
and devoted to public welfare, it earned the people's  
confidence and support.

The death of Mr. Charles de Young thirty-five  
years ago left Mr. M. H. de Young the Chronicle's  
sole continuous owner and manager; and he is one  
of the few, if not the only American newspaper man  
who has owned and directed the same paper for so  
long a period as half a century, and is still engaged  
in its active management.

The present edition is a tribute to the Chronicle,  
to California and to the great exposition to which it  
is dedicated.

Friendly as we are supposed to be with England,  
nearly all our disputes are with her, probably on the  
idea of family rows.

We'll, we had a fine day Friday. Saturday  
started off favorably, but the complete forecast for  
Saturday will not be ready until Sunday. Then for  
the grand forecast of the next week.

Mr. Hobson still thinks that we ought to have a  
big navy and be prepared for Japan, Germany and  
England. But at the end of the present war these  
nations will very likely be well prepared for peace.

## The Need of Local Markets For Georgia Food Products.

In his interesting article on markets for Georgia  
food crops, Mr. R. F. Duckworth, a keen student and  
an experienced leader of agricultural affairs, stresses  
the need for organized facilities to handle home-  
grown products in each town and county of the  
State. There must be, as he points out, well estab-  
lished means whereby the farmer can convert food  
commodities into cash, just as heretofore he has  
been able to convert cotton into cash; for, "the  
farmer as a body will not grow crops, for which  
they have to hunt a market."

This can be accomplished, Mr. Duckworth sug-  
gests, if in each community a reliable merchant or  
warehouse concern will enter upon the business of  
receiving, classifying and grading whatever food  
crops the farmers in the adjacent country produce.  
Once assured of such an outlet for their surplus  
food products, the farmers would have no hesitancy  
in abandoning the one-crop system and in devoting  
a liberal acreage to grain, vegetables and live stock.

The local merchant or warehouse would supply  
the consumers in its immediate territory, so that the  
people of every district would be upbuilding their  
common interests and resources. Hundreds of thou-  
sands of dollars that now go to distant parts of the  
country would be kept at home, to the profit of  
every town and county that availed itself of this  
helpful plan. Before this can be possible, however,  
there must be dependable means by which the farmer  
can sell and the consumer can buy home-grown food-  
stuffs; and such means must be established through  
the local enterprise of each community.

Mr. Duckworth suggests further, as a reinforce-  
ment to local merchants and warehouses, that food-  
market facilities be organized in the large cities of  
the State, so that when the local dealer has a sur-  
plus of products, after supplying his own district,  
he could dispose of them at these broad centers of  
demand. Thus the machinery for marketing Georgi-  
an-raised foodstuffs would be complete, and the in-  
centive to the production of foodstuffs would be ir-  
resistible. Every county would have all its own ag-  
encies of demand and of supply, and all these would  
be supported by the great centers.

The lack of market facilities has been largely, if  
not chiefly responsible for Georgia's failure to pro-  
duce enough foodstuffs to supply its needs. We are  
amazed when told that the people of this State spend  
one hundred and fifty million dollars a year in buy-  
ing from distant regions such staples as corn, oats,  
hay, meat and other necessities which could be  
raised easily and cheaply on their own soil. But  
when one reflects that there have been no established  
or dependable means by which the Georgia farmer  
could sell such products, this record is not surprising.

The average farmer must limit himself to farm-  
ing. He cannot be a producer and a distributor, a  
merchant, broker and salesman all in one. Naturally,  
he turns to the crop for which there is the  
surest and easiest market. That accounts very  
largely for his addiction to cotton. Georgia farmers  
heretofore have specialized upon cotton, not because  
it was inherently more profitable than food crops,  
but because the facilities for marketing cotton were  
ready and abundant. As the Journal has said pre-  
viously, the farmer could bring a load of the raw  
staple to town, place it in a warehouse and with his  
warehouse receipt get money or credit without more  
ado. But in the case of food crops, such facilities  
were lacking utterly. The majority of farmers had  
neither time, means nor inclination to hawk a load  
of peas, potatoes, or grain from place to place. True,  
these circumstances do not excuse the failure to  
raise enough food supplies to meet the farm family's  
need; and regardless of markets, the farmer who  
plants a large cotton acreage this year will do so at  
grave peril.

