## ALLIES APPEAR TO HOLD ADVANTAGE IN TWO GREAT BATTLES

(Continued From Page 1.)

In the Carpathians for deliberate politi-  
cal ends, of which is to sever Hun-  
gary from the dual monarchy. Some  
confirmation is given this theory by the  
report, also in Italy over the possi-  
bility of Austria-Hungary concluding a  
separate peace with Russia.

Dispatches by way of Athens say  
the allied fleet forcing the Dardanelles  
is not far from Bulgar on the Balkan  
peninsula, but this is without official  
confirmation.

**Germans Claim Repulse to  
French; Belgians Defeated**

(By Associated Press.)  
BERLIN, April 9.—(By Wire)—The  
official statement given out today  
says:

"In the west: The Belgians again have  
been driven out of the demolished ham-  
let of Drel Grachten, on the Yser canal.  
Two Belgian officers and 100 men and  
two machine guns were captured.

"In retaliation for the bombardment  
of villages situated behind our posi-  
tions, the city of Rheims, in which  
large assemblages of troops and battle-  
worn soldiers had been sent, was bom-  
barded with incendiary shells.

"North of the village of Beaumont,  
northwest of Les Menil, we took from  
the French last night several trenches  
and machine guns. Two attempts to  
recapture the position during the night  
were repulsed.

"A French infantry attack in the  
Argonne forest during which the French  
again employed asphyxiating bombs,  
failed.

"The battles between the Meuse and  
the Moselle rivers continue with in-  
creased fierceness. The French suffered  
the heaviest losses but again were com-  
pletely unsuccessful in their attacks.

"In the domain of the Weyre they  
were again completely unsuccessful. During  
the morning and evening they continually  
brought up new forces for the occupa-  
tion of the Meuse hills near Comber.

"An attack from the forest of Selous,  
north of St. Mihiel, broke down before  
our entanglements.

"To the forest of Ally we are pro-  
gressing slowly.

"In French advance west of Apremont  
failed.

"French attacks west of Flixer died out  
under our fire, but north and northeast  
of this place they led to bitter hand-  
to-hand fighting in which the French  
gained the upper hand and drove the  
enemy back.

"Night advances by the French in  
this district were unsuccessful.

"The Bois la Pierre the French also  
failed to gain any ground.

"An attempt of the enemy to capture  
the village of Beaumont la Grande, south-  
west of Chateau Salins, which we have  
occupied since the 25th, failed.

"Artillery duels have taken place on  
Hartmanns-Weltchen.

"In the east: Engagements have de-  
veloped east of the Kalwara (north of  
Salz), in which we have been unde-  
fined. Otherwise nothing transpired."

**Here Is Berlin Report Which  
Was Not Censored in London**

(By Associated Press.)  
BERLIN, April 9.—(By Wire)—

The German army headquarters report  
issued under date of April 9 said:

"The Belgians again were defeated from  
Drel Grachten. The place was destruc-  
tively damaged. 100 men were made prisoner and two  
machine guns were taken.

"As a reply to the French bombard-  
ment of places behind the German front  
line, where strong forces and bat-  
teries had been assembled, was shelled  
with incendiary bombs.

"To the north of the wood of Beaumont,  
northwest of Les Menil, the Ger-  
mans took several French trenches and  
two machine guns.

"In the Argonne a French infantry  
charge in which the French threw  
bombs with asphyxiating effect failed.

"Fighting between the Meuse and the  
Moselle continued with increasing ve-  
hementness. The French had the heaviest  
losses while their charges were abso-  
lutely without success.

"On the forest of Ally, the French  
made an attempt to capture the village  
of Beaumont la Grande, which we have  
occupied since the 25th, but which had  
not yet been terminated.

"It will be noticed that the Berlin of-  
ficial of today is transmitted  
through London is considerably more  
extended than the foregoing rendering  
of the same report which came by wire-  
less from Berlin to Saville, N. Y., and  
also that the French dispatch con-  
tains a reference to dudum bullet which  
was not in the message from  
London.

