

**MRS. VIRGINIA W. SCHLEY
IS KILLED BY AUTOMOBILE**

Aged Woman Struck by Car
Driven by H. C. Wiggins
While Crossing Peachtree

Mrs. Virginia Wallace Schley, aged seventy-five years, formerly of Atlanta, and a member of one of Georgia's leading families, was knocked down and killed Tuesday afternoon at Peachtree and Linden streets by an automobile driven by H. C. Wiggins, a postal railroad clerk who lives at 584 Woodward avenue.

Mrs. Schley lived with her son, Louis W. Schley, a cotton broker of Atlanta, at the residence of Mrs. Carrie B. Smith, 599 Peachtree street, at the northeast corner of Peachtree and Linden streets. It was 6:30 o'clock, when Mrs. Schley crossed Peachtree street to the house where she took her meals. She was alone. In the darkness of the night, an automobile, which was running smooth, stopped near her and dragged her a few feet. She was then struck by a Mr. Kamps, a storekeeper in the southwest corner of Peachtree and Linden streets.

R. P. Show, a clerk in Alken's grocery store, who was walking across Peachtree street from the radiator of the automobile and ran over toward the corner, saw Mrs. Schley lying on the ground. He was joined by a Mr. Matthews who was passing, and they carried Mrs. Schley to the Davis-Flaherty sanitarium at 122 Peachtree street, half a block west of Peachtree.

An hour later Mrs. Schley died. Her son was broken and mangled. She had concussion of the brain. Her son, Louis W. Schley, who arrived a few hours after the accident, was at the side when death came.

Wiggins got out of his car and followed the two men who carried Mrs. Schley to the sanitarium. He was told that she was all broken up, and asked them what they should do. They advised him to report to the police, so the two men, who encountered a policeman, and Wiggins gave him his name and address. The police officer, Captain Jett, ordered that Wiggins be arrested and placed under bonds of \$1,000.

WIDOW OF ROBERT SCHLEY. Mrs. Schley was the widow of the late Robert Schley, of Augusta, a prominent and wealthy man who was president of the second cotton mill built in Georgia. His father was John Schley, Judge of the Superior Court of Augusta. His grandfather was Thomas Schley, who settled Fredericksburg, Va. John Schley was a brother of William Schley, who was a nephew of Congressman William Schley Howard was named. Mrs. Schley's husband was a son of Admiral William Walker, the hero of Santiago.

Besides her son, Louis W. Schley, Mrs. Schley is survived by the following: three sons, Mrs. T. D. Howell and Mrs. John Wallace, both of Augusta; seven nephews; William Walker, J. Miller Walker, Fielding Walker and Theodore Caswell, all of Augusta; three nieces, Mrs. T. D. Howell and Mrs. John Wallace, both of Augusta; and a brother, James Walker, of this city.

Mrs. Schley was born at the ancestral home of the Walker's at Bath, a watering place near Augusta. She lived in Augusta during her life, except for two years ago, when she moved to Atlanta to be with her son.

The body was removed to Patterson's Chapel, where it will be seen on Saturday and Sunday, and then be sent to Augusta Wednesday afternoon for funeral and interment.

Activity of Former Dictator's

Recent Reverses of Villa

EL PASO, Tex., April 21.—Since Villa's recent reverses, activity among the so-called reactionaries, of whom Huerta and Gómez, the former leaders, have become more apparent across the border. Several former federal generals have appeared here within the last few days.

It is said to be a new revolution, and it is armed with a quantity of small arms and ammunition. In some cases, overrunning Carranza and Villa purchasing agents, and no expectations have entered Mexico as yet, as men learned here, nor have any sympathetic units been organized in the interior. Oregon's arrival, since his advance north has delayed more than ever the hope of reorganizing the Villa-Gómez forces. General Gómez, who was named provisional president by the convention, is said to be with Zapata in the vicinity of Mexico City.

Drunken Mexican Officer

Caused Firing on Airship
BROWNSVILLE, Tex., April 21.—A United States army plane, under Fort Brown, near here, was fired on late yesterday from the Mexican side of the border. Twenty rifle shots were directed against the machine, while simultaneously a machine gun on the Mexican side from Fort Brown fired at the plane, which directed it is believed in army circles here, at the air craft. The machine landed at Matamoros, opposite here, is occupied by Carranza troops.

The plane was piloted by Lieutenant B. Q. Jones, with Lieutenant W. H. Miller as passenger-observer. The aeroplane was not struck, but one bullet hit the engine, and another hit the tail. Another bullet hit the engine at Fort Brown and another was picked up near the city hall in this city. General Gómez, the Mexican commander at Fort Brown, has reported the matter by wireless to Major General Frederick J. M. Nichols, commander of the department of the south, at Fort Sam Houston, San Antonio.