If Georgia is to become self-sustaining, however,  
if its resources are duly to be developed and its busi-  
ness to thrive as it should, more foodstuffs must be  
raised within its borders. And the one assurance to  
that end is the establishment of markets for food  
crops, markets for each town and county, and for the  
State as a whole.

For our part, we aren't going to kick because the  
cold wave didn't choose to visit us.

One army makes an advance only to be repulsed  
—at least, that is what they say.

## Editorial Echoes

We are prone to think of wireless telegraph  
as more wonderful than the telephone, but even for  
this there is little excuse, and the aggregate utility  
of the telephone is enormously greater. Besides, the  
wireless telegraph, from present indications, is likely  
soon to become the wireless telephone, while the  
uncharacterized telegraph already seems almost an  
outdated relic. Great-toothed telegraph, for the present,  
will not be cheap—will have little more than what  
may be called an emergency use, when price can al-  
most be ignored. But then it will be well worth the  
\$27.50 that will be charged for three minutes of con-  
versation, and the \$6.75 for each additional minute.—  
The Times.

To talk by telephone from New York to San  
Francisco only a few years ago would have been re-  
garded as the wild dream of an impractical visionary.  
Now that the continent has been bridged by a wire,  
and persons at its two extremes can carry on an ordi-  
nary conversation as if only a few blocks apart, the  
world is in no way startled out of its normal self-  
composure. The conquest of space by the multiplica-  
tion and perfection of the means of direct personal  
communication over 3,400 miles has proceeded so  
steadily as no longer to excite wonder at the latest  
achievement.

If over a copper thread, traversing mountain  
chains and plains, New York can talk to San Fran-  
cisco as if face to face, how long before New York  
will be talking by submarine cable with London,  
Paris and Berlin?—The World.

## Shakespeare Says--

Poor naked wretches, whosoever you are,  
That bide the pelting of this pitiless storm,  
How shall your houseless heads and unfed  
sides,  
Your looped and window'd raggedness defend  
From soious such as these? O I have tane  
Too little care of this: Take physic, Pompe,  
Expose thyself to feel what wretches feel,  
That thou may'st shake the superfluous to them  
And show the Heaven more just.—  
—King Lear.

## The Journal's Letter Box

The Journal welcomes most offerings on  
subjects of local interest, but long epistles or  
waxen to the flesh. In no circumstances  
will anonymous communications be pub-  
lished.

The article from the pen of Bishop Cardozo ap-  
pearing in your issue of January 15, in which he speaks  
of the great advantages which will come to Atlanta as  
a result of having this city become an educational  
center, while still attending to the various com-  
mercial and social duties, is most timely, and  
will, I trust, make a profound impression upon  
Atlanta business men. Bishop Cardozo has been  
a great deal of time in Latin America and can speak  
of conditions in the countries of Central and South  
America with authority. He has seemed to believe  
he could bring one hundred students from Cuba and  
Mexico alone, it is at once apparent what a paramount  
position this would give Atlanta in getting a firm foot-  
hold trade with the Latin American countries.  
—LAUREN FOREMAN.

Atlanta, Ga., Jan. 28, 1915.

Editor The Journal:  
The agitation now in city council to allow the sale  
of fruit on Sundays should result in our big city open-  
ing up to a greater extent, and allowing quick, reputable  
business to operate on Sunday. It has seemed ridiculous  
to many of us for years that in Atlanta on Sunday  
a person could buy soft drinks of all kinds, ice cream  
and anything sold by a drug dealer, yet could not buy  
an apple or any fruit. We have been provincial too  
long.

The attendance of over 15,000 people at our city  
auditorium last Sunday, from only 1 o'clock in the  
afternoon to 8, seems to me an indication that our  
citizens are ready to accept of the various amuse-  
ments on Sunday afternoons. Why can't Atlanta have  
movies each Sunday afternoon? This would not con-  
flict with Sunday schools or church services, and as it  
now our people have nowhere to go Sunday afternoons  
except to loaf around downtown street corners, and  
the young men would be out of the way of their  
reverend friends, Dr. F. H. Orms, wrote a poem  
shortly before his death, which seems to fit the occasion.