**Invasion of Hungary Can't  
Be Checked, Petrograd Claims**

(By Associated Press.)  
PETROGRAD, April 9.—(By Wire)—

With Russian forces in possession of the  
main summits and slopes of the Beski  
mountains, army officers here say  
the Austrian operations in the Carpa-  
thians have collapsed. The Russian gen-  
eral staff now is considering the best  
approach into Hungary.

The operations about Mendeles, Ber-  
zels, Luptow and Uskok appear vir-  
tually to have ended with the Austrians.

**Effect of Great Kidney  
Remedy Is Soon Realized**

I feel it my duty to let you know what  
Swamp-Root did for me. I was bothered  
with my back some twenty years and  
at times it would hardly get out of bed,  
and your advertisement led me to try  
Swamp-Root. Used five bottles  
and I have been free since I used it.  
I took the last bottle of it. I am  
now convinced that Dr. Kilmer's  
Swamp-Root cured me and would re-  
commend it to others suffering as I did.  
My husband was troubled with kidney  
and bladder troubles and he took your  
Swamp-Root and it cured him. This was  
about five years ago.

You may publish this letter if you

(Adv.)

In defensive along the whole line and  
perceptibly weakened.

Many more have read advance into  
Hungary, but once that difficulty is  
overcome and the Russians reach the  
southern slopes, where wars of spring  
are appearing, the most serious obstacle  
to a further advance will be the artificial  
defenses which it is assumed have been  
erected.

The country between the Sava and the  
Danube is believed to provide the best  
opportunities for the German army.  
Germans already have transferred all  
available troops from other fronts to  
defend that region.

It is expected the German answer to  
the Russian advance will be a fore-  
movement in Poland, starting from  
Thorn or Cracow. But invasion of  
Hungary is regarded here as a fore-  
conclusion, unless the Germans are able  
to transfer a formidable force of first-  
line troops to stiffen the Austrian  
armies.

Under these conditions the possibility  
of a separate peace for Austria-Hungary  
is discussed widely in the Russian press  
and in diplomatic circles, particularly  
the reported attempt of Emperor Francis  
Joseph to enlist the influence of the  
pope in that direction.

From this it has been maintained  
here that the only terms Russia would  
consider would be unequal concessions  
of all Slavic domains.

Regarding a separate peace for Aus-  
tria-Hungary the Bourne Gazette re-  
ports:

"In the dual monarchy the roles have  
changed. At the outset the Hungarians  
were for war and for solidarity with  
Germany. Since the fall of Przemysl  
they have been talking loudly of a sepa-  
rate peace."

"The Austrian party, on the contrary,  
insists on the war being continued since,  
they realize Austria in any event will  
have to pay the price. Emperor Francis  
Joseph has appealed to the pope for  
his aid in securing peace. When this is dis-  
covered by the Austrian party, a demand  
will be made that a second note be sent  
to the pope.

"Austrian politicians showed Emperor  
Francis Joseph that the Hungarian de-  
sire for peace was brought about by  
Germany's failure to afford protection to  
Hungary." Seeing disaster approaching  
the agitators desire to secure safety by  
strengthening Hungary in the dual mon-  
archy.

"Among diplomats here it has be-  
come a conversation, good sources it is known that the Ser-  
bians are full accord with Russia. In  
English political circles the idea has  
been revived with some sympathy, but  
with the understanding that the de-  
mands of Russia and the Slav world  
must be fully satisfied.

"The Russian and the German fronts  
and Great Britain are united in this  
conception of peace possibilities."

**Greece In Same Boat With  
Italy Concerning Neutrality.**

ROME, April 9.—(By Wire)—

"King Constantine of Greece is quoted  
by the Tribune as declaring his belief  
that it will be impossible for the al-  
lies to force the Dardanelles without  
a combination of land and sea. His  
majesty is said to have declared that  
Greece is in the same boat as Italy  
and other nations which have made  
military preparations, but have not aban-  
doned their neutrality. While their po-  
sition is difficult, he believed their at-  
titude would be guided by the course of  
events.

