## KAISER DETERMINED TO CAPTURE WARSAW AND CRUSH RUSSIANS

Germans Want to Put Muscovites in Such a Position That Resumption of Offensive Will Be Impossible

### AFTER THAT, ANOTHER STRIKE IN THE WEST

Austria Capture Town and 6,000 Russians -- Germans Make 64,000 Prisoners in East Prussia

(By Associated Press)

LONDON, Feb. 18.—Notwithstanding its intense interest in the important operations now in progress, involving shipping interests, England has not been of the military operations in progress on both fronts. The fighting in East Prussia, where the two extremes, which the Russians have been easily encircled by Austrian forces, is considered the most important present activity either in east or west. Peterhoff, where the Russians carried out their retreat, is far from Prussia in perfect order.

An important battle is raging in the vicinity of Augustow, where last fall the Russians stopped a similar German attempt to invade Russia. Now, however, the Germans have been forced into a serious situation. Besides having sent a new army into East Prussia the Germans are in strong force in the district between Warsaw and Prussia, the Vistula, where their continued advance would jeopardize the Russians holding the line of the Vistula and those defending Warsaw.

The German planes are not quite clear, but the Germans are evidently on the offensive on Warsaw and hope by taking that city to break the Russian power to resume the offensive. The Germans are Germany free to take more energetic steps against the allies in the west.

At Warsaw, the Germans have also during the past two days made a vigorous attack in Flanders and western France, and the British and French and German reports are in direct conflict.

A final statement says the Russians taken prisoner by the Germans in East Prussia now number 64,000.

The Russians claim the capture of a town and 2,600 Russian prisoners in another town, 6,000 more prisoners in the Carpathians.

In Subotivka, the Russians are reported to have captured 1,000 German prisoners before Czernowitz, but the battle continues reinforcements are reaching the front. The Germans have also taken 100 damaged railways both to this point and to Nadvorna, further west, which the Austrians are attacking.

The latest report continues, "The Russians must have lost heavily in their retreat from East Prussia."

In the Vistula, the Germans say the Germans are being put forth both for their strength to capture ground lost last week.

**Austrians Take Town and 6,000 Russian Prisoners**

(By Associated Press)

VIENNA, Feb. 18.—(London)—Official reports give out here today say that after two days of hard fighting the Austrians have captured Komotau in Bohemia in Galicia.

This was a second yesterday afternoon, after a general assault.

"We drove the enemy in, and took the last positions in front of Komotau, thus reaching the town at one operation. We crossed the bridge over the river Pruth, the town, clear of retreating Russians, was occupied by us. We captured 2,000 prisoners and several machine guns and light cannon."

The fighting continues, far to the west, Viseck, the fighting continues with great ferocity. Four thousand additional prisoners have been brought in.

Lee County Coroner Orders Roy Black, Roy Jones and J. C. Webb, of Sumter County, Placed Under Arrest

### CLAIM THREE WERE SEEN NEAR PLACE OF SHOOTING

Suspects Said to Have Been Near Leesburg in Automobile Wednesday Night-Finding of Shotgun Adds Clew

(Special Dispatch to The Journal.)

LEESBURG, Ga., Feb. 18.—Following an inquest held closed doors, Coroner T. L. Ford of Lee county, this afternoon issued warrante against Justice A. W. Goodwin, charging Roy Black and Roy Jones of Americus, and J. C. Webb, of New Americus, with the murder here of night, D. W. Foster.

Oliver, known as "the King of Clinch," and fanned throughout the south through his spectacular financial operations, was shot and killed just as he left the Farmers' Bank and Loan company, of which he was president.

He was a bachelor, sheriff, and P. T. Powell, deputy sheriff, have left Leesburg to arrest the accused men. Three separate warrants, each charging murder, were issued.

Witnesses testified at the inquest that Black, Jones and Webb were seen in an automobile near here last night. All three were employed by Oliver when he conducted a bank at Sumterville, now held by him.

Witnesses testified at the inquest that Black, Jones and Webb were seen in an automobile near here last night. All three were employed by Oliver when he conducted a bank at Sumterville, now held by him.

Bloodhounds followed a trail from the scene of the shooting to a point about a mile from Leesburg, where it is believed that Oliver had hidden an automobile. A shotgun was found in the bushes near the trail. Authorities have been unable to assign any motive for the murder.

Black, Jones and Webb will be brought to jail here.

Oliver is said to have left a life insurance policy for \$25,000 on his life.

Witnesses said that Foster had hidden an automobile. A shotgun was found in the bushes near the trail. Authorities have been unable to assign any motive for the murder.

Oliver was widely known throughout the south by reason of his fantastic financial schemes, stretching over many years, which, stretching over many years, he reached the height in Georgia in 1908 when he arrived at Clinch in December.