John Z. Garay, Carranza consul in Brownsville, who made a complaint and asked that an investigation be made by United States army officers, that the firing was done by a few Carranza soldiers in command of an intoxicated sub-lieutenant.

**BATHING SUITS WON'T BE
UNDER CENSOR THIS YEAR**

Anything That's Decent May
Be Worn at Piedmont
Park Pool

Preparations are being made by Park Manager J. O. Cochran to open Piedmont lake to bathers near the middle of June.

According to Mr. Cochran, there will be no restrictions placed on kinds of bathing suits this year, the park board only demanding that the suits contain sufficient material as not to call for the enforcement of any of the city ordinance against public indecency.

With the coming of spring, crowds are flocking to the lake, and the city's thirty-two tennis courts are proving especially popular.

There are eight courts in Piedmont park; six in Grant park; two in Mims' park; three in Oakland City park, and one in each of the parks of Highland and Springdale parks. Three courts are in the course of construction at Adair park, and will soon be open.

The park polo players must relinquish the courts on the hour, and children are not allowed to play after 5 p. m.

**SMOKE INSPECTOR GIVEN
MORE WORK ON SAME PAY**
Hereafter He Will Test All Oils
Purchased by the
City

The name of the smoke department was changed and the scope of its work very substantially enlarged by an ordinance which went into effect yesterday afternoon at the request of the smoke board.

The ordinance, which was ratified in the form of an amendment to the ordinance which created the department, will now hereafter be known as the department of mechanical engineering, and the smoke inspector will be known as the city mechanical engineer.

In addition to inspecting smokestacks for the purpose of enforcing the city smoke laws and testing all oil and gas meters, which work the smoke inspector now does, he will in future, under the new ordinance, inspect all the fuels and lubricants bought by the city. In the course of a year the city buys some 15,000 barrels of oil, several thousand dollars' worth of gasoline and oil for its automobiles. Up to this time it had no systematic test of these supplies.

Although the duties of the inspector are largely increased, there is no increase in salary provided by the ordinance.

Taking Care of the Children.
No parent would consciously be careless of the children. Joe A. Romaine, Children's Hospital, says: "We care for our two children for croup, coughs and colds. We say: 'We are here to help you, doctor, and we are in the house.' A distressing cough, sleepless nights, and raw, inflamed throat lead to a run-down condition in which the child is not able to resist contagious or infectious diseases. Feby's Honey and Tar is truly healing and restorative in action. It relieves coughs, colds, croup and whooping cough. Sold everywhere." (Advt.)

Lime and Tuberculosis

Dr. Robert Bartholomew, former professor in "Tuberculosis," says: "I have been widely famous as a medical writer, says in the article 'Tuberculosis' in 'The Medical and Medical' (1890), on pages 215 and 216.

"Clinical experience has shown that it is frequently necessary to not refer to the term 'tuberculosis' in regard to the disease, through the use of Elixer's Alternative, since the medical world has not yet been able to find a recommended preventive remedy. However, this is not the case, as the use of Elixer's Alternative many cases of consumption and other diseases are now being treated, and all seem to have flocked completely to this remedy."

Doubtless this success is due largely to the fact that in Elixer's Alternative a calcium nitrate and lime compound is easily assimilated by the average person.

It contains neither cocaine, narcotics nor salts, and is safe to the system. If you buy it, it will be it or will get it, or you can order it.

DR. PEARCE'S JUDGEMENT ON COTTON IS VINDICATED

Head of Brenau Predicted 10-Cent Mark Before End of Scholastic Year

"I have been vindicated in my belief that cotton would sell for a cent a pound before the end of the scholastic year at Brenau, and I have sold some of the cotton I have at Brenau in payment for scholarships at that price," said Dr. H. J. Pearce, president of Brenau college-conservatory of Gainesville, Ga., who is a visitor to the city today.

It is recalled that Dr. Pearce early in the year predicted that cotton, a drug on the market and was bringing around 6 cents per pound on the wagon, would bring a thousand dollars when he would accept cotton from parents who had raised their cotton and were unable to sell on account of the low price, and who wished to help their daughters to college.

Dr. Pearce's generous offer is free by account of the fact that for six months he has carried in the warehouse over 100 bales of cotton, and has enrolled twenty-four students, all of whom he would accept cotton from parents who had raised their cotton and were unable to sell on account of the low price, and who wished to help their daughters to college.

"When the future market advanced above 10 cents per pound, said Dr. Pearce, he notified the parents in the three states of Georgia, Alabama and South Carolina holding this cotton to sell it at a price of 10 cents per pound.