King Constantine, according to the  
Tribune, asserted that Greece will  
remain neutral until the world returns home en-  
thusiastically to fight for the fatherland if  
necessary, but that the government  
must be prudent and bring about if  
possible a peaceful reconstruction of the  
country's finances, which suffered seri-  
ously as the result of the Italian war.

**Allies to Ask Bulgaria  
Just Where She Stands**

PARIS, April 9.—The allies are consid-  
ering the advisability of opening fresh  
negotiations with the Bulgarian govern-  
ment to learn definitely what position  
that country intends to take in the Eu-  
ropean crisis, says the Petit Parisien's  
Rome correspondent. He adds that these  
negotiations are being held by the pro-  
Russian elements in Bulgaria, who wish  
to act in co-operation with the Triple  
Entente.

**Italy Continues in Belief  
That Austria Seeks Peace**

ROME, April 9.—(By Wire)—

The questions whether an understanding  
between Italy and Austria still is possi-  
ble and whether a signed Austro-Ita-  
lian peace treaty is probable are dis-  
cussed from different points of view by  
the press of the capital. The papers  
agree that the two questions are closely  
connected. But, since the peace treaty  
mission of her allies obtains what she  
desires and comes to terms with Vienna.  
It is impossible to imagine that Austria  
would be willing to make territorial  
concessions to Italy.

It is regarded as probable by the  
newspapers that reports of peace ne-  
gotiations will come tangible agreement  
is reached. Austria, however, is con-  
tended, is becoming daily more grave be-  
cause of the Russian invasion and the  
threat of Italian intervention.

The idea Nationale says Austria has  
lost, and that the probabilities are  
that she will lose more, while the Ger-  
man front, while by making peace with  
Russia she would avoid a further Muscovite  
invasion and might prevent a Serbian  
advance as well as the intervention of  
Italy and Rumania.

Austria even may hope to obtain moral  
and material support by a victorious war  
against Italy alone.

BERLIN, April 9.—(By Wire)—A  
unique medical congress held at Brus-

Overseas dispatch. It has been the cus-  
tom of the surgeons of Germany

surgeons now are on military duty, the  
congress met this year at Brussels. Ex-

A telegram from Emperor William said

ical corps had saved the lives and health  
of many German and that the German  
army and people had full confidence in  
medical science.

# HERO McNEIL REFUSED MEDAL BY CARNEGIE

Dock Laborer Has Saved 29  
From Drowning—What  
Is a Hero?

BY KENNETH W. PATRICK.  
NEW YORK.—What is a hero?  
Do you think the answer is easy?  
Then ponder the story of Peter Mc-  
Neil, dock laborer and unselfish savior  
of other people's lives at great risk  
to his own.

Twenty-five times in the last sixteen  
years has Peter McNeil plunged, fully  
clad, into the swirling water of the Hud-  
son river and rescued struggling per-  
sons from drowning.  
And now the Carnegie hero fund com-  
mission has just refused McNeil a hero  
medal.

His acts, says the commission in a  
letter received by him the other day,  
are "merely commendable"—not heroic  
—and will not grant him any share in  
the Carnegie hero fund gold.

Do you think McNeil is a hero—or  
not evidently foolish?  
Do you agree with McNeil's wife, who  
wrote to a Journal correspondent:  
"He is a fool. Foolishness more like-  
ly to go and risk his precious life like  
him and seven little children of his own  
is to be taken care of here at home. Sure,  
we would be all do if Mr. McNeil  
plunged into the water every day, but  
his little jump into the river to drag  
people out that had been fool-  
enough to tumble in."

Do you agree with the treasury  
department of the federal government,  
and with the office of controller of the  
state of New York, each of which has  
recently awarded a silver medal to Mc-  
Neil for the acts which they believe  
heroic?

Is not McNeil a hero, anyway, and  
what is an heroic act?  
Here are two of the most spectacular  
rescues from the long list of McNeil's  
seasonal rescues. Were they great  
acts of heroism, or only recklessness?