IT IS SUNDAY AFTERNOON.  
It is Sunday—SUNDAY AFTERNOON.  
We are not forlorn to play;  
"Do not labor" is the order  
For this blessed holiday.

Frolic, games, light recreation—  
Anything that is joyous and sane—  
Anything that is not labor—  
That is the order.  
Give the weary worker rest.

How mistaken is the notion  
That this a penance day,  
To be spent with tasks and toilsome  
Rather than with sport and play.  
Let the day be balied with gladness;  
Let the heart be at ease;  
Banish all restraint and sadness—  
All will welcome that the day.  
—WILLIAM F. SHARKEY.

## Local Markets Needed

BY R. F. DUCKWORTH.  
The discussion of the marketing of farm products  
raised in Georgia has been very interesting indeed.  
Many good suggestions have been given, but so many  
are beyond the training of farmers and business men.  
I have tried to tell the farmers about marketing their  
crops for ten years and I know their ability along this  
line in every county in Georgia as well as in other  
States. The farmer as a body will not grow crops for  
which they have no ready market, and merely say,  
"We will help him find a market" will not meet  
the present needs.

A local market for everything the farmer may  
grow is needed in every county or town. Here  
we find difficulties to overcome because of the fact that  
our local merchants know how to sell food products  
to the farmer, but do not know how to buy from him.  
If you think I am wrong, just get some farmer to  
sell four or five merchants in any cotton county  
and you will see the trouble. The farmer has one hundred  
bushels of corn, and then watch them hesitate, "bump  
and haw." But ask these same merchants if they can sell  
the farmer one hundred bushels of corn and watch the  
apprise of their eyes. Why this difference? In the  
merchant to buy. Hardly, our commercial system  
is wrong, our game of commerce should be changed the  
other way.

Some reliable merchant of warehouse company in  
every county and town should be interested to buy,  
classify and grade anything the farmer in his county  
will grow of food crops and advertise this fact, write  
circulars, posters, or use any means within his power  
before all the farmers of his section. In order to in-  
terest properly the local dealer, it will be necessary  
for some one in the central markets of the State to  
agree to take any farm products the local merchant  
has after he has supplied his local demand, the central  
merchant in turn can ship his surplus to some other  
market in or out of the State.

The consuming public pays no small part for it  
they order Maryland omelets, New York omelets, Ohio  
turnips, Virginia hams, Chicago breakfast bacon, Ten-  
nessee country butter, it will be hard to get the mar-  
ket for the products of the State. The farmer who grows  
Georgia-grown products, and be patient in that demand  
it will be long before the effects of a greater pro-  
duction will be felt by the consumer.

We face one difficulty, one that is manifest in every  
community, and makes its impression on farmer and  
merchant. The farmer who grows a surplus of food  
will have an overproduction. The merchant who  
community becomes alarmed and proceeds to plant  
cotton. The farmer who grows a surplus of food  
it will be impossible to get Georgia to growing enough  
food for man and beast in the next five years.

In the last five years the imports to Georgia in  
the way of food supplies has been reduced 50 per  
cent, and I think this splendid, but if a similar  
plan to that outlined above can be put in operation  
we can save to the people of the State another 10 or  
possibly 75 per cent in the next five years. It will be  
practically impossible for the central market, among millions  
of dollars out of Georgia next year, and the food that  
can be cheaply and profitably grown here.

Some will grow a surplus of food means for pro-  
fitable marketing this surplus is indispensable to the  
farmer who buys and the town and city consumer  
should be supplied as much as possible with Georgia-  
grown products.

## Quips and Quiddities

Old Lady (irritably)—Here, boy, I've been waiting  
some time to be waited on.  
Druggist—Yes, ma'am. What can I do for you?  
Old Lady—I want a shoe.  
Druggist—Boy—Yes, ma'am. Will you have it laced  
or unlaced?