Oliver, who was a man of great wealth, was a man of great wealth, and his players escaped in an automobile. Old checks for more than \$100,000 were found in his safe.

One on the Pennsylvania Railroad company, which was eleven years old, called "The Bank of the South," was on the Columbia County Bank of Dalton, Georgia.

## FOUR PRISON GUARDS PUT BACK ON ELIGIBLE LIST

Action Was Taken Through Efforts of Senator Hoke Smith

BY RALPH SMITH.

WASHINGTON, Feb. 18.—Senator Hoke Smith was informed by the attorney general that he had restored to the eligible list of the naval service, Guards, Revenue, Dunn, and McCook, the Atlanta, Cedar, and postmaster, who were dismissed from the service in December, 1912. He has declined to restore Guards Baugh and Grimes.

Rep. W. H. Moyer is slated for removal as warden of the Atlanta penitentiary no longer denied at the department of justice, and it may be stated that the attorney general is in doubt only as to whether he should name Dr. Edward J. Little of Philadelphia, Dr. Edward J. Fogarty, warden of the Indiana penitentiary for the position.

Prison Superintendent, today is undoubtedly more popular, exceptionally well impressed with Dr. Little at the conference yesterday, and Attorney General Grimes, in his own account to further satisfy himself as to the fitness of the Philadelphia man.

Except for the fact that the attorney general directed a similar inquiry as to the fitness of Fogarty, and the service, as estimated by Dr. Little, has no interest himself in Dr. Little would indicate his probable appointment. As it is, the result of the conference was reached in decision as between the two men.

How to Have the Best Cough Remedy and Save \$2 by Making It at Home

Cough medicines, as a rule contain a large quantity of plain syrup. A pint of syrup costs 25 cents, and a pint of water, stirred for 2 minutes, gives you as good a syrup as money can buy.

The following is a simple cough syrup (20 cents worth), pour into a pint bottle and fill the bottle with sugar syrup. This will give you a syrup of 64 cents, a full pint of really better cough syrup than you could buy ready made for 25 cents. This is a good syrup to follow directions with Finex. It keeps perfectly and takes well.

Take half of the usual cough medicine, as a rule a pint of water, stir cold at once and conquer it in 24 hours. Splendid for a cough, though not winter.

It's truly astonishing how quickly it lessens the dry, hoarse or tight cough and the sharp, stinging, burning sensations in the case of a painful cough. It also stops the formation of phlegm in the lungs, and so quickly that ends the persistent loose cough.

Finex is a highly concentrated compound of camphor, menthol, oil of camphor, combined with guaiacol, and has been used for generations to heal inflamed mucous membranes.

To avoid disappointment, ask your druggist for "2% ointment of Finex" and don't be satisfied with anything less of absolute satisfaction, or money promptly refunded, goes with this preparation.

Miss Rosa M. Keller's Struggle to Keep Up—How Vinod Helped to Ward Off Nervous Breakdown.

Alberta—“I am a public school teacher and I go into a very nervous condition, I can't sleep and had no appetite. I was tired all the time. I told my husband Vinod how Vinod had built up his nephew and asked me to try it. I did so, and within a week after taking it I was much improved and could sleep all night and now I feel well and strong.

With the help of one medicine and even the doctors it is a good tonic.”—ROSA M. KELLER, Alberta, Pa.

The reason Vinod restored health in a nervous condition was because his tonic, aided digestion, strengthened her nerves, and as a result brought the rest she needed.

If there is anyone in this vicinity, run-down, weak, nervous, worn out who would like to be restored to health, our delicious cod liver and iron tonic on our guarantee to build you up and help you sleep well and sleep better or return your money. ## SUBMARINE WAR ON BRITISH ISLES WILL NOT BE CALLED OFF

(Continued from Page 1.)

Transatlantic line was to disappear from London today. She probably will have no more than a dozen first-class cabin passengers, and a little freight.

The White Star liner Zealand will sail on Saturday from Liverpool for Halifax and Port Royal. She has a special class of steerage passengers and freight. The French liner Chicago, escorted by destroyers, will depart from Havre on Saturday for this port. The American liner New York will leave Liverpool on Saturday with a large number of passengers, some of whom gave up their berths engaged on other liners that day.

The commission for relief in Belgium today gave out a list of forty-sea men who had been taken by German submarines and Rotterdam, through the war zone, controlled by Germany. A number of American sailors were among the crew of the British liner, as well as the full saluted government.

**Blockade Stops Passenger Ships, England to Holland**

(By Associated Press)

LONDON, Feb. 18.—1:40 p.m.—The immediate effect of the German submarine blockade of the British Isles, began yesterday, was to stop all transatlantic liner traffic from England to Holland. The Scandinavian lines, however, have not been affected.

Both the Zealand and Batavier lines have canceled all passenger service to Holland, and the British lines have stopped their freight and mail traffic to Holland.