Two carpenters were working on the  
steamship City of Lawrence, at a Hudson  
river dock. One had gone into the dock  
to repair the blades. McNeil was  
standing by the opening through which  
the carpenter had entered, when sud-  
denly the huge paddle wheel began to  
turn over. The engineer was testing his  
engine.

The carpenter was flung helplessly  
down among the blades and braces. In  
an instant he would have been crushed  
in death. McNeil leaped to after him,  
grasped the luckless man and clung  
with him to a blade. Around and around  
he whirled, gasping, battered, and  
dashed into the water, now lifted high  
in the air. When word finally reached  
the engineer and the wheel was stopped,  
he saw where McNeil and his  
unconscious burden were clinging to  
the lowest blade—seven feet under wa-  
ter.

McNeil still had the presence of mind  
to break the carpenter's death grip on  
the paddle, and to dive outward with  
one mighty effort, and swimming des-  
perately to clear the wheel and aver-  
aging paddle box and get his man to  
the surface. Here he sustained him for  
just at that moment McNeil came  
back and dove headlong after the hero.

He went clear under when he hit—  
for the stuff was like soft chocolate ice  
cream. In fact, as McNeil's own words,  
One could neither walk nor swim in it.

# OUTBURSTS OF EVERETT TRUE

By Condo

IF YOU FOLLOW  
DON'T KNOW WHAT A  
BATHING BEACH IS FOR,  
I'M GOING TO SHOW YOU.  
BELIEVE ME!

But the rescuer fought his way up to  
the surface again, and when he appeared  
he had the child in his arms! Then he  
gave a grim fight with the choking mud  
which slowly drew the two deeper and  
deeper into the ship's depths. Just  
in time a rope was thrown to McNeil  
and he was dragged to the dock. The  
child was dead. McNeil was hardly  
better off.

Last summer McNeil rescued three  
men from drowning in less than one  
month.

The first deed occurred one night when  
two sailors who could not swim fell  
into the gap between the excursion  
steamer Oriental and the dock and  
were dragged to the dock. The  
child was dead. McNeil was hardly  
better off.

"I don't know whether I'm a hero or  
not," said McNeil to the Journal cor-  
respondent. "But I do know that I  
could never hear a drowning man yell  
for help—and God knows I've heard it  
often—without my heart give a great  
jump of pity, and nothing on earth  
could keep me from going right to after  
him."

# HIGHWAY MUST NOT FAIL, RALSTON TELLS GOV. RYE

Believes Taggart, Howell and  
Others Will Bring Harmony  
Out of Confusion

INDIANAPOLIS, Ind., April 8.—Gov-  
ernor Rye, today to Governor  
Rye, of Tennessee.

The Tennessee executive yesterday  
telegraphed Governor Rye, question-  
ing the advisability of proceeding un-  
der the highway adopted at the recent  
governors' conference at Chattanooga.  
In view of the action taken by C. B.  
James, as president of the Dixie High-  
way association, ignoring appointments of  
governors and undertaking to fix the  
route.

Governor Rye's reply follows:  
"Governor movement for Dixie high-  
way must not fail. Taggart and Fisher,  
Howell and Anderson with their asso-  
ciate commissioners will bring harmony  
out of confusion. Patience and a con-  
ciliatory spirit are essential."

Thomas Taggart, Democratic national  
committeeman, and Carl G. Fisher, mil-  
lionaire sportsman, are the Indiana  
highway commissioners named by Gov-  
ernor Rye last night. Clark Howell  
and W. T. Anderson, the governor said,  
are the Georgia commissioners.

## WOMAN TRIES TO ATTACK NEGRO FREED OF MURDER

Widow of W. E. Ormond in  
Hysterics When Jury  
Acquits Husband's Slayer

When a jury in Judge Hill's division of Fulton superior court Thursday afternoon acquitted Tom Ballard, a negro, of the murder of W. E. Ormond, who was shot and killed on the night of November 30 while defending his wife and daughter from a holdup-hunter at their home, 43 Cooper street, Mrs. Ormond, who was in the court room, went into hysterics and attempted to make an attack on the negro, so violent was her grief and resentment.