## THE DANBURY HATTERS' CASE

The Danbury Hatters' case, recently decided by the  
supreme court of the United States, is many  
respects the most celebrated lawsuit in American  
history. It lasted more than eleven years, and the  
fact that it drew courts through the courts is to  
be found in no less than ten volumes of reports—the  
most voluminous case on record.

On the docket the case appeared as that of Loeb  
& Co. vs. Lawlor et al., but it was popularly known  
as the Danbury Hatters' case, when it was an action  
brought by that manufacturing company against a  
union for damages caused by a boycott, which was held  
to be an act in restraint of trade as forbidden by the  
Sherman anti-trust law.

Briefly stated, the supreme court has decided after  
eleven years of litigation, that labor unions have no  
legal right to restrain interstate commerce by means  
of circulating an "unfair list," by boycotting goods,  
threatening purchasers thereof with loss of union trade,  
and using other means to force the closed union  
shop upon a manufacturer of hats in Danbury, Conn.,  
and has held the individual members of the union  
liable for damages resulting from such acts of their  
officers done by authority of the rules of the union.

In 1901, D. E. Doewe and Martin Puchs were partners  
engaged in trading hats in Danbury, Conn. They had  
210 employees. With an output of about \$400,000 annu-  
ally, their trade extended through twenty states, includ-  
ing nearly half the business of the United States. They  
employed both union and non-union workmen.

The United Hatters of America was the name of  
the hatters' union. In 1901 it had 9,000 members, and  
was one of the 110 branches of the American Federation  
of Labor, which had a membership of 1,400,000.

In March, 1901, the States' union made a demand  
on the firm of Loeb & Co. to withdraw its name from  
the list of hatters. A list of names was called, and a boycott  
declared, and Martin Lawlor, and four other men ap-  
pointed by a committee to enforce the demand of the  
hatters' union by all means in their power.

In September, 1901, Loeb & Co. filed suit in the  
United States circuit court in Connecticut, against Martin  
Lawlor, and several hundred other defendants, mem-  
bers of the union, alleging that they had conspired to  
restrain interstate commerce by unlawfully interfering  
with and preventing sales of Loeb & Co. to customers  
of the States' union, and that their trade extended, in violation  
of the provisions of the Sherman act, to the States of  
Massachusetts, New York, Pennsylvania, and the bank accounts,  
damages of \$100,000 were asked, and the bank accounts,  
property of the individual defendants who  
lived in Connecticut were attached.

The unions made three defenses. One was that they  
were engaged in interstate commerce themselves, and  
never did could not violate the anti-trust act. The  
next defense was that boycotting was not a violation  
of the Sherman act, and that the union was not a  
trust, and that the union was not a combination, and  
did not directly do the acts complained of by Loeb &  
Co., being merely members of the union, these de-  
fenses should not be held liable, and the union  
agents were responsible.

The case has been five times before the circuit court  
in Connecticut, four times before the circuit court of  
Massachusetts, and once before the circuit court of  
New York.

## STATESMEN-REAL AND NEAR

WASHINGTON, Jan. 16.—A call came from the  
Congressional library for a pair of books. The attend-  
ant who was sent to the shelves after the books,  
remarked:  
"I am the first time either of those have been out for  
a year. I'll bet I can guess who they're for. Only one  
man would be wanting such little known books. That  
man is Mr. Sherman. He is always looking for new  
books to read. He is always looking for new books to  
read. He is always looking for new books to read. He  
is always looking for new books to read. He is always  
looking for new books to read. He is always looking for  
new books to read. He is always looking for new books  
to read. He is always looking for new books to read.  
He is always looking for new books to read. He is

 \$2.50; C. \$6.00; S. \$4.25; W. \$5.00; windows,  
 glass, \$5.70; water white, \$5.80.

## RESERVE DISCOUNTS AND LOANS INCREASED

An increase of nearly \$500,000—\$430,313.42,  
 to be start—in loans and discounts over the  
 previous week, is shown in this week's report  
 of the federal reserve bank. This shows that  
 member banks are steadily increasing their dis-