Edgar's reply concerning American complaints of cargo delays was much disconcerting to the British. Germany, however, has for sometime been attempting to sink all British ships in the war zone about the British Isles, effective today, was uppermost in the mind of the British.

The German proclamation of a naval war zone about the British Isles, effective

today, was uppermost in the mind of the British.

The important shipping companies have announced that there will be no change in their regular sailings, and British, French and Belgian owned cross-channel lines will continue to sail.

The British lines have been advised to stop all transatlantic liner traffic, and there has been some talk of mail being carried by Dutch destroyers.

The Dutch company, which maintains a mail service between Hamburg and Rotterdam, has been advised to stop all transatlantic liner traffic, and there has been some talk of mail being carried by Dutch destroyers.

For all other departments, ask for Journal's ex-  
change—Main 2600.Celebrate Washington's birthday, but bury the  
treasure.No food in Germany. Even the free lunch counter  
has been abolished.The south may not make two blades of wheat  
now where only one grew before, but she will come  
pretty close to it.Here's hoping that the Divine Sarah will not  
have to be operated on and that she will make  
only another farewell appearance.A Billion Dollar Rise  
In the Value of Grain.The following table of figures recently issued by  
the federal Department of Agriculture shows the ad-  
vance in the price of America's grain crops:

	Feb.	Feb.	Crop, 1914.
	1915.	Bushels.	
Wheat.....	\$1.29	\$0.81	\$0.917,000
Corn.....	725	687	2,672,804,000
Oats.....	501	393	1,141,000,000
Barley.....	829	524	194,553,000
Rye.....	1,666	547	42,759,000

Since these reckonings were made, there have been  
further advances, so that the gains today are con-  
siderably more than those indicated. On a basis  
of the Department's figures, however, it is evident  
that the wheat crop of 1914 is worth \$1,149,111,930;the corn crop, \$1,945,810,312; oats, \$571,611,060; bar-  
ley, \$122,373,557; and rye, \$43,655,794—a total of\$1,821,031,933. The aggregate value of these crops  
in 1912 was \$2,300,358,541. The increase in value,  
due partly to the size of the crop, as in the case  
of wheat, but mainly to a rise in prices, amounts to  
\$591,825,592.This means that the farmers who raised grain  
are, potentially, almost a million dollars better off  
in February 1915 than they were a twelvemonth  
ago, and, as prices for foodstuffs continue upward  
with no prospect of any appreciable decline, it means  
that the farmers who raise grain and other food  
staples this year will be still more fortunate. The  
1914 wheat harvest, approximating nine hundred  
million bushels, was the greatest in the country's record.There were gloom predictions that so abundant  
a supply might depress the market, but just the  
contrary proved true. The enormous foreign demand  
abards a profitable outlet for whatever surplus over  
home needs there may be. So with food com-  
modities in general. There is no likelihood of over-  
production; there is every likelihood of a sustained  
or increasing demand, and of bringing rewards for  
the farmers who produce such crops.This means that the farmers who raised grain  
are, potentially, almost a million dollars better off  
in February 1915 than they were a twelvemonth  
ago, and, as prices for foodstuffs continue upward  
with no prospect of any appreciable decline, it means  
that the farmers who raise grain and other food  
staples this year will be still more fortunate. The  
1914 wheat harvest, approximating nine hundred  
million bushels, was the greatest in the country's record.The Atlanta Industrial Bureau, is in receipt of  
information to this effect from the trade com-  
missioner of New South Wales. That official will be  
glad to receive letters from persons or firms who are  
interested in this matter, and promises detailed re-  
plies to all inquiries. His American office is at San  
Francisco, 419 Market street. Mr. Harvey Johnson,  
head of the Atlanta Industrial Bureau, will observe  
in this regard that Georgia manufacturers should  
be able to sell to Australia "by means of ships leaving  
Savannah or other Southern ports, and sailing  
through the Panama canal." Georgia produces many  
of the commodities which Australia heretofore has  
imported from Germany and Austria and which now  
must be procured from the United States. The op-  
portunity is well worth the attention of our man-  
ufacturers.The German war science didn't make allowance  
for the food situation.Today's happy thought: Many a Russian would  
be a true man now and enjoying vodka with his fam-  
ily but for Germany.Wheat Equals Cotton  
At Seventeen Cents.Traders have figured that at the relative  
prices now prevailing, wheat equals cotton at fifteen  
cents, and oats equal cotton at eighteen cents. A blind man can see that the prices are a bounty  
on grain crops, and an embargo on the next crop.This observation by the New York Times is borne  
out by agricultural reports in every part of the  
South. Georgia planted one hundred and seventy  
thousand more acres of wheat and three hundred  
and twenty-eight thousand more acres of oats last  
autumn than in the same season of 1913, an increase  
of one hundred and eighteen per cent in wheat and  
sixty-six per cent in oats. The cotton-growing  
states combined planted more than seven million  
acres of cotton last autumn, a gain nearly two  
million acres over the preceding year, and increased  
their acreage of oats one hundred and two per cent.Watchful farmers need no urging to realize the  
advantage in producing foodstuffs or the peril in  
raising another big crop of cotton, and indifferent  
farmers, who may be disposed to endanger their  
own and the community's interests, will find the  
sources of reasonable credit shut against them. All  
the foresight and energy at the South's command is  
directed to the supremely important end of curtailing  
the acreage of cotton and increasing the output  
of food products. In that fact, lies the surest pledge  
of Southern prosperity.People will continue to worry about this war until  
the baseball news begins to divert their minds.