Deputy Sheriff Plennie Miner took her, with her daughter, Miss Willie Ormond, and carried them out of the court house by a private exit, while other deputies escorted the negro from the building. Deputy Miner took Mrs. Ormond to a hospital in an ambulance, accompanied by her daughter, and she was attended by a physician.

The negro, who was represented by Attorney John Boykin, based his defense on the claim that he ran to the scene of the holdup to protect the ladies and shot Mr. Ormond by mistake, thinking, in the darkness and excitement, that Mr. Ormond was joining in the attack on the ladies when he ran to the scene with a gun. He succeeded in convincing the jury that this was the truth, and the jury acquitted him.

Two months ago the negro was found guilty and was sentenced by Judge Hill to life imprisonment. Attorney Boykin procured for Judge Hill a new trial on the ground that the negro had not been sufficiently identified as the one who did the shooting.

On his second trial, the negro admitted the shooting and explained it as an angry statement. Judge Hill expressed the opinion that the acquittal was justified.

## HOW TO GAIN WEIGHT A POUND A DAY

This men and women who would like to increase their weight with 10 to 15 pounds of healthy "stay there" fat should try taking a little Sargol with their meals for a while and see results. Here is a good test way trying first weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure. If it is a question of how to gain weight, or how to put your friend up and think. The Sargol and the tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this plan. Add best of all, the new flesh stays on. Sargol does not of itself make fat, but mixing with your food, it turns the fat, sugars and starches of what you have eaten, into rich, fat producing nourishment. It is a natural and blood-purifying it is an easily assimilated form which the blood can readily accept and this nourishment now passes from your body to your cells. But Sargol does more than this. It quickly and makes the fat-producing contents of the body more active. Sargol is a safe, pleasant, efficient and inexpensive. Jacobs' Sargol and when taking Sargol, be sure to take it, and vitality will be in large measure, every subject to a package—Sargol & Sargol.

## WARE COUNTY BUSY ON ROAD IMPROVEMENTS

### Pierce County's Pledge to Pail for Dixie Highway Stimulates Work

(Special Dispatch to The Journal.)  
WAYCROSS, Ga., April 8.—Waycross and Ware county people are highly elated over the pledge made by the Pierce county commissioners at their regular meeting this week to aid in securing the Dixie highway. The route which Waycross is after passes through a part of Pierce county where Ware and the road will need some attention to bring it up to the high standard that has been set for the new highway.

The road from Blackshear to the proposed Dixie highway will be improved by adding Blackshear a direct and new connection, besides the road connecting Waycross and Blackshear.

In Ware two canals are working on the highway, one in the upper end of the county, where connection will be made with the Coffee county portion of the highway, and the other in the southern end, where the Pierce and Ware roads will connect.

The road is being built so that they can be used in all kinds of weather, and practically the entire distance through Ware and Coffee has been graded and much of it given a hard surface.

It is going to make a big improvement in the Dixie highway and within a very short time the route through Ware and Coffee will compare favorably with highways that have been built in recent years on heavy roads.

To land the highway is the determination of the officials of Ware and Coffee, and all counties interested in what is known as the Fitzgerald-Waycross route are cooperating heartily.

## DECLARES APOSTLES USED SLANG ONCE IN A WHILE

### Professor Coburn Says They Did It With Decorum and Reverence, However

PHILADELPHIA, April 8.—Slang was occasionally used by the Apostles in writing the New Testament although they never lacked reverence and decorum, according to Prof. Cauden, a German explorer and archaeologist. In his lecture on "Discoveries concerning the New Testament" held yesterday he declared apostles unlearned during the last twenty years of the writing of the New Testament used the vernacular Greek of that time and not an inspired Greek different from any other tongue of earth.

Prof. Coburn announced that he has lately catalogued thirty-eight copies of the new testament written on papyrus between the third and sixth centuries. Twenty-two other copies, he said, have been catalogued by Sir P. G. Keyser, the London archaeologist. Among the interesting discoveries disclosed is that of a Judea's decision which said:

"Thou hast been worthy of scourging, but I will give thee to the people."

"Seeples," said Dr. Coburn, "have said that under the low plate could not have done exactly this thing. The record refutes the supposition."

## THEATERS

"A Pair of Sixes" is the funniest show that has been seen in "Potomac and Kentucky" since it was first introduced. It has an excellent cast and it moves with a snap. Its line is an original and it is a comedy that is perfectly clean.

Our old friend Oscar Frazar, the polar bear and, therefore, the butler of his partner in the pill company, is just as clever in his latest comedy as he was in "The Burgomaster" and the other comedies he has written and acted in.

Running a heavy schedule, the polar bear and, therefore, the butler of his partner in the pill company, is just as clever in his latest comedy as he was in "The Burgomaster" and the other comedies he has written and acted in.

## LOCAL RAILROAD Y. M. C. C. HAS PROSPEROUS YEAR

### Attractive Booklet Entitled "Brotherhood" Tells of Work of Association

The report of the Atlanta Railroad Young Men's Christian Association for the year 1914 has been completed and embraced in an attractive booklet entitled "Brotherhood". This report shows the membership of the Atlanta association increased 33 during the year, a strong link in the chain of 250 railroad associations having a total membership of 43,858. The association furnished baths to the number of 21,650, and nearly 60,000 men used the dressing rooms of the association during the year. Convenient writing and reading rooms were supplied and were used liberally during the year.

The booklet calls attention to the adequacy of the facilities of the dormitory and arranges the work of the officers. "Pair of Sixes" is here for the first of the week with a nation's strike.

It is the last show of the season on Monday night, and to overlook it is to miss one of the bright spots of the year.

DUDLEY GLASS.  
If you want a blend of laughter and tears, and a good show, look for them. Harry Beresford presents a touching dramatic playlet, "Twenty Years Ago," in which he is assisted by a creditable cast of dramatic performers.

George Polle and the Barry sisters, a variety of Atlanta audiences, are back with "The Boy Next Door," a spontaneous burst of burlesque, music and song.

Albert Moore and Myrtle Young offer one of vaudeville's prettiest girl acts, and dances. The Six American Dancers perform a series of spectacular leaps and vaults, and the Joe Bogany troupe, "Luminous Dancers," a knock-out which closes the show without a vestige of rest.

The Musical MacLaurins have a splendid offering of dances, music and songs.

Robert Warwick, the screen star, is back in the Grand Theatre of progress today. "The Man Who Found Himself," an absorbing dramatic feature photograph, directed by Walter P. Reuther, which is at his best, and is supported by an all-star cast of dramatic performers.

Alvin Froy, Madge Evans, Leone Morgan, Ruth Finley and John Hines. The variety of "The Man Who Found Himself" is that of a young back-cashier who is called upon to prove his worth in a series of adventures.

## Couple Avoids Rice And Shoe Shower By Secret Wedding

### By Secret Wedding

Rather than face a shower of rice and old shoes, Dr. Elijah Q. Whitaker and Miss Kate Low Smith were married in the Oakland City community, that is, on their honeymoon, leaving a rather unattractive lot of would-be jokers behind them.

Mrs. Whitaker is the daughter of Mr. and Mrs. E. Smith, of 1st Avenue and Oakland City.

For some time it has been known in the Oakland City community that the two young people were engaged, and this week it was definitely announced that the wedding would take place 77-day night.

Garrets were ransacked for old shoes, rice went up in price, the friends of the engaged couple began searching for cow bells and painting this new sign: "Just married."

Dr. Whitaker and Miss Smith left and returned to their homes, 34 Avenue and Oakland City, and there in total privacy the ceremony was performed.

"We want to be married now," they said.

Also just the three of them went to the Oakland City Baptist church, a few blocks away, and there in total privacy the ceremony was performed.

Thursday night Dr. A. C. Ward, returning to his home, 34 Avenue and Oakland City, found a note pinned to his door by Dr. Whitaker and Miss Smith.

## CLEAN-UP CAMPAIGN IN EVIDENCE EVERYWHERE

School Children Will Make Report on Monday of Pledges—Saturday

Atlanta's school children on Saturday will turn in the signed pledges they have secured from householders to clean up and paint up, and after these pledges have been counted and checked to eliminate duplication, the cash prizes offered by the chamber of commerce will be awarded.