Expelling the population from Germany to reduce  
the consumption of food is another method, devised

in a paternal government, to beat the high cost of

living.

At its next meeting the Lancaster Literary So-  
ciety will debate this subject: "Which policeman is

entitled to the most sympathy, the one in a mining

camp or the one in a university town?"—Athlon

Steamships From Georgia  
To Latin-American Ports.The Georgia Manufacturers Association, recently  
organized in behalf of the State's industrial inter-  
ests, is considering the fertile suggestion that it

establish steamship lines between Savannah and

Latin-American ports, as a means of developing its

opportunities in those great regions of trade. The  
idea should commend itself to everyone of businessforesight and breadth. The annual imports of Cen-  
tral and South America amount to a billion dollars.

Most of this business heretofore has gone to Europe,

mainly because Great Britain and Germany had

superior facilities for securing it and handling it;

but now that the paths between Latin

America and Europe are closed and the instru-  
ments of credit and finance are broken, this rich

volume of trade can be diverted to the United States;

and by due efforts, much of it can be turned to

Georgia.

A prime necessity in the upbuilding of foreign  
commerce is adequate and dependable means of

transportation. If Georgia manufacturers wish to

sell their products in Latin-American markets, they

must have ships of their own, ships that will be

operated to suit their needs and to serve their pecu-  
liar interests. They can ill afford to trust to luckychance or to be dependent, as most American com-  
merce has been, upon the vessels of competitors.

There is enough enterprise and enough available

capital among the manufacturers of this State to

establish a steamship line between Georgia and

Latin-American ports. What New Orleans did years

ago, Atlanta, Macon, Savannah, Augusta, Columbus,

Rome and other Georgia cities can do today through

their co-operative strength. The Manufacturers' As-  
sociation is an excellent medium through which to

inaugurate and press forward this interesting plan.

It is fortunate that the industrial leaders of the

State have organized to promote their own and the

commonwealth's good, and it is to be hoped that

they will seize this opportunity for service which

faces them at the outset of their endeavor.

\* \* \*

Another Opportunity.

Opportunities as well as misfortunes come not in

single file, but in battalions. The same conditions

that favor the United States in Latin-American mar-  
kets are to its distinct advantage in many otherrealms of trade, notably those of the Orient. Aus-  
tralia has been buying thirty million dollars worth

of goods a year from Germany and Austria. Now

that the war has put an end to this commerce, Aus-  
tralia looks to the United States for a large part of

these imports, and, indeed, is seeking connections

with the manufacturers of this country.

The Atlanta Industrial Bureau, is in receipt of

information to this effect from the trade com-  
missioner of New South Wales. That official will be

glad to receive letters from persons or firms who are

interested in this matter, and promises detailed re-  
plies to all inquiries. His American office is at San

Francisco, 419 Market street. Mr. Harvey Johnson,

head of the Atlanta Industrial Bureau, will observe

in this regard that Georgia manufacturers should

be able to sell to Australia "by means of ships leaving

Savannah or other Southern ports, and sailing

through the Panama canal." Georgia produces many

of the commodities which Australia heretofore has

imported from Germany and Austria and which now

must be procured from the United States. The op-  
portunity is well worth the attention of our man-  
ufacturers.

Yours very truly,

A Good Dog Story.

Many good stories, humorous and serious, have been

written about dogs. Brett Hart's "Hooper"; Richard

Harding Davis' "The Bar Slider"; Ouida's "A Dog of

Flame"; and among others, the average reader of fic-  
tion will easily recognize some who like dogs as well as those who do not. There is often a desire to

know exactly what a dog's thoughts are, and this desire

is easily satisfied by a dog's thoughts, if he is

economically used will find the secret. Let them per-  
sonally know the needs of each case and companion the

one who is being helped.

The dog's thoughts are given in this article.

The Good Dog Story.

The expense of administration is limited at present

to a salary list of \$76 per month. This figure will

be increased to \$100 per month in April, and to \$125

per month in October. The expenses of the dog

will be met by the members of the club.