Clean-up week began last Monday and has been the most successful on record, everywhere in the city people are raking trash and leaves and burning them, watering and mowing lawns, painting porches, trimming trees, whitewashing fences, sprinkling disinfectants and repairing their homes with a coat of paint.

The pledges which the school children have secured do not require the signers to clean up and paint up on a particular day or during a particular week, but do pledge them to do these things at the very earliest possible date before grand opera if they can.

Thus any household prevented for any reason from cleaning up this week will help the cause just as much by cleaning up next week, and everybody will contribute to the beauty and health of Atlanta by keeping clean throughout the summer and throughout the year.

**Your Money**

Law & Safe Investment: Don't let it be a hurry. By John M. Oakman.

A good consideration of Wall street was talking to me about investment in the stock market.

"Tell people not to be in a hurry to buy. The average investor, an indifferent one from the steady speculator, doesn't put much money into stocks and what he does invest in is apt to be the worst of the market."

He can very well afford to wait until he finds out about the stock market. He can wait until he is with us always.

Tell your friends to study it carefully for a time before going in. Tell them to put their money in a savings bank for six months and let it draw interest at 4 per cent.

They can then study the market actions of the stocks they think of buying. Suppose in this time the stock market should rise steadily and the stock price to be sound—the increased price in that case will be a small loss.

It is good advice for all investors of small experience. An investment ought to have a market price—whether it be stocks, bonds, mortgages, commercial notes, farm, or city real estate. The market price of a safe and sound investment ought to be the whole, to rise when it rises and the depression ought not to be a loss and it ought to be due perfectly logical and easily understandable causes.

Because of the seller who tries to hurry you into buying by saying that the market price of what he has to sell is going up. In most instances you'll find that he's wrong; and if it does go up consistently and lastingly over a period of months you may reasonably expect that after you buy it the rise will continue.

Don't be in a hurry. You can easily lose in an hour what has required years to accumulate. Look, listen, investigate! The financial history of investment is open to the average buyer can be learned—usually the bank in which you have your money deposited can put you in the way of learning it. For every cent spent in finding out before buying the investor will get back a dollar in safety and better returns.

**CHILDREN HATE OIL, CALOMEL AND PILLS**

"California Syrup of Figs" best for tender stomachs, liver, bowels.

Look back at your childhood days. Remember the "demon" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

When your children tell you that they don't like the old form of physic simply don't realize what they do. The well-founded revolt is well-founded. "Their tender little insides" are injured by them.

A child's stomach, liver and bowels need cleaning, give only delicate "California Syrup of Figs." It is pleasant, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children like to take it; that it never fails to clean the liver and bowels and sweeten the stomach; and that a teaspoonful given twice saves a sick child from a doctor's visit for a violent bout of "California Syrup of Figs," which has full directions for babies, children and adults, and for grown-ups plainly on each bottle. Beware of counterfeits.

See that it is made by "California Syrup Company." Refuse any other kind with contempt.—(Adv.)

**LORIMER LOSES FIGHT TO QUASH INDICTMENTS**

Chicago Bank Officials Must Face Trial for Conspiracy to Wreck Institution.

(By Associated Press.) CHICAGO, April 8.—William Lorimer, former United States senator, and other officials of the defunct LaSalle Street Trust and Savings bank, must stand trial on state charges of conspiring to wreck the institution. The criminal court today overruled a motion to quash the indictment. Twenty-four of the twenty-five counts were sustained.

C. B. Munday, former senior vice president of the bank, obtained leave to file an application for a change of venue from Cook county. The petition, supported by some 1,500 affidavits, set forth the troubles of William Lorimer during the last five years and cited speeches by Robert M. Switzer, defeated for the mayoralty last Tuesday, in which he referred to William Hale Thompson, as "the twin brother of Mr. Lorimer."

The petition recited that Mr. Switzer made these remarks to "thousands of citizens" and that they reflected upon Munday because of the latter's association with the former senator.

Today's action relates to charges directed from those returned by a federal grand jury and which had to do with the LaSalle Street National bank, which later was transformed into the state institution which failed.

An Oil Company Will Build Laboratory to Try Out Chemist's New Process

PITTSBURGH, Pa., April 8.—Experiments are being conducted here by Dr. Walter F. Rittman, the young government chemist who has evolved methods for extracting benzol and toluol from crude petroleum.

The work is being done in a temporary laboratory, but construction of a new plant, which an oil company has agreed to build in order to try out the Rittman discoveries, will begin within the next few weeks.

The plant will be located near the new testing station of the United States bureau of mineral products, which is being erected by a government expert, but he refuses to discuss his experiments, saying all announcements will be made by the secretary of the interior, Franklin K. Lane, at Washington.

## Kayser Silk Gloves

wear so much better

The very foundation of the Kayser Gloves—the Kayser Silk—is pure and strong. Fine workmanship alone could not make Kayser Silk Gloves wear longer if the silk itself were not right. In 30 years of silk spinning, we have learned how to make use of a heavier pure silk thread (not weighted), without interfering with the delightful coolness of the gloves. This makes Kayser Silk Gloves wear so much longer that millions of women have learned that the one thing to look for in a silk glove is the trademark "Kayser."

Two clasp gloves are always 50c, 75c, \$1.00, \$1.25 and up; twelve and sixteen button lengths are always 75c, \$1.00, \$1.25, \$1.50 and up. The name "Kayser" in the hem and with each pair is a guarantee ticket that the glove will outwear the glove.

RECEIVERS APPOINTED FOR  
L. B. GREENHUT COMPANY

The New York Department  
Stores Liabilities \$3,500,000,

## Assets About \$7,000,000

(By Associated Press.)  
NEW YORK, April 8.—Directors were appointed today by Federal Judge Hand for the N. J. Greenbush company, which operates a large cement plant at Atlantic City.  
The receivership was asked by the Monmouth securities company, and the defendant consented. The receiver named was Joseph A. Hoge, and William A. Marble were named as receivers, with bonds of \$100,000 each.  
The Greenbush company had an authorized and outstanding capital stock of \$6,000,000 and a paid issue of \$9,000,000 sinking bond issue. It has been authorized to issue of the bond issue \$150,000 worth of the kind which were to be retired annually. The corporation was organized in 1902.  
Two corporate changes have been made since incorporation of the original firm, Greenbush & Co., in November, 1901. The first occurred when Greenbush & Co. was consolidated with

The department store conducted by the company, long known as the Siegel-Cooper store, is located on both blocks on Ninth avenue between Eleventh and Nineteenth streets. Assets of the store are listed in the complaint at \$7,541,216, including merchandise, cash and accounts receivable. The liabilities, it is stated, aggregate \$3,551,000, not including the mortgage. The store's net worth is estimated to be approximately \$4,000,000.

The J. B. Greenbut company also is treasurer of the Merchants Securities company. The suit is based on indebtedness of approximately \$200,000, alleged to be due the Securities company and representing money loaned the Greenbut company. William A. Carle, one of the directors and vice president of the Merchants association of this city, Walter C. Noyes is a former judge of the federal district court of this district.

The J. B. Greenbut company conducted a business bank for the convenience of its customers. In December last, however, the firm was informed that it had failed to withdraw from

banking business, and that no interest on deposits would be paid after January 1, 1978. The date fixed by the firm for its withdrawal from the banking business was March 1. These were depositors' two months' notice and it is not surprising that they took themselves off to withdraw their savings.

A few minutes after appointment of the receivers, an involuntary petition in bankruptcy was filed against the company by three creditors with claims aggregating \$5,000. They alleged that the company's assets, exclusive of real estate, do not exceed \$6,000,000.

"The order appointing the receivers authorizes them to continue the business, and the business of the company will be conducted in the usual and normal manner.

"The company has always enjoyed the highest credit. The papers filed today, showing the company's real estate, show that the company as of March 31, 1915, amount to more than double the total current liabilities.
